

## Unificationist Matching Websites and Should I Join One?

Crescentia DeGoede

October 30, 2018

Many couples have found each other through one of the Matching websites that our faith community has developed.

But is it for you?

We highly recommend that matching candidates consider using these websites because they provide the greatest opportunity to find potential matching partners.

Below is an outline of each of the websites and how to get started!

### **Online Matching System**

The Online Matching System (OMS) is a tool to facilitate the matching and Marriage Blessing process of first-generation Unificationists, Blessed Children, Special Needs candidates, Affiliate members, and ACLC members. The website works in conjunction with the BFM and cooperates with Blessed Family Departments worldwide.

Please note that in order for Parents to access this site their son or daughter must have a profile first, and must be confirmed to be a Blessed Child. Once confirmed, Parents will receive an email inviting them to register. The Parent registration will also be approved by the Administrator before they will have access.

Also, for a profile to be visible on this website, all registrants must first become fully qualified Candidates as approved by the BFM or BFD in their country.

[Visit OMS](#)

### **BFMatch.org**

This is a newer International website hosted by the International BFD; most of the profiles are Blessed Children from countries other than Korea and Japan; note that the most recently updated profiles are listed first on this site.

Please note that in order for Parents to access this site their son or daughter must have a profile first, and must be confirmed to be a Blessed Child. Once confirmed, Parents will receive an email inviting them to register. The Parent registration will also be approved by the Administrator before they will have access.

### **BCMatching.org**

This is the older International website hosted by the International BFD, which has been updated and improved. Most of the newer profiles are from Korea and Japan; note that the most recently updated profiles are listed first on this site.

Please note that in order for Parents to access this site their son or daughter must have a profile first and must be confirmed to be a Blessed Child. Parents will then receive a notice from the Administrator and then use their son or daughter's username and password to login, then use a second password received from the Administrator to Search for possible matching candidates.

### **Matchbook for Blessed Children**

Matchbook is a matching network designed by the Blessed Family Association to help Blessed families share information for the matching of their children. Information is only shared with the people you wish, so you can feel comfortable to enter the information for all eligible family members. Most profiles are for Blessed Children. We recommend that First Generation, including those members who joined with their parents use OMS for the greatest exposure.

NOTE: On this website, the Family must register first, enter children's information and then children can complete a profile.
