The best way to relate with True Parents is through absolute unity. The best way to have absolute unity is through absolute faith. This builds trust.

In December 2014 330 ACLC members gathered and mother was going to speak to them. The night before she told Dr. Kim don't ask me what I'm going to speak about. The next day she spoke about, "I am the only begotten daughter."

Heavenly Parents Gyo Dahn. This has a very deep and wide meaning. Not like church which is narrow.

In 1965 True Father speaking to Eisenhower.

Our Leader said that religion should not be confused with church attendance; religion is a way of life; it must be lived actively every day. Eisenhower exclaimed, "I'm all for it."

Gyo means religion. Dahn is a place of offering.

Parent child relationship is the core teaching of True Parents. When children try to unite with their parents. It's the same as a unity with True Parents. True Mother hears from many people. But who can she talk to? True Mother said, "I want to hear your opinion about how to improve." True Mother not just deciding things on her own way but is in harmony with Heavenly Parent and True Father.

True Parents are the second coming of the Messiah, so we have to let go of our own ideas. Best way is total and absolute unity with True Parents. Adam and Eve we are not 100% united to God.

What is Dr. Kim's key role, he is a mediator. Jesus came as a mediator. I am a mediator between True Parents and members. I try to accurately share with members, without my own input. I also share family members reports to True Mother. Dreams and activities.

Many times while dining in small settings with True Mother I heard many things from her. I need absolute unity which builds up trust.

Now True Mother calls Dr. Kim directly and he gives a report two times a week. His connection is growing despite this lockdown. It shows that we can overcome any physical situation. My priority is absolutely unity.

Dr. Balcomb is the one who initiated Peace Starts With Me at MSG which was a big success. Then True Mother sent him to Europe as continental chair.

Three Points

Unity. 12 disciples couldn't unite and then history became very different.

Continuity

Take ownership

If USA is going to go its own way it will perish. True Parents spent 50 years in the USA.

ACLC. How to save America. True Father was always speaking about Christianity. From 1971-74 public speaking tours were to save USA through saving Christianity.

Dr. Kim at UTS prayed for 40 days to ask God what should he do. The answer he got was that he should be a good UC pastor. Then he asked how should I do that> The answer he got was to understand True Parents.

True Father and True Mother's focal point especially in USA is clergy. 7,000 clergy to Korea. 5,000 to DC for True Family Values. When True Father went to Danbury according to True Mother's autobiography it says that Father, on August 14, 1984 he arrived in Danbury past midnight. At 5 AM called to True Mother, it means he had no sleep, he said, please call all family members and tell them to educate Christian pastors. This is God's direction.

We sent out 300,000 tapes of lectures and a Divine Principle book as well as a personal letter from True Father. He was desperate to see if Christianity in God's nation could welcome the second coming.

True Mother's speech is always about the history of Christianity. The Only Begotten Daughter should be raised in the Christian spirit. True Mother's early life was in Pentecostal churches.

With Christian foundation we can unify North and South Korea.

Before founding HSA-UWC (1954) Father had a plan to go to America because of the Christian foundation.

World Clergy Leadership Conference. True Mother said World Christian Leadership Conference. The foundation for True Mother to proclaim the settlement and establishment of CIG came on the foundation of WCLC. And now True Mother is proclaiming Heavenly Parent Gyo Dahn

Now is the era for the second and third generation to inherit the foundation and move forward with great power

The best way to relate with established pastors. If they ask questions I don't know how to answer then think about every paragraph of True Parents words, somewhere it contains "True love." The first chapter of True Father's autobiography is food is love

I learned more about True Father from True Mother's autobiography than I did from True Father's autobiography

Demian Dunkley asked that we share the national Sunday service online.

Don't forget to join the prayer condition prior to the release of True Mother's autobiography. Think about the 43 people that you would like to give the book to.

Kaori Becker (formerly Zinke) organized a fundraiser to provide meals for nurses in a hospital in Columbus, Ohio. She raised over \$1500.

There are 800 nurses staying in the New Yorker hotel. The fashion District gave 1000 gift bags with ladies items and other stuff inside. Each bag had 100 items.

Brothers and sisters, stay safe. Hopefully this will all be over soon and we can get back together but until that time do all you can to be safe and reach out to others.
