Finally STF 2013 - 2014 has started

Dear brothers and sisters,

Finally STF 2013- 2014 has started. This year we have 26 new participants from 12 different countries including; Korea, America, Tunisia and Macau. Of course, we have 8 2nd years, who will lead teams, and 2 commanders, who will support me to take care of STF members.

On the 15th of September we all gathered in Camberg for the STF Preparation Workshop. This workshop was run to help the members get to know each other, as well as being a natural transition period into the STF lifestyle.

From the 22nd to 25th Sept. we had the Kick-Off Workshop with, the lecturer, Dale Rose, who was the director last year. The focus was on fundraising education before they

left for their first fundraising experience in Switzerland. Thank you for sending your children and trusting STF Europe. I can already feel that this year will be great and I will work hard so our Heavenly Parents can be present and work through us. God bless you.

AFTER OBSTACLE COURSE

STF Prep. Workshop

Neumühle, Bad Camberg, Germany
15th to 22nd September

The motto of the workshop was "Man in the Mirror" which allowed members to see their potentials, as well as weaknesses, so that they can work on their personal development. This workshop consisted of talks about STF, including testimonies from the 2nd years and lectures about 2nd gens' identity, values and good leadership education by Julius Alexy. This was followed by 2 day Divine Principle lectures by Laurent Ladouce. On the 18th we had an opportunity to go to Frankfurt for a challenge day. Each team had tasks to do and it was great preparation for fundraising.

AMY BROWN

Prayer was the most significant part of the workshop. I haven't talked to God about something as passionately for a while and it helped me to redetermine myself.

ANNELISE
BRAMSEN

I could experience how deep is the heart of my team leader and team members. The good will from everyone around and how everyone is just so ready to help and give to others.

SAMUEL
RAYNBIRD

I have thought deeply about my life of faith. Especially during the prayer. It was a deep experience realising how important a life of loving and giving is.

KICK OFF WORKSHOP

Schmitten
22nd to 25th September

After the STF Prep Workshop, all the STF members went to Schmitten on foot, where we held the Kick-Off Workshop. Dale Rose gave fundraising education to the members. Also the members took time to think about their own goals for this year. On the 25th, in the early morning, we went to the hill in Schmitten to offer our goals and determinations. Now 5 teams are in different cities in Switzerland until the 11th of October when they will go back to Schmitten for the 2nd kick off Workshop. I ask for your prayers and thoughts for their safety and success!
