Anyonghaseyo, dear brothers and sisters!

Here again some inspiration, based on the words of True Father, True Mother and Heung Jin Nim [in the spiritual world]:

True Father: "Once you come into the world of love, everything is love and you cannot help but see everything that way. If you looked at an Oriental man you would see his love before you would see that he was Oriental. Whether a man was Western or not wouldn't matter. When you look through the glasses of love, you see only in love." [1]

The more our heart grows, broadens and deepens, the more we can see the people of the world as what they really are, beloved sons and daughters of God. Then it will not make any difference to us what they think, believe, do, what colour of skin they have, if they are rich or poor, educated or not. We will be able to respect, love and embrace them all, without any exception.

Since God loves and embraces even those who oppose and hurt Him, we will be able to do the same. We will not hesitate to embrace with our heart even people who give us pain. We will look for ways to invest our heart into them, unconditionally and unchangingly.

By us becoming people of that capacity to love, which means becoming real channels of God's love, we become the spearhead for the establishment of God's Kingdom, the world where true love is everywhere at any time:

True Father: "What is heaven? Heaven is created by those people who love here on earth with unselfishness and an absolute, God-centered love. This is the most basic principle, and all other principles you learn are the expansion of this basic truth." [2]

By becoming the embodiments of God's love we create God's Kingdom. The more we become the embodiment of God's love, the more we can rid this world from resentment, hatred, revenge etc. The more we spread the warmth of love, the more all evil will disappear quite naturally, just like darkness disappears without resistance when the light comes:

True Father: "God dwells where the warmth of love is, and that is heaven." [3]

By spreading the warmth of love to all the children of God, no matter who they are, we are in the footsteps of God, of Jesus, of True Parents. And in this way we inherit the heart of God, becoming His true representatives, the representatives of His and True Parents' heart.

Heung Jin Nim is desperate to help us with this:

Heung Jin Nim: "... you have to really walk with me, feel me and let me come inside of you and be a part of you. And then look at the people through my eyes, feel the people through my heart and then even I won't be there, you will still feel like you were feeling through my heart, still feel as seeing everything through my eyes and then you know that I fulfilled my mission and you'll be really grateful because you will have reached this level of love and you'll be so inspired." [4]

Not only Heung Jin Nim, but also Jesus and True Father are willing and very capable of helping us to become people who can see others the way God does. They all want us to become like pure water who can build the Kingdom wherever they go:

True Mother: "I earnestly pray you will all be as true blessed families such that the peace of your families and yourselves will be as pure water purifying your surroundings." [5]

The more we become pure water, embodiments of God's love, the more peace we will find in our own heart. We then can spread love and peace everywhere, becoming the greatest peace makers the world has ever seen. Not only will we create the world of peace, but the world of true love.

We all have enough potential to participate in this great task, to become embodiments of the love of God, who see others with God's eyes and love them with His love. This is just amazing!

Love from Bruno
