

## UPF Munich, Germany Prayer Breakfast for World Interfaith Harmony Week

Robert Bentele  
February 11, 2023

### **Topic: How can religious communities contribute to real peace in our world?**

Introductory remarks by the moderator, Robert Bentele, about UPF, WIHW, and the meeting topic were followed by enriching contributions from representatives of various religious communities.

**Billie Wegmann**, the pastor of the Church of Scientology, delivered a keynote speech on the golden rule and showed two short videos on the subject.

**Malik Usman Naveed**, Imam from the Ahmadiyya Community in Neufahrn, said some words about the topic from a Muslim point of view and stressed that, above all, a 'higher authority', Allah, is necessary for a moral perspective.

**Wolf Osterheld** spoke on behalf of UPF. He referred to Rev. Moon's proposal to establish an interreligious chamber at the UNO and that, first and foremost, peace always begins with the individual.

Moreover, much was said about the power of prayer. A lively discussion ensued.

Our host on this occasion was the Bavarian Church of Scientology. On the invitation of Imam Naveed, our next event will be held in Neufahrn.
