My name is Kenko Wada, a second-generation from France. In 2024, I founded the United Football Games (UFG), a major sporting event aimed at bringing people together and inspiring youth through football.

This edition of the event will take place from July 1 to July 5 in Germany, bringing together young players, communities, and supporters around the shared values of sport, unity, and solidarity.

At a time when Europe is facing many challenges and divisions, we believe it is more important than ever to create moments where people can come together, connect, and build positive experiences. Through football, the United Football Games aim to promote unity, mutual respect, and hope among the younger generation.

As part of the organization of this initiative, we would be honored to receive your support as a national leader. We would be truly grateful if you could share a message with your community encouraging them to visit our official website, follow our social media pages, and support our initiative.

In the JPEG attached below, you will find all the ways people can support the project. Even if it is not through a donation, simply following or subscribing to any of our social media platforms already makes a huge difference and helps us expand our reach.

Your voice and influence would greatly help mobilize supporters and contribute to the success of this

meaningful project that promotes unity, solidarity, and personal growth through sport.

Of course, we would be happy to provide any additional visuals or information to make sharing easier.

Thank you very much in advance for your support.

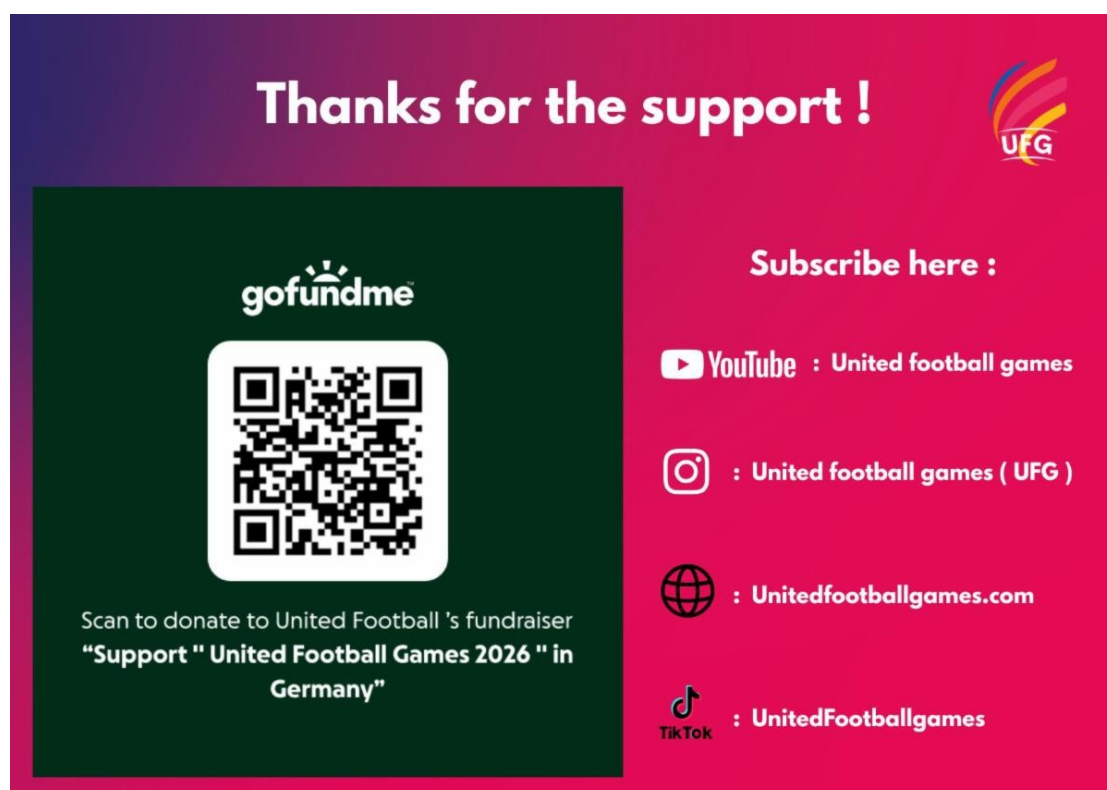

Warm regards,

Kenko Wada
