

Final All-Italy Youth One-Day Seminar on Divine Principle in Padua, Italy

Giuseppe Cali
September 24, 2023

The ten young speakers came from different parts of Italy, and each of them had 20 minutes to explain the different chapters from the Principle from the Ideal of Creation to the Second Advent and how the teachings can be practiced in our lives. There were 38 people in attendance, including three guests and another 40 people followed online.

The event was highly appreciated, and each of the young people was able to touch the hearts of the audience with their personal gifts, including knowledge, emotionality and creativity.

This day brings to an end the Principle for Teachers course project that lasted for six months from March 12 to August 6, 2023, which saw the young Unificationist being engaged every two Sundays for three consecutive hours, going in-depth through the different chapters. The purpose was to know the teachings of True Parents, practice them in our lives and be educators in our society.

We thank Rev Giuseppe Calì and Rev Sergio Coscia for being the main teachers and mentors of the course, to Rev Gukson Capone for the organization, and to the Padua community for the warm welcome.

We will try to replicate a similar project for next year.
