Due to music's profound effect on people, young and old, the upcoming IAACP webinar will feature three young artists who are active in their communities in bringing a positive message to young people through their music. These young artists have embraced the ideals that IAACP advocates and they will share music videos that they've created in their efforts to promote the creation of a culture of peace. We look forward to hearing their music and learning more about their artistic endeavors. Join composer, conductor and author, David Eaton as he presents the music of three gifted artists dedicated to promoting peaceful resolution to conflict.
