

The manuscript for the Swedish Principle book is ready

Friedhilde Bachle [Becker]

July 31, 1972

Stockholm, Sweden

This month we have had the 3rd European Conference. We were glad to see so much progress in many domains of Father's work and the realization of many big projects. We felt united in the spirit of our True Parents, their inspiration, their example and their blessing of their being here brings us close together. Really, our Master works wonders!

By this time, the manuscript for the Swedish Principle book was ready to be printed. Until now we only have given out chapters, but as soon as we have the book, we shall use the method Master told us.

Some days ago a theologian sent a very positive letter referring to what he has heard about our movement on the occasion of the religious conference "What is truth" which was held in Stockholm. He wants to read the book and to learn as much as possible about our work and aim.

A girl from the Norwegian family stays here for one week and supports the Swedish mission. Very soon she found out that it is not easy to stop the people in the streets and talk to them really deeply. Nevertheless we had some very good talks fighting with all our heart.

Since it is summer time in Stockholm, we are working on the translation of a series of anti-communistic articles by Mr. Schwarz. They will be printed then so that we have efficient material for the next winter season.

Besides, before going to work in the morning, I am studying English in order to be for international co-operation.

Our love is with the True Parents and our homeland.

In the Name of Our True Parents,

Friedhilde Bachle
