

WFWP UK / Midlands - *Peace Studies* with people of all ages, faiths and cultures

Patricia Earle
January 21, 2026

We had a very nice 'Peace Studies' evening on the 21st of January, when around 50 people came together, people of all ages, faiths and cultures.

After showing the WFWP introductory video, we enjoyed a presentation about the family as a school of love, and the importance of protecting the family in our present society, where there is a trend towards individualism, and the goal for each of us to develop a true parental heart.

We then shared our heart of concern as to how we can protect our family values in today's world.

We also prayed, watched the music video 'Where Peace Begins', and then shared food, strengthening bonds of friendship.

Thank you for all those who contributed to this event.
