The following is a testimony about [True Mother Hak Ja Han Moon: An Anthology](#) from Mrs. Marjorie Buessing.

Since the day True Mother's Anthology arrived in New York, Richard and I started reading the books right away. To be honest, I bounced around in my reading, focusing on the first and last books. However, last week I made this Anthology set the center of my preparation to meet True Mother at the [Peace Starts with Me Rally](#) next month.

Much like how reading the Divine Principle or the Bible from beginning to end has great value, I am discovering reading the Anthology from beginning to end is opening whole new vistas within my heart. The Anthology grants me an intimate and personal view of True Mother's heart. Along the providential way I discovered wonderful treasures about True Father and his work, about True Parents' relationship and personal moments with their family.

[True Mother Hak Ja Han Moon: An Anthology](#) is a selection of True Mother's speeches while she was on tour. Volume I is categorized by topics, Volumes II and III are from public speeches and Volume IV is True Father's words about True Mother. The complete set is continuously teaching me about True Father's life work, True Mother's heart to complete that work substantially, and True Parents' desire to comfort our Heavenly Parent and bring humankind back to home and peace. I am learning so much and found the Anthology is a blessing in my life.
