

An Opening Prayer during the IFFA-Kor (Filipino Community) 3rd Gen Assembly with Pres Sunjin Moon & Insup Park

Cheongbok Gung Seoul HQ April 22 2017
By Bishop Winny

Good morning families, let's have a moment of communion with God and invite the spirit of love and peace to flow into our hearts, today,

Gracious & ever loving God, / the eternal heavenly parent of humanity, / accept our heartfelt gratitude and praise / for allowing us / to have this assembly / centering on your precious children Sun Jin nim & In sup nim / together/ with the more than 600 multicultural families gathered here / today.

We would like to mark this gathering / to be one of the most special meetings we have / in the history / of our Philippine community here / in the fatherland. / As we warmly welcome / your dear representatives, / we want to remember / that, this very rare opportunity, / is one of the greatest blessings / we have received from you today.

Just recently, / 10days to be exact / we just celebrated / the Holy Wedding anniversary of our True Parents. / The Number 10 is a number of RETURN, / therefore, / providentially speaking, / today's assembly is the time that we are / marching towards the NEW historic beginning / to finally return ourselves to heaven / as we all pledge today / with all our hearts / to support the amazingly great works / of our True Parents towards vision 2020 centering on True Mother.

It is an undeniable fact / that we are now / in the women's era / the era centered on true Mother / and we / being / the international wives / can't ignore the truth / that you have chosen us / you have called us / and destined us / to be partners of True Mother / in completing the task of building God's Cheon Il Guk.

When True Father was still with us / here on earth, / we failed to recognize / the greatest value of True Mother to the fullest. / And we greatly repent for that. / Seeing True Mother / the way she carry herself / in the midst of all these chaos / and confusions in our community / we feel so repentful that / up until now / our own level of attendance / is very far from the / standard of heaven /

Knowing our True Mother's life course / and her strong determination / to continue the task of True Parents / until its fulfillment / made us reflect seriously / that we ourselves / have fallen short / in many ways / in our responsibilities. / Most serious of all / is the fact / that we haven't reach the standard / of filial and loyal heart in front of our TPs. For these / we bow our heads / in humility / and bend our knees / in repentance / that we couldn't even lift up our face to heaven with confidence. / We beseech for your forgiveness / that we may, / once again / regained our pride / and dignity / as blessed central families

When True Mother declares this remaining period of the providence to be / years of Hope / and the period of realizing / Heavenly Parents dream, / how great and lucky we are / to be living at the time / while True Mother is still alive / and being asked to conclude / the providence together with her. / It is an amazing grace & blessing / beyond any description.

For this remaining years / True Mother asks ALL OF us / 2 basic things / **FIRST**: that we may lay a very strong internal condition of heart centered on the tradition of **Forgive / love & unite.** / Because / Satan cannot touch anybody / who practices this heavenly tradition / of forgiving our enemies / loving unconditionally / the unlovable / and unite beyond all kinds of boundaries. / *Forgive Love & Unite / is the most beautiful / expression of FILIAL PIETY / that we must inherit from True Parents.*

Secondly: In front of heaven, / our filial duty as your children / is to realize that dream / without fail / and actualize that dream right here in Korea / Your homeland of faith / the center of CIG. / We hope / that / the completion of our responsibility / and fulfillment of this providential task / given to us, / be the greatest gift we could offer / to our True Parents on 2020.

Heavenly Parent, / it is our commitment / to own your dream / fulfill your will / and be with True Parents' authority forever and for eternity.

Let this gathering today/ with Sun Jin nim & In sup nim / become the moment that / we can inherit your confidence / and once again / receive your trust / as your children. / We wish to connect our hearts / to our True Parents thru them / learn more about True Parents' heart thru them / and we want to participate greatly / in this historic providence thru them.

Let this moment be a time for healing / and for love to flow naturally into our hearts / that everybody / may find peace and comfort / knowing that we are all / eternal siblings under the parenthood of the True Parents.

Bless everybody / who are convening with you today / that we may all be filled / with your abundant grace / and heavenly fortune / thru your precious children

Once again / we offer to you our gratitude. / Be with us and join us in this celebration / & reunion of hearts / with the couple of our International Pres / Sunjin nim & Insup nim

From the bottom of our hearts / we shout / thank you True Parents / we love you True Parents / Father we miss you dearly but don't worry / and be assured of / that we will support True Mother / and / we will be with TM until the conclusion of this history .

True Parents thank u and we love you sincerely

This we fervently ask and humbly pray / and report everything thru our names....
Winny Cayme and all Blessed central families, gathered here today.

Aju Aju Aju!
