

## UPF USA: The Korea-Japan Tunnel Webinar - Challenges and Opportunities

Michael Jenkins  
May 16, 2022

You are invited to join us for our weekly webinar series on the Reunification of the Korean Peninsula every Tuesday at 2 PM EDT. This week's session is hosted by UPF's International Association for Peace and Economic Development (IAED) on the topic of:

# **The Korea-Japan Tunnel: Challenges & Opportunities**

**Tuesday, May 17, 2022: 2 PM EDT**

The opening of the 31.5-mile-long English Channel Tunnel in 1994 inspired renewed interest in the possibility of creating a similar connecting bridge between Japan and Korea. Over the last 20 years, a dedicated group of individuals and organizations has continued to explore the possibilities and benefits of creating such a connection, and have investigated the implementation from various perspectives. Such a project would have an enormous impact on the region, especially after the opening of North Korea, providing a new trade route connecting Japan and Korea to all of Eurasia.

Our presenters have spent many years researching this project and will present their thoughts on the engineering, political, and economic aspects.

**The Livestream will begin at 2 PM EDT**

**To register for the program and watch it on zoom press the button below.**

Our webinars are also always streamed live to: [us.upf.org/live](https://us.upf.org/live)
