Good morning, everyone. There are many more members still outside. Please move forward. I am very grateful to you for coming early. This is the time of offering a prayer of gratitude to Heavenly Parent and True Parents. As I conduct Chung Pyung works, and as I see all the historical progress (providence) in the past, there was arrogance, etc. and so they failed. As we live life every day, and prepare for this special great works workshop, if we don't do so centering on Heavenly Parent and True Parents, special great works will not be accomplished. In works, from the beginning okay, until now, we have offered a prayer of gratitude and at the end a prayer of gratitude. As time passes, we began to have this prayer together with members. Members saw this, and so they came, and therefore I am very grateful. I have two concerns, one internal and one external. Externally, there are lots of flowers in full bloom; I often had to install vinyl to protect them. This year, they opened earlier. For the Japanese members, the Azalea Festival was held now, so the flowers began to wither. Heavenly Parents and True Parents tried to help, but there was cold weather and rain, so some flowers are gone. I feel sorry for that.

My internal concern is: after last year's special great works Azalea Festival, those who ancestors who received blessing, those absolute good spirits ancestors during this time, two aspects spirit world and physical world, there are mistakes inscribed in their minds, and they will be removed. This is not simple, so I had to make lots of devotions. For Heavenly Parent and True Parents, when conditions are made, it can be done. If conditions are not made, it can't be done. So, this time I could make conditions. So, please work hard. True Parents and True Children will come to this special great works. To give great grace they prepared. As with the January special great works, mental problems can be resolved. All you members, as we celebrate the 19th anniversary this year, you have heard many times about many evil spirits working in us. They have great resentment. When I speak with them, they say: "I will kill you, and I will make this person crazy. Those evil spirits give us suffering, pain and disease. You may think you don't have problems, and your family does not have problems. But, when I see you, I feel so worried. We don't know when that evil spirits is working. So, when you come to, I make conditions to solve the problems. Mental problems, autism, cancer, cancer is fearful, but even worse is mental disease and autism.

If we don't have mental disease and autism, we can prevent other diseases, but if we have them we cannot prevent other diseases. So, we have to cure autism. The problems causing autism can be fixed. The prayers you offer are important. Please attend chan yang session. When I see you, some members just wait for works without attending chan yang session. To do chan yang session

well, you must listen to the speeches well, and you can live life Principally when you go back (home). When you enter the main gate, the absolute good spirits can understand the environment you live life with, and what needs to be done. So, I hope you can attend the chan yang session well, and other programs, like lectures and the prayer hall, and Dae Mo Nim's prayer hall. Report everything. Here are angels and absolute good spirits ancestors. They will connect your prayer directly with God. This place, Satan and evil spirits cannot work here, so I hope you can offer sincere prayer.

In chan yang session, if receive prayer, removal of evil spirits can be done even more than what I have touched. The difference between special great works and others, i.e. 2-day workshop, is that all absolute good spirits will come. Today, all together they will come and work for you. 480 billion absolute good spirits. The strongest evil spirits is not on the surface but inside. absolute good spirits will push the normal evil spirits aside and go inside and remove the strongest evil spirits. Other evil spirits can be removed. In special great works workshop, the strongest evil spirits can be removed. So, work hard. Do you understand? Hit from head to toe. Also, from the removal of strongest evil spirits, and sins and fallen natures, will be removed, physical things, cells, blood vessels, will be moved back to their original position. So, we will be healthy, so please work hard. I request this of you. Since the weather is warm, you may want to sleep in the lobby or the hallway, some of you are even setting up tents. But this is not right. In the past, some members set up tents, but it is cold on the ground, and they got affected. Hygienically, this is not good, and it does not look good to outside people who come here. So, the staff people may go and say don't do it, but people don't listen. Please don't use mattresses. I will open the prayer hall so you can sleep here also. Please sleep well in the proper area. Do chan yang session well. Lecture is a good place. You may say, this place is so small and you call many people. Why? This place is not small. The Village, the Youth Center, the Graduate School all have sleeping places, also. For convenience, more quarters are being made. Please understand. As people of faith, please keep order and love each other. I saw the main hall, and already members are putting sleeping bags; it does not look good.

At one time, I didn't want to go to the center aisle because there were many members with self-centered desire and a greedy mind. Please consider others. I appreciate very much to you for coming today. More than your trust in, I love you members more. I will try to make your dream accomplished. Some of you came without registration. Please please register without fail. That list helps me solve your problems. spirit world will be mobilized totally, the True Children, etc. for them to give amazing works from beginning to end. They will stay here. With such understanding, I hope you have time to offer sincere devotions and receive abundant grace. Thank you.

God bless, itn,
