**A summary of the long-lasting words**

**Certificate of Korea 40 students**

I said, "I couldn't have come if my body didn't hurt" and participated for the first time in 25 years. At the beginning of the training session, he attached a urinary tract to his leg and suffered inflammation of his bladder prostate. While I couldn't sleep well at night, I was in a state of apnea and shouting in my sleep, I couldn't appreciate it, the team leader told me "I must work hard enough to make the heavens move," and I repented and began to do my best. He performed praises, organized the central spirits, and prayed for making the hand of the hand, but above all, he was the diligence of his family. When the child started doing 430 worships for his father, prayed 1000 times in the family and received a miraculous healing experience two weeks later. Surprising health restoration to my previously unhope body. The greatest

enlightenment he achieved in his 40th Buddhism was that 'your sins will be passed on to your descendants as baggage'. A daughter who gave birth to her devotionally earned the blessing of winning the grand prize as a shugen student. Then my past sins became a baggage and I repented what troubles will fall upon my grandchild, who is expected to be born in the third generation. If you share this One's enlightenment as your own enlightenment, it will benefit you greatly for the rest of your life. It can be said that I was able to attain such great enlightenment because of the integrity of women in my family, especially in particular, was behind it

"I have come to realize that resonating with Holy Mother Han's love and sentiments is the ultimate truth." When you put the hand on resonating, you could sense the trauma in the other person's heart. Through this, I could sense how much Holy Mother Han loves her children. Instead of vaguely trying to become one with Holy Mother Han, you can become someone who demonstrates that elation when the concrete result is evidence of "I was able to become one with the Holy Mother Han."

**Impressions on Korean 40-shu**

I can say it is hopeful that many young members will undergo training. The way I prayed and praised my whole life looked like a mad person, but now I can think that this is the true and valued version of myself towards my mother. Before and after the training session, you experience a big difference.

**The evidence of the Korean church president**

He sent his father to the spirit world early, and for the sake of his mother suffering from cancer, the mother and child entered 40 Shu (40 years of training) and devoted themselves to absolute faith, but the mother also departed to the spirit world. When the president of the church prayed a passionate prayer for the asshu student with lots of tears, Noshin-sama appeared in his dream and said, "Please help (the asshu). I got a message that says, "Buy him a warm jacket because he works hard." However, when time passed without being able to contact him or buy him, Mr. Tsushin came to visit him again and scolded him loudly saying, 'Why didn't you give him a gift at that time?' and received a message again saying that he should buy him good athletic shoes because he works hard even in the hot summer, and the next day he immediately went and bought them. After that, on the night he shared some money to the leaders and staff as summer vacation expenses, Tsushin-sama appeared in his dream and said, "Why don't you give it to public officials and not to the trainees? "You should replace your father." Now this church president is determined to replace the father of this student who has no parents. Had a powerful experience of the underworld living and working. In particular, I realized that Noshin-sama was the eldest child of the spiritual world where he lived and worked.

**A message from Mr. Suzushin**

"Although the time has come for Heavenly Parents to direct control, there are too many issues that cannot be sorted out. Heavenly Parents and True Parents are struggling because we fall short. True Parents will hurry to complete the provision. Blessing households gotta follow along. We must not be late. Providence is not someone to replace you, it is a responsibility that the bless family in this present day. And in that responsibility, no one can go free. If you don't, the children must carry the responsibility. If the first generation does not, the second generation must carry it, and if the second generation does not, then the third generation must carry it. We have to do our best now to prevent that from happening. "\
