

## Unification family must complete ancestor liberation by Foundation Day in 2020

Gi Seong Lee  
October 23, 2018

*"We have less than two years to complete Vision 2020, which we promised in front of Heaven, so we have to push ourselves to take responsibility as Heavenly Tribal Messiahs," said True Parents.*

Following on from True Father's 6th Anniversary Ascension, the path has been opened more widely to complete ancestor liberation and the Blessing of 430 generations (vertically) and the Tribal Messiah mission of Blessing 430 couples (horizontally).

On September 20th 2018, at the Cheon Jeong Gung, True Parents said, "All members of the Unification family of the world have to be registered in the Cheon Bo Won through the completion of ancestor liberation and blessing of 430 generations by Foundation Day in 2020."

It is the wish of True Parents, that branches of Chung Pyung Heaven and Earth Training Center be in each region of the world by 2020, in order to complete the ancestor Blessing of 430 generations by Foundation Day 2020. This is for members to receive support from their good ancestors/spirits and work towards Vision 2020.

True Father often emphasised the importance of there being breaches of Chung Pyung on each continent in order to cut down on expenses and to bring more members together for workshops.

Through international Chung Pyung tours, which will be carried out by Chung Pyung staff, Chanyang sessions and ancestor liberation will be able to be held locally, therefore making it possible for branch training centres to be set up around the world.

### **Proposed sites for each branch:**

Africa: Zambia

Europe: Germany (Camburg)

Central and South America: Brazil (Jardin Training Center)

Asia: Thailand (Pak Chong Training Center)

### **Plans for the future:**

Each branch will carry out Chanyang sessions, ancestor liberation as well as host a variety of workshops.

Each branch will carry out Chung Pyung Great Works twice per year.

Each branch will hold workshops by making a yearly schedule, according to the situation of each continent.

Each branch will carry out a Chung Pyung tour every month, for the respective nations of each continent.

Explicit information regarding ancestor liberation:

A. Ancestor liberation and blessing from 1-210 generations 1) Please follow the current method.

B. Ancestor liberation from 211 and until 430 generations 1) The ancestor liberation until 329 generations currently ongoing will be continued accordingly for the five-month period from July to November 2018. 2) From December 2018, the liberation of a new set of generations will start from 330 generations for five months until April 2019. Up to now we have been liberating one set (seven generations) at a time but during this time we will expand to seven sets of 7 generations (49 generations in this period, that is, generations 330 to 378). The liberation of all earlier generations that were not yet liberated will also be possible, from 1-378 generations. 3) From May 2019 until September 2019, for five months, another seven sets of ancestors (49 generations) will be liberated, that is, generations 379 to 427. In addition, three extra generations will be added so that all members can complete liberation until 430 generations (a total liberation of 52 generations during this period). 4) To be able to participate in the ancestor Blessing ceremony for 430 generations held during the period of the Special Great Works commemorating Foundation Day (February 6, 2020, by the solar calendar), the liberated spirits must have already finished their 100-day workshop in the spirit world. Therefore, liberation of all ancestors until 430 generations needs to be achieved through the Hyojeong Chung Pyung Special 2-day Workshop no later than October 25, 2019. 5) Until now, when members applied for ancestor Blessing from 211 generations and onward, the next set (7 generations) of ancestors were liberated automatically. However, from December 2018 members can apply for ancestor liberation until the latest generation. However, members still need to offer the donation for the liberation of ancestors until the 210th generation. Members do not need to offer any donation for ancestor liberation from 211-430 generations. (This is only on the condition that members have completed all payments until 210 generations.) 6) For those members who have been continuing with liberation and Blessing from 211 generations, from December 2018 when members apply for the ancestor Blessing, the liberation of ancestors will automatically be applied until the latest generation at the time. (From the 211th generation, when members apply for ancestor Blessing, they do not need to offer any extra workshop fees or donations for ongoing liberation.) For members who live in Korea and Japan, when they attend a 2-day workshop when there is no ancestor Blessing ceremony, members can apply for liberation up to the generations currently being liberated. Payment of liberation donations and additional workshop fee are not required.

C. Ancestor blessing from 211 to 430 generations 1) From July until November 2018, ancestor Blessing until 322 generations will be held accordingly and there are no changes to the current situation. 2) From December 2018, the Blessing for ancestors up to 329 generations will be held for five months, and from May 2019 the first seven sets (49 generations) will be ready to be blessed and members can complete the Blessing of 1-378 generations. 3) From October 2019, the ancestor Blessing from 379-430 generations will be conducted. Members must complete the ancestor Blessing up to 430 generations by Foundation Day in 2020 (February 6, 2020, by the solar calendar). The ancestor Blessing ceremony for the month of February 2020 will be held during the period of the Special Great Works commemorating Foundation Day. 4) The workshop fee and Blessing fee for each set of seven generations of ancestors is the same as the current rate for your country and needs to be paid accordingly from 211- 430 generations. 5) Regarding the ancestor Blessing for the generations from the 211th generation, members can bless ancestors according to their wish within the generations that have been liberated up to that point. 6) The ancestor Blessing ceremony is being conducted once a month; however, when necessary, it will be held twice a month.

D. Ancestor liberation and ancestor blessing after Year 2020 Foundation Day 1) The grace of ancestor liberation and Blessing until 430 generations by Foundation Day in 2020 is the special grace and blessing of the True Parents of Heaven, Earth and Humankind opening the path to Heavenly Tribal Messiah victory of blessing (vertically) 430 generations and (horizontally) 430 couples. Therefore, all blessed families should complete this liberation and Blessing of ancestors until 430 generations during this given time period. After the ancestor Blessing ceremony up to 430 generations held during the period of the Special Great Works commemorating Foundation Day (February 6, 2020, by the solar calendar), the process of liberating and blessing ancestors from 211 generations will revert to the normal process of liberation and blessing of one set (seven generations) at a time.
