Summary

Impressions on the food of Aobadai Church

The courage of pure waters reverberating in the whole world's spiritual training session, those who are born again in their mother's womb and move strongly to all parts of the world, can't we call it miracles? Where else in the world can anyone achieve great things like this? What more powerful proof can there be? Even the world religious leaders are deeply moved by this fact and spread it to the whole world. Witnessed the truth today. Our mission is the clan Messiah, we will run until we fulfill that dream.

Impressions of Kotoku Church's meal

Whenever I hear the evidence of the two generations, I feel that they are reborn in the womb of their true mother and restoring the true relationship between father and child. Watching the Tenshinken Choir, I realized that the difference between the first and second generation is sharpness. When you think that the word "one little needle" means not only the second generations but the whole united with the true mother,

you can't help but feel that there is no limit incomparable amount of care. I want to attend this with all my diligence through Tenshinzen prayer.

Impressions on Musashino Church's meal

During mother's hardest and difficult time, more people gathered at the main office, and the whole world was united online, and the first, second, and third generations gained great strength. The more trials I have, the more I believe that I will stand strong and bold like Joshua and Caleb and not defeat the world of Satan. I believe that if pure waters born of true love unite and pray and practice with pure tears, mind blowing affairs and miracles will happen.

With a sincere heart, every private church needs to be shown before heaven, saying, "See my faith, see my church's sincerity." Every day we must work diligently in setting goals so that we can make prayers that move heaven.

Proof of Resilience Academy Student

Although she was the second generation, she was a dormant child for 25 years. While he was hurt a lot in his social life, he was moved by the autobiography of his father and mother at home, and he felt summoned, and he became associated with Tenshinni Seisei. I was convinced that going to the training meeting would solve my problems, and after completing the 40-day training session, the spiritual training session, the American mission, and the Moshim training session, and going to the Attended Garden Cafe as a servant of the Academy. I received a surprising revelation from Heavenly Father to make 100 new menu items. "Why should 50 be fine, and he said, "Why should a man who believes in the Father in Heaven be afraid?" Believe in heaven, because he will do the work, and show the miracles of heaven." After that, 70 of them were developed, and 15 of them have already been sold as new menu items.

In music, he composed more than 100 songs before he entered the shrine ceremony after receiving a revelation from Noshin-sama. The shepherd, when he prays, will give him more than a hundred pieces of wisdom. In this reasonable golden age, if one year passes or two years passes, there will be tears of wolf. Heavenly Parents do not only cure illnesses when they pray at Tenshinchi. This world is re-created and played a role in transforming earthly hell into heaven on earth and earthly hell families into heaven on earth.

Certification of 40 Russian Pastors

Active pastor responsible for four cities. Taking my three daughters to an training session to learn how to make the pasture better. While doing his best in Tenshinshi, when it rains, he feels that Heavenly Parents are crying, and a resonant phenomenon occurs, and he feels the presence of his true father, and the feelings of his mother are also steadfast. Again, breathing meditation in nature and feeling the perfume of heaven, and for the first time I can truly appreciate the love of nature. I felt love in all things I saw surrounded by heaven's love, and when I saw people surrounded by love, I began to look precious to everyone.

On the completion ceremony of the 40th day, your father gives the closing resignation.

"Celebrate. In these 40 days you have embodied the love of Heavenly Father, the love of True Father, especially the love of Holy Mother Han. The strong and fit person is the one who won this 40th day training session. To be a person who has established a foundation of vertical love, centered on true love. These 40 days are the period to take out all the depravity and evil spirits

that surround me, find me, and restore my relationship with Heavenly Father that I truly deserve to feel. During this period you prayed alone and did not pray alone. For I was with you in every moment, and your fathers were with you, concernedly helping each one. Have you ever felt that invisible world for once. What I have felt in these 40 days will be a precious remembrance that I have accomplished with Heaven, so I must remember it and practice what I have been taught, even when I return to my positions. When you return to your own lives and your spirit is dried up, join Tenshinsen Seishin and pray earnestly. The practice of 40 days of education begins today. Go forward with the heart that each position is a training ground for true love and words. You must experience the miracle of prayer and each of you must testify to the miracles of Holy Mother Han. Be a hedge to protect Holy Mother Han, who repays the blessings you received during your training greater and widely before heaven. I've had a lot of hardship during the 40-day training period, thank you. "

"For the first time in 6000 years, I have an only daughter who can be called my daughter. "How happy and grateful is this?" (Kun-doku only). If you believe this word and marry your only daughter, you will receive 6000 years of good fortune, but if you do not believe it, you will have 6000 years of disaster.

"There has never been a day dried up with tears in my parents' eyes." People in public office can't sleep with their legs at ease, and can't eat food with ease. Spending these circumstances, listening to all kinds of bad words, but never making any excuses. When we trace the internal feelings of our Heavenly Parents, the trials and pains we suffer today are too mild. We should bow our heads and be ashamed to our Heavenly Father. "

THE MOST IMPORTANT THING FOR US NOW IS TO SETTLE NOONDAY IN ABSOLUTE FAITH, ABSOLUTELY LOVE, ABSOLUTE OBEDIENCE BEFORE OUR HEAV and new wisdom will come to you. "If one fails and goes forward believing without worrying, then one can settle in a higher dimension. That's the philosophy of father and mother's life. Up until now the unity church has been denied but the more denied the lower it was in its position the higher dimensions will be done. "

Not our church that will perish even if the world denies it. Overcoming this difficulty will lay a national and global foundation and leap forward. Don't be discouraged by believing these words. This is the path that I walked in follow of my true father and mother. There are elders who risked their lives and there are those who love and sacrifice their lives. Some of the 2nd generation Pure Water decides to move forward with their lives. There are 43000 people praying together in this place, the Chewan Navi troops on earth devoting their sincere devotion to Tenshin. Being united in our faith will surely result in exponential growth. The sovereignty of heaven is eternal, and no one can thwart. The authority of Billion Trillion Mibyu Mankatsu Kuni Kuni Shotoku Emperor is eternal, and Holy Mother Han's authority and authority are eternal, so we must separate all this trials with our faith. Let's do our best today so that our supplications may be communicated to heaven.
