During the Great Works, the Holy Ground Pilgrimage event for the Inheritance of Heavenly Fortune was a huge success. This event included a special photo exhibition at the Sunhak Institute of History under the theme, "Cheon Il Guk: Historical Development up through Realization."

Through this and other pilgrimage programs many members experienced True Parents' shimjeong with their own hearts and bodies. It was a precious time for them to understand the path of the Cheon Il Guk providence and the course of its development.
