THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 1 Part 2 Part 3 Part 4 Part 5 Part 6

THE PRINCIPLE OF CREATION

Where do we come from and why are we here?

We did not create ourselves. Unlike alien, alien races to exist? Living after ourselves, with beauty and inner-dependence values of worshiping in the universe, it is hard to believe that it all came about by accident. But if there is a creation with a Creator behind the universe, then we can be created!

The first part of the Divine Principle of which a brief overview is presented in the following chapter, illustrates the fundamental characteristics and principles that are contained in all forms of the Christian Faith. These characteristics focus on the fundamental nature of the Creator of the universe, God.

Why do we exist and at all? What is humanity's purpose in the universe? A clear understanding of God's intention for creating is essential in order to truly know our purpose of life. The Divine Principle clarifies fundamental principles.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 2

OUR LIFE IN TWO WORLDS

Back to this Creator

Our life in two worlds is a journey of discovery and growth. It is a journey of faith and hope, a journey of love and compassion. It is a journey of service and sacrifice, a journey of joy and peace. It is a journey of eternal life and glory.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 3

WHY DOES EVIL EXIST?

The Creation of the Human Being

The human being is a unique creation of God. It is a being of love and compassion, a being of service and sacrifice. It is a being of joy and peace, a being of eternal life and glory. It is a being of God's love and grace.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 4

THE PURPOSE OF THE MESSIAH

Receiving the Kingdom of Heaven and Earth

The Messiah is the one who brings God's Kingdom to earth. He is the one who saves the world from sin and death. He is the one who establishes the Kingdom of God on earth. He is the one who brings eternal life and glory to all who believe in him.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 5

THE TRAGEDY OF JESUS CHRIST

A New Way for Mankind

The tragedy of Jesus Christ is a tragedy of love and sacrifice. It is a tragedy of God's love for the world. It is a tragedy of the world's rejection of God's love. It is a tragedy of the human race's failure to follow God's commandments.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 6

THE FULFILLMENT OF HISTORY

Walking on the Beach of History

The fulfillment of history is the realization of God's Kingdom on earth. It is the realization of the Messiah's mission. It is the realization of the human race's purpose. It is the realization of eternal life and glory.

THE DIVINE PRINCIPLE
Introduction to the Teachings of Rev. Sun Myung Moon

Part 7

THE DIVINE PRINCIPLE: SPIRITUAL JOURNEY

Our Spiritual Journey

The spiritual journey is a journey of faith and hope, a journey of love and compassion. It is a journey of service and sacrifice, a journey of joy and peace. It is a journey of eternal life and glory.

THE STRUCTURE OF HUMAN BEINGS

ORIENTATION IN BOTH WORLDS

Every person has a physical and a spirit self

We live in both the physical world and in the spirit world, and each of us consists of a physical self and a spirit self. The spirit self is in the subject position and gives the physical self purpose and direction. The physical self consists of a physical body made of cells and a physical mind which is responsible for the work of the physical body. In the same way, the spirit self also has a spirit body and a spirit mind. Thus the spirit self is similar in form to the physical body. It is possible for people to be reincarnated in the spirit world. This explains why people who have interacted with the spirit world recognize their friends and relatives who are already deceased.

Spirit Self

ETERNAL

The spirit self is the source of our being, the origin of our existence, our freedom and our will. Our personality, 'heart' and consciousness are produced here. It is our spirit self that creates a person in God to interact with us. It is we and it that go on. When people have the feeling that a certain part of them will never return to earth, because we are created as eternal beings, we have the desire to live forever. The physical self depends on the spirit self because the spirit self continues to live as a spirit person through its spirit self.

Physical Self

TEMPORARY

The physical self is the source of our physical existence, our freedom and our will. Our personality, 'heart' and consciousness are produced here. It is our physical self that creates a person in God to interact with us. It is we and it that go on. When people have the feeling that a certain part of them will never return to earth, because we are created as eternal beings, we have the desire to live forever. The physical self depends on the spirit self because the spirit self continues to live as a spirit person through its spirit self.

Our physical and our spiritual senses

Just as we can perceive the physical world through our five physical senses (seeing, hearing, smelling, touching, tasting), we also can perceive the spirit world through our five respective spiritual senses. These spiritual senses are not limited to physical natural laws. However, since most of us are not attuned to our spiritual senses, we become aware of the spirit world only after our physical senses have expired with us in the spirit world.

In God's original ideal we would be able to use our five spiritual senses to relate with the spirit world while still on the earth, just as we perceive the physical world with our five physical senses. However, since we became separated from God and could not reach the required spiritual maturity, our spiritual senses were impaired so badly that we live in ignorance of the spirit world.

In the process of God's restoration work, our spiritual maturity will eventually be fully regained, enabling us to perceive the spirit world at our will.

EVERY PERSON PASSES THROUGH THREE NATURAL STAGES IN LIFE

Life in the WOMB

Surrounded by **WATER**

the body develops to prepare for life in the physical world

Conception

Nine months

Life in the PHYS. WORLD

Surrounded by **AIR**

the spirit develops to prepare for life in the spirit world

First Birth

90 years

Life in the SPIRIT WORLD

Surrounded by **LOVE**

the spirit takes its place in its eternal home

Second Birth

Eternal existence

All beings first born each person separates from the parents after nine months in the womb and is pressed through a repro- passage from the spirit into a new world.

In a very similar way each person separates from the physical body at death and is born into a new world which offers totally new perspectives.

Therefore a person has three tasks that in a liquid environment in the womb (for nine months), then in a gaseous environment on earth (for about 90 years) and finally, according to God's ideal, in the area of the love of God in the spirit world (eternal existence).

Therefore, according to God's original plan, physical death must not be seen as a threat or a loss but as a joyful event, since the person involved has fulfilled the purpose of his or her earthly life and is now going into a beautiful new world.

THE INTERACTION BETWEEN THE PHYSICAL SELF AND THE SPIRIT SELF

Our physical actions nurture our spirit self

We need light, warmth, air to breathe as well as physical nourishment to maintain our physical life. In a similar way our spirit self needs spiritual nourishment. The spiritual nourishment consists of two components: "life elements," such as love and truth, which ultimately come from God, and "vitality elements," which come from our actions. Every time a person acts in line with God's principles, that person's spirit self receives good vitality elements to live in the spirit self.

Life elements from God for the spirit:
God's Love and Truth

When the spirit self receives good vitality elements from the physical self and the elements from God, it becomes lively and beautiful. At the same time the spirit self receives good vitality elements to the physical self that enliven the body. These influence our actions and give us general physical condition. If, on the other hand, the spirit self is not with love vitality elements which also from spiritual domain, the person will have feelings of grief and the spiritual development will be stunted. The key solution for the person is to repeat and correct his or her wrong behavior.

Every day of our earthly life is precious

The growth and quality of our spirit self depend on the process for which we are living our lives. It is not sufficient to just listen to the word of God; one also must practice it by living a life of truth and love. This is the way to our best and best way to grow in heart and life.

Growth elements for the physical body from the physical world:
Light, Warmth and Air
Food and Water

When our life on earth ends they cannot be used any further. We cannot receive any further vitality elements from our physical self. Our spiritual growth therefore must be more difficult. Since our spirit self grows by the good deeds that we perform with our physical body, our experiences of love, beauty and joy on earth deeply affect our ability to experience these in the spirit world. That is why our life on earth is so important. It is on earth where God's ideal and the purpose of His creation must be fulfilled.

HOUSES OF PARLIAMENT

14 December 2016

Dear Robin Marsh,

I am writing to thank Universal Peace Federation UK for taking part in this year's UK Parliament Week. Without partners such as you, UK Parliament Week wouldn't be possible. Please find enclosed a certificate of achievement from the Speaker of the House of Commons and the Lord Speaker in recognition of your contribution.

This year we had an unprecedented range of activity, with over 300 events and activities across the UK, from Orkney to the Isle of Wight, including walking tours, debates, talks, question and answer sessions. There was also lots of social media activity on our hashtag #UKPW16, including photos of many of the events and activities that took place during the week.

Next year's UK Parliament Week will take place from 13 – 19 November 2017. We would love you to take part again, so please mark those dates in your calendar.

If you haven't already done so, we would be grateful if you could spend a few minutes filling out our online UK Parliament Week Partners' survey, at goo.gl/gBBjRK. Your feedback will help make UK Parliament Week 2017 even better!

Thank you again for your continued support of UK Parliament Week. We look forward to working with you again in the New Year.

Many thanks,

David Clark

This issue of *Voci di Pace* deals with the important topic of the power of the press, the influence it has on public opinion, its role and responsibility. Another important topic is the Financial System and its influence.

The editor of the magazine, Giorgio Gasperoni, recently received, for the fourth time since 2012, a letter of appreciation from the President of Italy, H.E. Giorgio Napolitano. The magazine is sent to him regularly, accompanied by a personal letter. After the president reads the magazine, it is placed in the Library of the Quirinal inside the presidential palace.
