friends about the lecture. This guest who had his secret conversations listen to by the “ancestor Moses” from the invisible spirit world and then was publically reprimanded about his doubts, moved into our center immediately out of fear.

I arrived in Tacloban, Leyte (the president’s wife, Imelda Marcus hometown) in the afternoon and was shocked to find many new members. I just could not imagine Mila could accomplish so much in so short of a time, “30 new members in 40 days”. When I investigated I found out the success was not from her alone, it seems one of her first guests to hear the lectures ended up having the historic ancestor “Moses” coming into his body and Moses talked with the guests who were brought to hear lectures. Right or wrong, Moses could not contain himself and kept strongly speaking to the guests, even scaring them about the seriousness of listening to the lectures and joining the Unification Movement. He even chastised one guest when he returned to hear chapter two, after hearing the first lecture the day before and later that night speaking negative with a few of his

When I learned about Moses causing new people to join our movement, out of fear I explained to Mila, there will be many problems coming with all these new members for they have not studied all of the lectures, do not understand what our movement is about and did not make a free will personal choice to become a sacrificial missionary. I instructed her to stop Moses from doing this anymore, which I later learned she did; Mila had much spiritual power. Such spiritual phenomena and much more occurred in the early days of our movement in the Philippines. The spiritual phenomena then calmed down and weeks later Mila brought many of her new members to the 40-Day training workshop. Mila always seemed to be the member in the forefront of pioneering new cities and bring in many spiritual children “without the help of foreign missionaries”.

Mila’s Dream Revelations

I would also like to report that sister Mila, was my right hand leader and support in the pioneering of the Philippines. She often was used by the spirit ancestors of the Philippines to receive in dreams messages about what the various members were struggling with or doing wrong and would call me by phone across the country, and explained different members personal problems she had received so I could mentor them. Her revelations were very accurate.
