You are invited to an exciting weekend away at the beginning of the February half term for a brothers' workshop at Livingstone House in Chislehurst. This is organised for brothers aged 11-18, co-directed by Benjy, Paulo and Len.

As young men, we understand the importance of staying connected and forming strong relationships between brothers in faith. At this important age, it is critical to surround yourself with people that can support your development in becoming a man of integrity, through all the challenges and milestones during your adolescence.

In this workshop, we want everyone to feel the support of a loving community, and a connected peer group. This is why we would like to bring you all together as we want to spend this time creating deeper bonds, reflect on ways to grow and better understand what we believe in.

We are preparing our speakers to give talks on the following topics: developing a life of faith as brothers, purity, how to form genuine relationships and other reflections/testimonies from older brothers. We will also schedule plenty of chances to have discussions, chill time and have fun (sports, games, karaoke...).

There will be time designated in the schedule for participants of the [Ilishim Program](#), to make sure that no content is missed.
