We celebrated the Fourth Anniversary of True Father's Universal Seonghwa on Sunday, August 21. Reflecting back on my life, I personally met True Father with my mother when I participated in a three-day workshop with True Father in Korea. Five thousand Japanese women participated at that time. We spent time with True Father for three full days, from morning well into the night each day. He gave us so much love and shared so much of God's truth at that time. I can never forget this. It was the most precious experience for me.
