UPF International Presents an International Leadership Conference

Contemporary Challenges to World Order: The Search for Solutions

We are living in dangerous and uncertain times. People of faith and good will are needed to apply their energies and prayers to effect change that comes from peace rather than war. From giving, rather than taking. This International Leadership Conference will examine trends that are shaping the "world order," identify problems and suggest workable solutions. Please join us Wednesday & Thursday, April 6 & 7

All sessions will be livestreamed to: us.upf.org/live
