

## Spring Great Works: Offering Ceremony for the Inheritance of Heavenly Fortune

Gi Seong Lee  
May 11, 2019

The Hyojeong Offering Ceremony was held in the Tree of Love Plaza with Jeongshim Won prayer hall in the background. The pre-program consisted of Sun Moon University students, Japanese students and the Little Angels, performing beautiful traditional Korean dances, songs of peace and love.

The Hyojeong Offering Ceremony began with the flying of a bird, symbolizing True Parents blessing us all and President Gi-seong Lee read the Gratitude Report to Heaven:

"Pour out Your grace on the blessed ancestors and cleanse them completely of their errors and shortcomings from the past. So that from now on they might shine brighter and support their descendants on this earth, with heavenly tribal messiahs, like a flame the work of the spirit and the truth will expand."

The Hyojeong Offering Papers carried the resolve to fulfill the noble work of restoring the nation and fulfilling one's heavenly tribal messiahs' mission. Fervent prayers of gratitude were elevated to God, and the Holy Spirit filled the entire Hyojeong Cheonwon Holy Ground.

As True Mother presided over the offering, she gave her blessings to those who will save their tribes, and country through the vision of a peaceful-unified Korea and asked that we proceed with confidence because the spiritual world will support us, based on the victorious foundation of True Parents.

True Mother gave us the victory formula: implementation with absolute faith, makes the impossible possible.

Determined to become both heavenly tribal and national messiahs who will accomplish the miracles that

God has in store, as the skies of the Hyojeong Cheonwon Holy Ground illuminated members prayed for the light of hyojeong to shine throughout the world.
