On Sunday, October 21, the Clifton Family Church was excited to welcome President of Family Federation for a Heavenly USA, Rev. Richard Buessing to speak at their Sunday service about the importance of Korean in the providence of God.

Rev. Buessing focused his sermon on the relationship between Korea and America. In the Korean War, America lost almost 50,000 lives in Korea. The relationship between America and Korea can never be broken. True Father spent 40 years of his life dedicated to America. Rev. Buessing said, "True Mother spent a good portion of her life here. She has the spirit and power that America has. We must realize True Parents' love for America."

Rev. Buessing read a passage from the Cham Bumo Gyeong then told the audience, "When True Father was traveling with leaders around the world, he wrote many beautiful letters to True Mother in Korea. We must read these books and learn about True Parents. We need to revitalize the spirit in American through reading True Parents' words."

After the service ended, Rev. Buessing's energy and compassionate words encouraged several families to purchase their own copy of True Mother's Anthology.
