Retreat: "Discover the Heart of God and Find Your True Self"

This retreat will include lectures and discussions as well as fellowship time through music, sports, entertainment and daily opportunity to reflect through prayer and meditation.

Past participants expressed that this retreat helped them to make a new beginning in their life of faith.

Respected Divine Principle lecturer, Gerry Servito, will present lectures on "The Heart of God" within the framework of Unification Thought teachings and Divine Principle teachings during the first four days. Rev. Andrew Compton, Education Director at the International Peace Education Center, will then share True Parents' life course.

The Goal of this retreat is to help participants find a deeper parent-child relationship with God and understand the role of True Parents particularly in God's Providence at this time and with that deeper connection, welcome in the New Year with more hope.

LV CARP looks forward to serving Unificationists and their guests. Register today!
