Summary

There are now 482 students of enigmatic assembly, and almost over 500. Message from my father yesterday

"Think this long dark tunnel will pass, just mother's health is the most important thing." Both South Korea and Japan are going through a tough time. Why did we start a spiritual training session at this time? Why did we gather them from the spirit world? Big things must be accomplished starting in July. Not a single

thing to be sad about. How we should struggle in these complex times. How should you go to your mother? You must appear loudly before the world, full of hope. Like the sun, our voices must also become hopeful bright light. Our inner standard point is the belief and faith that is right to our Heavenly Father, fully embodying the feelings of Holy Mother Han and speaking out openly and loudly. With the prayer and praise of the spiritual practitioner, your mother will receive strength, and your mother will live well, and you must fulfill your wishes. Aboji and his brothers in the spirit world always want to make their mother happy. This is the time to prepare that our family will be happy too. Sorry for the roles and responsibilities at an early age. We can't sit still either. Time of determination and determination to make our mother happy and give back joy to Heavenly Father, without lacking anyone, let's try to make this time's spiritual training students who will give joy, tears of prayers, and gratitude to Heavenly Father. "

Testimonials from Second Generation Trainees

The religious faith of parents in 6000 households was very good and they grew up without any conflicts. (When you grow up with parents fighting, your child's spirit becomes damaged depression and schizophrenia. Such a family requires parents to repent and devote themselves to their true devotion.) Eagerly participated in spiritual training and benefited, the true mother appears in my dream three times. He was able to have an audience with his mother during the Moshim training, and he decided to dedicate his life to establish a divine unity in Korea in the current golden age of provinciality.

From the proof of a trainee at the Academy of Environment

In order to get out of the upper-only faith, I entered spiritual repair, and realized the state of entering the zero position. As a father and mother said, "In order to follow the path of critical life, one must deny

oneself." The position of self-denial is the position of zero. ㄱ Confessing your zero position means you are in position to receive good fortune. I can't enter Heavenly Father's heart if I have my own thoughts. When I entered the zero position, I could understand my mother's feelings. The most beneficial place is the place for Tenshinni prayer, and when they prayed, they felt the pain of Heavenly Parents, and they were hard to breathe and cried out loud. You all need to be in that mood. You have to stand in that position and feel the joy of life.

In 2018, when there were only eight people who devoted Tenshinko, my mother was told that there would be more than 8000 people. The words were fulfilled at the World Center on New Year 2019. After that, the Tenshinni regulations became even more important due to the great victory of Vision 2020. But there are still some people who are not devoted. In the spirit world we pray like war. In the spirit world, the Chuwannabi troop is formed, and the second and third generations who were young in the spirit world pray together. 500 spiritual assembly students praised above. Can your mother rest easy when she can't sleep at night? When Jesus was praying in Gethsemane, he fell asleep, crossed the history of the crucifixion. The true Father and Mother came to earth and opened the great blessing of salvation for mankind on earth and in heaven. True father and mother who accounted for original sin, forgiven sins with the sacrament of pardon. You must have absolute faith.

Last night, 6.25, on the 75th anniversary of the upheaval, your father was called to represent the mother of the student soldier, and he has a message that he should talk about his feelings.

"I am the mother who sent her son to the soldiers." Now I'm working as an absolute good spirit by receiving the blessing of disposal. Father told me to speak about your mother's feelings, but words can't express her feelings. I don't think I'm talking about it, but... Who will protect my younger siblings if I die when my son is 17 years old and he has to go to war and my son who doesn't talk much. Mom was filled with tears when she was worried by herself. Tearfulness lay up, heart full for his son. He did his best to protect the little ones who remained. Does a parent's heart feel better when they send their most beloved son to the battlefield. I can't describe the feeling of my true mother. How difficult is your mother's feelings? A true mother who couldn't cry and send her beloved child. If you go to the spirit world, you can feel the true mother's feelings vividly. You can only fall down and cry before that love. You don't know how many tears the true mother of humanity has shed. We will protect your mother. My true father and mother have lifted my grudge for not being able to hold a child. We must release your mother's grudge. You must become one with your mother. Let's go ahead and protect our mother. "

I believe that if all mothers go into their feelings thinking about the writings of the scholar soldier's mother, the ministry of the Holy Spirit will come down.
