Programs that will be offered during these 40 days:

**International CARP talks** are specifically designed so you can easily and naturally introduce Divine Principle teachings to your guests. It consists of a 15min talk given by experienced speakers on DP related themes, followed by a group discussion which allows you and your guests to go deeper and share your thoughts and feelings on the topic. In the end, we have games that also help create a horizontal connection and have fun with other participants. Each session will be a bit different to make it an interesting and enriching experience for you and your guests.

Every other Tuesday, the **meetings** are meant **for members**, they are here to give you inspiration, guidance, and support on your journey of giving spiritual rebirth to others. You will receive guidance from Martine Masner (Witnessing Department director), followed by an open discussion. This is also a space for you to tell us about your guests and propose suggestions on how to make the CARP Talks more suitable for our guests. It is a great opportunity to share about your victories and future goals.

The Witnessing Department and International CARP will organize a **2 Day Divine Principle Workshop** between May 13th and May 14th. The lecturers will be young experienced members.

We also recommend as part of the condition to write down in a notebook everyday the names of those whom you witness so you can keep track and pray for them better.

We really hope that through this condition we can support each other in all our efforts to share and grow our movement and ourselves.
