Summary

June 25th is the 75th anniversary of the Korean revolt on 6.25, if you think that Heavenly Father sent young people all over the world to participate in the war to protect their true parents, how noble true parents are. The more you know the principles, the more you realize that he is a man who cannot change even if you give him the heavens, and he cannot change even if he gives him all of the corruption of humanity If we pray and praise in our hearts that we stand on sacrifices like this, I believe there will be great blessings tonight.

432 participants participated in the 15th spiritual training session under Holy Mother Han, and more than 500 from the spirit world and 556 people have been prepared, so I will inform your mother that the registration has been extended until the 28th. I don't know how pleased I am. In the spirit world, Navi troops are formed and supported, and Nobuoki are being patrolled with the spirit of a swallowtail butterfly, but on the day I left Africa, I heard that a large swallowtails butterfly entered Tenshinen in West

Africa, which I couldn't patrol, and it went around for an hour, and that everything was not a coincidence, but a surprising order of heaven, and I was very pleased. A mother who came to the Fufun Department Store and gave each of the trainees who gathered and shouted "Mama" and benefited her with cold ice cream.

Many people experience the miracle of achieving surprising quality changes by praying with all their sincere prayers in this ascetic monk, which is in your mother's womb. All those who participate in the ordination must pray, "Grant me deep roots in the faith, that I may be born again in my mother's womb." A person who couldn't speak at first gave testimony by participating in spiritual training and became active as the director of the training department. Making such a change that everyone wonders how it changes.

6000 families who participated in the 274th period 40 training wrote 60 poems about the benefits they received during the training and published a beautiful book. Presenting some of them.

Under the Tree of Lent

"If you go out of Tenshingen and climb up the hill, there is a place where your mother used to go, and when you sit there, close your eyes, you cry." When I came up I heard the horrible voice of my father, I felt it in my whole body that the sound of the water wheel was going to disappear, and the monks in the pond were busy hiding it in the mud for fear. An ancient tree called the mother tree, and when I gently put my hand on it, I could hear it breathing inside. I see wetin my chest come again, that voice I hear omma! "

Newcomer feedback

"It's not even been a year since I first came to church August 2024 I used to think that the Unity Church was heresy when I attended Christianity. When a son receives a blessing, he is too devoted to him, and he went to Seihei with his husband on the blessed day. After the blessing, the moment I entered Tenshinken, I felt a scary feeling all over my body that I don't know why. The moment I saw the honor of my true father, I was so shocked that I could not see it properly. So I asked my son a simple story about his true father's life and he was in tears. Received a true mother's autobiography from my son, read it without a break, and couldn't stop crying.

Life was impossible to live without a strong sense of duty. Being moved by the life of her true mother, she started attending church afterwards and participated in all-night prayers without missing a single day. Last September, I experienced a true father and mother being directed. My finger moved that I couldn't move until then. At the time of all night prayer, Oma and Oshin-sama came. I had a bad cold, but I stayed up all night without going to the hospital, and the next day I was like a lie. One day, my father appeared in my dream and told me, "Make sure you live well."

My mother also appeared and looked at me with a satisfied expression on her face. Noshin-sama appeared and patted me on the head, and said, "Don't worry about Noshin-Sama." I will see you and your mother until the end. I said, "He laughed and walked away. While on the way, I was skeptical that I had done something wrong, my father appeared to me in a dream and scolded me, "Why are you not devoted?" So I quickly answered, "I can praise the Lord." and sang praises all night. I repented my thoughts and started to continue my all-night devotion again, and in April this year, I will receive my already accomplished blessings. Now I'm living my life with joy, gratitude, and genuine love. "

I hope that everyone will do their best in praising the true father and mother, the one and only heaven and earth, who had the power to reinvigorate all humanity. Experiencing a surprising event in Tenshin-sai Seiji and testifying to it by faith, if over 100,000,000 people move forward with all their sincerity, the world will open up for Heavenly Father and Mother to rule with real entities. Living on earth is like the morning dew for a short moment, if you know the eternal heavenly kingdom, you should not live in vain here on earth. He shall not afflict a man on earth, nor sin. In the golden age of providence, living for the sake of your mother will be conceived. I ask that you engrave in your heart how great a blessing it is to be able to pray and shout Holy Mother Han in this Tenshingen.
