August 20, 2020

On August 20th, the Central Committee of the Women's Federation and With Woman delivered necessities for Korean language students at Sunmoon University's Cheonan Campus.

This was organized after international students at Sunmoon University heard news of international students who are unable to return to their home country due to Corona 19 and who are also experience financial hardship.

Items included a two month supply of towels, underwear, and other necessities. The items were donated to 160 international students for two months and Chairman, Mi-Ok Kim, loaded all the donated items on a truck and drove himself to Sunmoon University's Cheonan Campus.

The university staff and university students expressed their gratitude. It was a time to be happy together while seeing the bright smiles of international students during an otherwise challenging time.
