THE PRINCIPLE OF CREATION

Where do we come from and why are we here?

We did not create ourselves. So how, then, did we come to exist? Looking at the complexity, order, beauty and interdependent nature of everything in the universe, it is hard to believe that it all came about by accident. But if there is a conscious mind or Creator behind the universe, how can we find out about it?

The first part of the Divine Principle—of which a brief overview is presented on the following pages—describes the fundamental characteristics and principles that are common to all forms of life. Studying these characteristics helps us to understand the nature of the cause or Creator, God.

Why does the universe exist at all? What is humankind's purpose in the universe? A clear understanding of God's motivation for creating is essential in order to know our own purpose of life. The Divine Principle clarifies these universal principles.

OUR LIFE IN TWO WORLDS

Born to live forever

Do we continue to live or exist after death and, if so, in what form? And for what purpose? Is there justice that goes beyond death? If yes, what consequences does this have for our daily life on earth? The Divine Principle explains these existential questions from the point of view of the Creator. It is only when we have insight into God's original "blueprint" that we can recognize clearly all aspects of the fascinating connections between our earthly life and our life in the next world.

THE TRAGEDY OF JESUS CHRIST

... if we only had accepted him!

Jesus' violent death, being rejected and sent to the cross by his own people, the chosen people of Israel, was a tragedy of highest historical dimension. God has been preparing and guiding the people of Israel for 2,000 years by sending prophets, judges, kings, and prophets... for what? To kill the Messiah when he comes? No! They had been prepared to wholeheartedly welcome, support and follow him. Jesus, not being accepted and understood by his contemporaries was not God's desire. And it was surely not the way to salvation. It was a catastrophe, that could only happen because of wrong and unrealistic expectations about what the Messiah is supposed to do. And because God-prepared people that should have supported and testified to Jesus failed in their missions.

WHY DOES EVIL EXIST?

The Conflict within Human Beings

Have you ever harmed anyone intentionally? Maybe you yourself have been a victim of violence, abuse or deceit. From where do these impulses come, that make us indifferent to the sorrow of other people and lead us to hate, deceive or abuse others? For centuries philosophers and theologians have attempted to answer the following question: How is it possible to reconcile the evidently evil side of human beings and the resulting suffering in the world with the belief in a loving, omnipotent and omniscient God? The Divine Principle reveals logical explanations to these fundamental questions and identifies a real event at the beginning of human history as the main cause of our conflicted existence.

THE FULFILLMENT OF HISTORY

Waiting for the Second Coming of Christ

Had Jesus been accepted, there would have been no need for the Messiah to come a second time, an event never anticipated in the Old Testament. But before his crucifixion, Jesus said, "I have many things to tell you, but you cannot bear them now." He said he wanted to speak "of heavenly things, but you cannot even understand the earthly things of which I speak." He added, "I speak to you now in parables and symbols, but the day will come when I will speak to you plainly of the Father." Although the lack of faith in Jesus' time made this impossible then, the clear truth which he desired to reveal will be made known at the time of the second coming. The following pages highlight a fascinating fact: Jewish and Christian history show an astonishing concurrence of time periods. At the end of a 2,000 year period of preparation Jesus was born amidst the Jewish people. Now, after 2,000 years of Christian history, signs intensify that Christ's return is our time. Will he be recognized?

THE PURPOSE OF THE MESSIAH
AND THE PRINCIPLES OF RESTORATION OF HUMANKIND

Overcoming the separation between humans and God

The world we live in is not a healthy world. It is not the ideal world of goodness that God had originally wanted to establish on earth. After the Human Fall we all have become the playthings of Satan, the enemy of God, who wants to see and keep us trapped in the destructive ways of selfishness and feelings of shame forever.

God has promised to send the Messiah in order to end Satan's evil reign over humanity, and to establish God's reign of goodness—God's kingdom on earth and in the spiritual world—forever.

Jesus of Nazareth came as this promised Messiah 2,000 years ago. Why has the world not changed since then but remained a place of suffering even (or especially) for those who truly seek to follow the Christ? Was Jesus not the Messiah or have we misunderstood the true purpose of his coming? Through the Divine Principle the true purpose of the Messiah is revealed clearly in our time.

THE DIVINE PRINCIPLE GENERAL OVERVIEW

The Divine Principle is a revelation from God to Sun Myung Moon. It offers revolutionary new insights into the nature and work of our creator. The Divine Principle is divided into three main parts:

- 1 The Principle of Creation**
God's nature, His ideal and the principles of His creation.
- 2 The Fall of Man**
How evil came into this world and how it influences humanity.
- 3 The Restoration of God's Ideal**
Revealing God's work of salvation and the principles of restoration in human history.

Sun Myung Moon (1920 - 2012)

Already by age sixteen, Sun Myung Moon had received his commission through encounters with the risen Christ and was continuing his family and prayerful search to find the answers to fundamental questions about life—profound insights that now form the systematic teaching known as "The Divine Principle."

By identifying spiritual principles that reveal the workings of God behind human history and through the world's great religious traditions, a way is opened up to discern traditional foundations of race, religion and culture and move toward a truly unified view of life wherein the spiritual and physical dimensions are harmonized.

Voice of Peace UPF Magazine for Italy and San Marino

This issue of *Voci di Pace* deals with the important topic of the power of the press, the influence it has on public opinion, its role and responsibility. Another important topic is the Financial System and its influence.

The editor of the magazine, Giorgio Gasperoni, recently received, for the fourth time since 2012, a letter of appreciation from the President of Italy, H.E. Giorgio Napolitano. The magazine is sent to him regularly, accompanied by a personal letter. After the president reads the magazine, it is placed in the Library of the Quirinal inside the presidential palace.
