Heavenly Parent's Holy Community Peace Festival

Hallelujah! Let us give praise unto the Lord, the Creator. The fact that I was invited here to the Peace Festival is an expression of God's great love and grace to all of us. May God's blessings be with you.

In December 2019, I was able to attend the launch of WCLC (World Clergy Leadership Conference). Thereafter, Dr. Hak Ja Han Moon invited Korean Christian clergy members to East Garden. This is what I remember from her message: "Do not call me Dr. Hak Ja Han Moon. Call me Mother. Call me Mother Moon." I remember these words. Recently, I began reading Mother's autobiography, titled Mother of Peace. Once again, I could understand the value of Mother's request.

Why has Mother Moon been recognized as the "Mother of Peace"? When I look at the Rallies of Hope that have taken place recently, I cannot help but concur. Also, when I see how Mother is bringing all Korean religions through the Korean Clergy Leadership Conference (KCLC) for the sake of peace on the Korean Peninsula, and in particular, for the realization of a heavenly unified Korea, and seeing the importance she places on Christianity in bringing about peace on the Korean Peninsula and the realization of a heavenly, unified Korea, I am profoundly moved.

When I went to Liberty University in America, I was able to hear the testimonies of Rev. Jerry Falwell, the founder of Liberty University. He is a person I profoundly respect. During the last Rally of Hope, during the launch of Think Tank 2022, as the chair of KCLC, I was able to watch the testimony of his son, Rev. Jonathan Falwell. Hearing the message of the son of Rev. Jerry Falwell moved me.

I realized that everything that happens in life happens for a reason. We are the pure citizens who love God. In particular, in Korea's case, the Korean Peninsula is blessed with rivers, valleys and mountains -- it is a beautiful land but a land with tremendous providential significance because of the ideological divide. Korea is divided into North Korea and South Korea. But I believe that even this division will be resolved thanks to the unfolding of God's will and the suffering that Korea has gone through. This suffering has been a steppingstone toward Korea living for the sake of the world. Korea needs to live for the sake of the world. Therefore, in order for unification to happen, it must happen centered on God. It must be a heavenly, unified Korea. Otherwise, true unification is not possible. This is God's message and the responsibility of the people of Korea.

Until now, Christians have devoted themselves to the cause of peace worldwide. Today, we know the Mother of Peace, Dr. Hak Ja Han Moon, has been working tirelessly for her entire life for the sake of peace on the Korean Peninsula. Whatever happens, it is difficult to do it for a month. It is extremely

difficult to pursue something for a year. But to pursue a goal for one's lifetime is impossible unless God blesses that endeavor Every time I have seen Mother Moon, she has shed tears and spoken about God's will, about the need to realize a heavenly, unified Korea. I could see that Mother Moon is the True Mother who is working not just for the sake of peaceful reunification on the Korean Peninsula, but she has been carrying out God's will. I could clearly see that she has been appointed, anointed, called. God is guiding her in the realization of Heaven's providence. I have never seen a leader with greater passion for the cause of realizing a heavenly, unified Korea.

Many people may have a lot of potential. Many people may have a lot of initiative. But who else has passion that compares with the passion with which Dr. Hak Ja Han Moon is mobilizing the global foundation and connecting it to Korea for the sake of peace, for the sake of harmony on this divided peninsula?

Dr. Hak Ja Han Moon has the ability, the passion, the will but also the heavenly mandate from God to carry out God's will. She is the Mother of Peace, wiping away the tears of suffering humanity. Thanks to her blessing, KCLC in Korea, ACLC in America and WCLC around the world are now coming together. Christianity around the world is coming together, centering on the Mother of Peace, to bring joy to God, to return true joy to God.

I have seen this. In the past, Mrs. Yeon-ah Moon, Mr. In-jeon Hong and Hyeong-yeong Lee shared about the Mother of Peace, and this is the holy song that arose in me: We all want to become children that give joy to our Heavenly Parent. I would like to sing that song.

*I want to be an object of joy to Heaven.  
Please cleanse my heart.  
Please grant that I become a new wineskin.  
Please shine your light upon my heart.  
Not as I will but as thou wilt.  
Grant that I may give you joy, my Lord.  
For as long as I am alive, grant that I may  
become an object of joy to you, Lord.  
Please grant that I may become an object of joy to you, Lord.  
The one thing I desire is to become an object of joy to you, God*
