

CARP Talk: Know Your Value

Matthew Huish
February 22, 2017

Our lovely CARP Director will be sharing her personal insights on the topic of value, on Wednesday 1st March. It's the last one of the year so let's make it a big turnout!

She is a 3rd Year Environmental Science student at Queen Mary University of London. She has also been active in youth activities in London for quite a few years now, so I'm sure she has plenty of cool stuff to share.

What is a CARP Talk?

Every month, a speaker will share with us a life lesson that they have personally learned through their own life experiences and relate it directly to the Divine Principle. Their talk will highlight one of the '7 Core Principles' we hold at CARP UK.

It is a great opportunity to hear a wholesome and thought-provoking talk and to engage in refreshing discussion with like-minded people or new thinkers! Don't be shy!

£3 Entry – meal provided
