

# The Blessing that Fulfills the Will of Heavenly Parent

Ken Doo

April 22, 2026

Weekly Message from World Mission Headquarters Director-General (No. 15)

Dear beloved blessed families and members throughout the world,

I would like to thank each and every one of you who are dedicating yourselves in your mission areas and in your daily lives to uphold and support Heavenly Parent's providence.

## 1. Summary of Last Week's Message

Last week, we reflected together that in this rapidly changing era, the way to build the future beyond the generational divide ultimately lies in raising up people. Centering on the vision of the Cranes Club that True Mother established, we shared that the older generation should trust and patiently wait for the younger ones to freely mature, while remaining warm mentors who walk side by side with them. In the end, we emphasized that the sincere practice of love that embraces and raises even one young person is the most precious starting point that can save a generation and open a bright future for Cheon Il Guk.

## 2. Heaven's Message through This Upcoming Blessing Ceremony

This week, as the special Blessing Ceremony is approaching, I would like to briefly mention what kind of heart I believe we should have as we stand before the tearful path and course of cosmic suffering that True Mother is still walking.

Dear members, the Blessing Ceremony to be held on the 16th day of the 3rd month of the 14th year of Cheon Il Guk (May 2, 2026) holds special significance in relation to the providential view of this time, our current circumstances, and the process to prepare for the future.

First, this Blessing is a time for each of us to restore our original value as a true son or daughter of Heavenly Parent and to awaken to the fact that we are not adopted children, but the direct lineal children of True Parents. True Parents' Holy Wedding was the victorious starting point when the lineage of true love began, transcending the sorrow and pain of thousands of years of human history. The Blessing Ceremony we are holding will be a time of new resolve to inherit that grace and establish ourselves as truer people.

Second, this Blessing Ceremony is a sacred beginning to establish families centered on true love, and its meaning is even deeper as we mark the first anniversary of the Entrance into Cheon Won Gung. Cheon Won Gung, offered through True Mother's tears and devotion, is the temple that announces the era in which we attend Heavenly Parent substantially. Moving beyond the age of attending God from afar, this is the time when Heavenly Parent dwells at the center of our couples and families, working in our daily lives through harmony and peace. The gates to life in the kingdom of heaven on earth are now fully open.

Third, in this era of the firm establishment of Cheon Il Guk, today's Blessing holds even greater meaning as it is the fruit of the noble love and fervor of the first-generation members, who devoted themselves for the sake of the generations to come. The sacrifices of the first generation are not merely devotions of a past era, but have become the most fertile soil of love upon which each family of this new generation can see the flower of happiness called the "Blessing" come into bloom.

Now, the couples from the new generation can further elevate and illuminate the values of true love, true life, and true lineage upon the foundation of those sacrifices, and spread the ideal of True Parents throughout the world. Sacrifice is truly beautiful because upon that base, flowers of happiness inevitably bloom and their fragrance spreads. Therefore, when the beautiful and happy families you build clearly

emerge, all the devotions and investment that True Parents and the first generation made will be completed as the most noble fruits of victory.

### 3. Testimony: a Match that God Prepared from Long Ago

I would like to share a beautiful testimony from a couple from Brazil and Korea who are preparing for this Blessing:

"I grew up in Jardim, Brazil, where True Parents poured out their love and devotion, and I was raised in the breath of that holy providence. Through the Blessing4U matching website, I met a precious partner. What is even more remarkable is that when my fiancée was still in her mother's womb, her mother attended a workshop in Jardim. Although we grew up in different countries and environments, we deeply feel that Heaven had already been preparing us long ago on the same providential ground. Now, with gratitude for this unseen but loving guidance, we are moving step by step toward the 2026 Blessing. We wish to build a family in which God dwells and become a couple that shares love and hope with the world."

This is truly a precious testimony that allows us to deeply feel that the Blessing is a relationship personally prepared and guided by Heaven. It reminds us once again that the Blessing is not a coincidental meeting, but the fruit of grace prepared over a long time through Heaven's love and providence.

### 4. This Week's Practice: Sharing Blessing Stories

Dear beloved brothers and sisters,

**Dear beloved brothers and sisters, How about designating this week as a "Blessing Commemoration Week,"**

How about designating this week as a "Blessing Commemoration Week," and taking time as a couple to reflect once again on the emotions and grace of the day we received the Blessing? If, throughout the coming week, we husbands consider our wives' perspective, and wives consider their husbands' perspective we will come to understand each other more deeply, and our bond as a couple will mature and become even more beautiful. I hope this will be a period of profound grace - a true festival of the Blessing - during which we can deeply reflect on the true meaning of the Blessing that True Parents bestowed on the first generation.

Also, between parents and children: I encourage you, as the parents' generation, to take time to warmly share with your children the history of the Blessing and the footsteps of faith you have walked. As you share the joy, tears, gratitude, and hope contained within your course, your family will become more united in love. It will be a precious time to sincerely give thanks to True Parents for granting the great and amazing grace of the Blessing.

**We are approaching a meaningful and historic occasion on which we mark the 59th Heavenly Parent's Day,**

We are approaching a meaningful and historic occasion on which we mark the 59th Heavenly Parent's Day, the 67th True Parents' Day, the 66th anniversary of our True Parents' Holy Wedding, and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum. May this be a special period in which all members can unite in heart, intention, and devotion for the great success of the 2026 Hyojeong Cheonju Blessing Ceremony.

I pray that you will feel Heavenly Parent's love and grace in each of your families, and that this week will be filled with joy, gratitude, and victory.

Thank you.
