

Wherever we go, we should plant ourselves as the word of God - True Father

Dear brothers and sisters!

Here again an inspiration, based on the words of True Father and True Mother:

True Father: "God has the principle pattern of life, which is giving love, unselfish love and He never changes. No matter how many times God is betrayed, he never changes position, continually seeking to sacrifice His people. But He does not leave His people just in sacrifice. He always resurrects His people. This is a much greater victory of life. This is God. There is no other way we can change this world unless we practice the principle of love of God." (1)

God's heart is unchanging and so is His love. He gives and forgets, invests again and again, no matter how often He gets rejected. The same applies to Jesus, True Father and True Mother. They, just as God, forgive and love their enemies, endlessly.

This love is the greatest force and it is unchanging and unstoppable:

True Father: "The roots of a tree can penetrate even a huge rock; in exactly the same way, the power of love will grow and take root over the whole earth." (2)

God and True Parents want true love to spread everywhere without ceasing. They need us to spread the tradition of true love around the world. That means we need to strive to embody true love:

True Father: "I want to see love in you that is not self centred, love that branches out to embrace your family, society, nation, world and God. As long as we have the right spirit of love it doesn't make any difference whether the World Mission Center, the News World Building and Belvedere are all blown up and nothing remains. With the right tradition we have everything. This is the only thing we want to keep and hand down from generation to generation." (3)

Spreading the tradition of love will lead to the completion of God's Kingdom, the world of heart and true love. We need to plant true love wherever we go:

True Father: "What we have to do is not just receive the words through Hoon Dok He, and not just follow them or be pulled by them and carried around, but we should be able to go around and plant the words, i.e. plant ourselves, which means to be the substantiation of God's words. Wherever we go, we should plant ourselves as the word of God." (4)

With other words, by our life we need to plant God's word and true love everywhere we go, so that goodness in this world will increase all the time:

True Mother: "That voices of truth and goodness are not silent is very important. If we are to transform our world, we must teach truth and practice truth, not only in schools and classrooms but in our families, our communities and the wider society. Whatever our professional field or vocation, we are called to set the example and in this way to teach others. As we become true teachers we will multiply goodness, and we will transform the world around us. A person who has cultivated a true parent's heart and a true teacher's heart is a true peacemaker."
