Good morning, everyone. Beloved members, since you continue to love and come to Chung Pyung, I feel very grateful to you. For the Special Great Works workshop, for ancestor liberation, I am making conditions. I will do my best to make sincere devotions. If you think about Chung Pyung, I think we are doing works regarding spirit world. As you do 40-day workshop, you understand a lot. The works at Chung Pyung, not only works of the Special Great Works workshops, but also the heart of God and True Parents are taught here. Not only for you but also for the spirits in the Spirit World.

True Father said all members need 3x 40-day workshop. Before blessing, at least 3x 40-day. Then, the blessing. As I conduct 40-day, when members come and love Chung Pyung, I feel great change in them. More people live life by Principle. I hope many people can attend. Through chanyang session and through the words of Divine Principle, and through prayer at Cheongshimwon, we have the mind to change. When you go home, don't forget Chung Pyung, but try to improve and make yourselves better. I hope you can live life with one heart, mind, body, and mindset. As I lead Chung Pyung, I feel earthly life is so important. Eventually we will go to Spirit World. We need to live life well.

...

Heavenly Parents want us to live life in joy and happiness. True Parents also. If you live life by love and Principle, it will be good, you can be happy, but if you don't live life by Principle, you will experience pain, disease and suffering. There are more members with difficult situations than not. But, when I see members with difficult situations, I can see they led lives with fallen nature. Live life by love, and love your family, neighborhood and society, and live life centering on joy and happiness. Please keep the path of going to heaven. Absolute Faith, Love and Obedience, to live life based on those, the world we are living in, through prayer I asked God and True Parents, we need to make a true family, without fallen nature, and with no smoking or drinking.

Do not hurt the heart of other people. Now, in Chung Pyung we are saying to do Witnessing Activity to family members. Also make a true family. All family members are a blessed family, etc., but if you don't do Hoon Dok Hae, etc., a family that is not living life by Principle cannot fulfill its responsibility. Give love and care to your family members, not just words. When you go home, there is big content that you got here. No fallen nature, complaint, dissatisfied mind, etc. This fallen nature is of the character of Satan. Without Original Sin, we are children to resemble Heavenly Parents. To live life together with love, happiness. The Unification Church, there is love, not just forgiveness. We need to live life centering on true love. This is different from the teachings of other religions. Fallen nature and sins are removed a lot, but if at home, you live life centering on fallen nature, these will come back.

...

So, live life taking out fallen nature gradually. Drinking, smoking, doing drugs. No matter what, please don't do those things. There are some cases when you will encounter them in school. Absolutely do not do those things. Spiritually you will be affected. Disease will come. We are citizens of Cheon Il Guk, so we should not do sin. Don't drink, smoke, take drugs. Absolutely do not. Do you understand? Inside drinking, smoking taking drugs are avenues through which Satan can dominate you directly. I need to say these things to you. 2nd gen, you are doing it, so I need to say it.

Do not look, touch, or eat. Absolutely, do not. Things that worry me recently, this is the era of parents' matching. Some feel that you can touch and look, and then still be blessed. Don't do that. Don't look, touch, or eat. Adam and Eve fell. Immoral lives are with us, so we must not do these things. Even if meeting people for the blessing, don't look, touch, or eat. We don't know who has looked, touched or ate, so it is a worrisome situation. Among 2nd gen, and 1st gen, there are so many (who have), so the situation became very serious. After workshop, it became more serious.

It is not simple to set up the condition to forgive. After registration (blessing), there was even more. It increased. What shall we do? People come to Chung Pyung for forgiveness. After blessing, they have children. One person went to the blessing with good faith. One person went to the blessing without being forgiven. I asked the person, and they said: "how did you know about it?" Such people go to the worst place in the Spirit World, even lower than hell. So, absolutely do not look, touch, or eat. It so easily happens. Heavenly Parents: don't misuse public money. I asked Heavenly Parents, what is for public money? Offer tithes. Japanese members, please tithe. One person asked: I received money from an insurance company. Do I need to offer tithe? I said offer tithe. If you say words to others, without full understanding. Words or intent...which based on fact?

A baby in Chung Pyung could not speak. The ancestor spoke wrongly. Inside of the baby's mouth, there were stones, so it could not speak. Another baby was blind. Seems inside the eyes I saw spirits. The ancestor was killed by spirit...If the Evil Spirits is removed, the baby can speak or see well. With this understanding, don't look around, talk bad, etc. Don't convey even what other people say. It may not be 100% correct. An Evil Spirits can make the situation even worse. Go to church on Sunday. Sunday is God's day. Report the life you led that week. Receive fortune for the coming week. If you want a good life, you don't want such a mind.

In Chung Pyung staff, if one person makes mistake, Satan comes. Centering on Principle, Heavenly Parents, True Parents, live life. Keep these points and you can live life better today, better tomorrow, etc. Please become people of character. Greedy, angry, hate, immoral, this is wrong. We are citizens of Cheon Il Guk, True Parents said that. So we need to live life according to the value of a citizen of Cheon Il Guk. Try and change yourself to become a person of character. If you live life with the same bad and good it is not right. Please do Witnessing Activity. Go back home, and work hard in Witnessing Activity. In 40-day workshop you have worked hard. You attended the workshop with a high spirit. I feel grateful. Please become such precious sons and daughters of God. Thank you.

God bless, itn,
