Hyojeong Testimony

Yasuko Oberg - 10/24/2025 - Las Vegas Community

Most of all, I really appreciate being able to attend Las Vegas Cheon Shim Won special prayer conditions from the beginning, and thankful for my ancestors, my parents, and my spiritual mother. Because of them, I was able to meet our True Parents, and find the true purpose of my life.

Honestly, I have been happy to attend Cheon Shim Won special prayer conditions, and felt lucky that my living circumstances allowed me to attend Cheon Shim Won special conditions during the morning Cheon Shim Won Korea and night Cheon Shim Won Las Vegas. Receiving a purple jacket was not what I thought about.

When I heard we would receive purple jackets as a couple, I was so happy. I have heard, when we receive and wear purple jackets, all of our CheonBo ancestors wear them too, and they were eagerly waiting to wearing purple jackets with us.

Just before receiving the jacket I wanted cry for joy. It was not my emotions but I felt all my ancestors wanted to cry for joy. So I really experienced that it is true; our ancestors were eager to receive a purple jacket from their descendants, from us.

True Mother gave this precious Cheon Shim Won in Las Vegas. It is the last gift and hope for the USA. I am so grateful that I am able to precipitate in this mission for this precious country which True Parents loved and spent more than 40 years in. And I have lived in the U.S.A over 50 years. This country is my precious, important country also.

Thank you Dr. Kim for enabling us to receive purple jackets.
