TESTIMONIES

Sabina Neto, 22, Female, Lisbon, Portugal, 2022. 10. 16.

Lately, I had been struggling so much with praying. I'm still not sure why, but I had a very strong internal block that made it so difficult for me to truly connect with Heavenly Parent and True Parents and pray sincerely. I was just praying out of habit. On this special South -Region CheonBo event, I had a chance to experience for the first time the vigil prayer. At first, I felt a bit of self-conscious – I had never heard prayers quite like that. But soon, after a few minutes, I felt an overwhelming feeling coming over me and I just started to cry and cry so much. I had missed Heavenly Parent's heart so deeply, but I had gotten distracted by everything around me and that made me disconnected with my internal spirituality more and more. I prayed so sincerely that night that even after I got home, I was still buzzing with an excitement I hadn't felt in so long. After the vigil prayer the rest of the event went smoothly and every time, we were asked to pray I could so easily tune back into my heart and emotions. I believe it was truly the grace of Heavenly Parent and True Parents that made it possible. Thank you! I love you!

TESTIMONIES (continues on the next slides)

Rev. Giuseppe Cali, South-EU Sub-Regional Director, Lisbon, Portugal, 2022. 10. 16.

I arrived to Lisbon, coming from Rome on October 14th and I joined the team that was preparing the event in our HQ Church and Peace Embassy. All team worked hard to prepare everything very well, to receive all brothers and sisters and conduct a smooth event in all aspects, from the spiritual ones to the technical ones.

In the evening we had dinner together and I was asked to pray. **I had a prayer when I arrived from the airport, in front of True Parents picture in the main hall, and I had already at that time a strong feeling of spiritual presence. As soon as I started to pray, I had a vision of spiritual people running around to prepare for the event. One of them, one of the ancestors already liberated and blessed, that was a kind of coordinator, was smiling at me and he communicated to my mind: “You see? We are also busy with the preparation! You are not working alone!”.** It was just a flash, but very meaningful. In the past I had several other spiritual experiences and I came to know that, in the spiritual realm, people are still working hard, they have a mission, an organization, a social life and so on.

TESTIMONIES

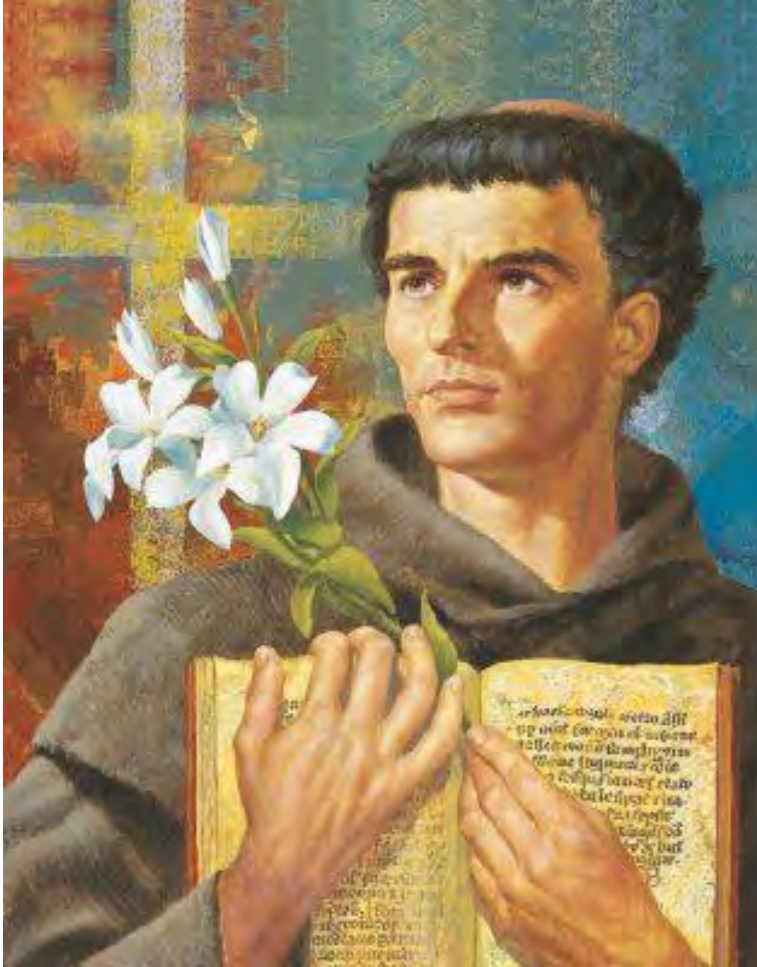

We often imagine that spirit people are just floating around with nothing to do, but in reality, they are very busy, even though the way the time is working there is different from our dimension. Their work is even more complicated than our one, because they have to deal with several dimensions and very different levels. I shared my vision with brothers and sisters at the dinner table and it was an occasion to share many other things. I'm grateful that time by time I can experience spiritual realm, because it gives me strength and encouragement, because I feel that we are not alone. I call them "my dear elder brothers and sisters" because what unites us is a deep love. Most of the times I live these experiences in clear dreams, where time by time True Father and True Mother appear.

On the 15th evening we had a vigil prayer, together with all brothers and sisters of Portugal and several others connected through zoom, from other countries. I was asked by Rev. In Pyo Moon, to offer the blessing prayer at the end. I have to say that, when the spiritual presence is very strong and high, my body starts to shake, sometimes very strongly. My heart too, beats strongly. When this happens, I already know that I'm going to experience the spiritual world, the good one, because when bad spiritual world comes my reaction is different.

TESTIMONIES

This is what happened, as soon as I started to pray, I saw Saint Anthony coming smiling to me, surrounded by four other high spirits, two on the right and two on the left, who I couldn't not recognize. ...He (Saint Anthony) didn't say any word to me, he communicated to me with his eyes, that this prayer was not just my prayer, but it was the prayer of all of them as well. They prayed together with me and through me. They were bright, smiling at the beginning, but they became very serious during the prayer. All our emotions melted together and I could feel their hearts deeply, as they could feel my heart. It was so powerful that I felt as I was going to be lifted up. I lost the consciousness of time, but I guess the prayer was not too long, but in my perception the time was much longer, as I prayed hours. When I finished, I could hardly stand. I pull up all my strength and will power, not to make anybody noticing that I was almost going to fall on the floor. My legs were soft and my body still shaking, but my spirit was in a very beautiful state of peace and gratitude.

TESTIMONIES

- Saint Anthony is a saint,
- Lived between 1195 – 1231 AD
- He met Saint Francis
- And they had a beautiful exchange in faith.
- He was called the “Saint of Miracles”
- But his main power was God’s Word.
- Nobody could resist to him when he preached.

TESTIMONIES (end of the testimony)

To conclude, I'm writing this testimony because Rev. In Pyo Moon asked me to do it. Usually, I don't like to speak too much about it. Only when there are some meaningful messages that could help brothers and sisters, I convey it by lectures and sermons, but I never emphasize so much spiritual experiences. For those who don't have such experiences, sometimes is not easy to understand or even accept it. **We should understand well that we are all surrounded by spirits and we all have spiritual experiences. The only difference is that someone, for some reason, becomes aware of it and some not.** My mother was a medium and I have been living all my life with this awareness, since I was a child.

Anyway, I appreciated a lot Rev. In Pyo Moon for his guidance, love and bright spirit, so I couldn't say no to him. **I hope this testimony could encourage brothers and sisters to pray and research more the spiritual side of our life, because that is the real world, much more than the physical world that is just a shadow of the reality.**

I'm always grateful to Heavenly Parent and True Parents for the life they gave to me and for entrusting me with a public mission, through which I can grow and live such meaningful life. Thank you! Giuseppe Cali

In this event I felt that my ancestors were standing behind me feeling so happy and grateful for being liberated and blessed. I wish they can be happy and come back to us so that, together, we can build one world under God and one united Family. AJU.

Because of this Cheonbo event I felt like I received a lot of heavenly fortune and blessings, so I am very grateful. I felt, I became very united with True Parents and really became one especially with True Mother as the only begotten daughter. At the same time I felt so sorry that I couldn't do more sometimes and felt a new determination on how I can return glory and victory to Heavenly Parent. We say we became a Cheonbo family but we are still so sorry that we haven't substantially established the Cheon Il Guk nation. But in this event, I felt that my heart was really moved, it truly felt like a celebration with our ancestors. I would like to thank the providence of Cheonwon Gung and the Cheonbo team. True Mother we love you and we wish that you can receive a lot of strength through us! I really hope you don't forget we are always with you.

How grateful we are to Heavenly Parent for this opportunity and to our True Parents! I felt that this was a great opportunity for all of our ancestors. During the liberation of ancestors, I felt how much our ancestors caused suffering to others. In my husband's family on the mother's side, there is a great difficulty in controlling emotions and since the death of my mother in-law, I have felt this in my youngest daughter too. This time I invested with all my heart, even liberate central evil spirit on behalf of my daughter. During the Hyojeong Offering Ceremony I prayed with all my heart that all our ancestors who are already blessed will stop living with shame and guilt for faults that had not been erased. **I realised from all the testimonies and messages given by our leaders Rev. Giuseppe Cali and Rev. In Pyo Moon that today is the time to make strong determination to use the spirit world. And only through us when we improve our attitude and behaviour we will able to fulfill God's desire.** Thank you True Parents! Thank you to all the staff CheonBo for working very hard.

During this 2-day event I could really feel how the atmosphere was holy. The vigil prayer was the most touching time for me. All the tension went away and the heartfelt prayers gave me hope, same time my heart aches thinking about the pain that Heavenly Parent has suffered for such a long time. Suddenly the tears started falling from my eyes and I couldn't stop crying. When I sang Amazing Grace, I sang it for my ancestors and especially for Heavenly Parent and True Parents, and when I was nervous, it all disappeared. It was a nice experience and, in the end, I couldn't stop smiling!

Thanks to Heavenly Parent and True Parent's providential work, **this was a seminar of revitalization, reflection and spiritual strengthening.** I felt lightness and satisfaction that I could participate; I felt gratitude towards Heavenly Parent and True Parents for giving us one more blessing. **Let's unite and work together in order to construct the Heavenly Kingdom and attend our precious True Mother, so we can build Cheon Il Guk. Aju.**

Thank you True Parents!
