A testimony to all FFWPU, when True Father went to Danbury I did an experiment where I just gave the whole Divine Principle to the American people.

2 things could happen, either it could go more down or up, it did not go down it went up, people become overjoyed over this new truth, they put abstinence in schools, changed their life, love to see True Parents and Divine Principle teachings every Monday night, nothing but positive news, people spoke openly about True Parents and Divine Principle, the local news even introduced my programs, I did not organize this or tell anyone to do this, they did it them self, all I did was to teach them, I reported it to True Father they loved it gave me his Blessing.

Having events with no education in Divine Principle or True Father words will not help America, only Gods truth can restore this country, guess who shut me down FFWPU, America can change all we need is to educate them, one person with a video camera can change a country, email me for more information mention how to do cable TV in subject line erling1975@gmail.com
