

FFWPU UK: Team England Wins At The United Volleyball Games

Michael Balcomb
January 8, 2025

Hear all about the recent Volleyball Games that took place in Vienna, hosted by the Austrian Team!

The United Volleyball Games took place in Vienna from January 5-7th from teams from across Europe taking part. It was a wonderful opportunity for volleyball players from different countries to come together to celebrate the spirit of competition, teamwork and passion for the game. Apart from matches there was also plenty of time for everyone to enjoy meals and icebreakers together, enabling everyone to have great new conversations and memories.

Read a testimony here from Hannah L. who was part of the English Team!-

'It was an amazing experience!! Everyone was super welcoming making it easy to talk to people so during the time at the church center it was super fun to interact with people I have never met before from other countries. The tournament itself was so fun as we got to connect more as a team but also have a great time playing volleyball against other teams. Making it to the finals and watching the other semi-finals games the atmosphere was intense but that made it all the more better as all teams fought super well making it both an entertaining game for watching and participating in! I definitely wish to go again and am excited to see it will go in the future!!'
