Summary

Certificate of Korea 40 students

After graduating from graduate school, he was hospitalized due to extreme depression and suicidal impulses, and while he was dismissed from his workplace, he participated in 40 shu (40 shu) after his mother recommended him. Even after participating, the situation was difficult, but the three of them, mother, husband, and mother-in-law, worked hard together, and the trainees helped them, causing a miraculous quality change. I experienced the astonishing love of Heavenly Parents, and with tremendous praise, the spirits in my body departed, and the chunks of my heart melted with prayer. He participated in the second 40th shu by himself and even got a certificate. No matter what trials come our way, we are determined to build a true family as a second generation blessing family.

After hearing such miracles, I realized that there is an underworld, that there is an evil god's work, and I must absolutely believe in Heavenly Parents, True Parents, Holy Mother Han True Mothers, Noshin, and Koshin, who have the ability to organize them, and not only our blessed families, but everyone in the world, heaven on earth will be achieved. We have a responsibility to preach the word to the ends of the earth and witness to the affairs of the living heaven.

Proof of the third world of Japan

While living a religious life, there were many conflicts and burdens in your heart. I met my father and mother in a dream and felt love, and when my grandmother appeared and asked for love for my father, her son who died before me, I became convinced of the spirit world. There is only a word against the whoring of Pastor John. "If a couple lives happily together rather than devoting something to their parents, they become a husband and wife in itself. Their parents suffer a lot of pain if they suddenly divorce one day. Giving birth to a child and raising them with all sincerity becomes a diligent life for parents. Grandparents looking at it, how happy the ancestors feel. Even when it comes to their parents, they can complete their personalities when they call them with their parents' feelings. The one who is victorious by his father's feelings against his true father's father's parents.

Messages from the Spirit Realm

""This age, the hour of heaven's judgment has come." Whether living as one with Holy Mother Han is the standard that Heaven judges. Those who become one with Holy Mother Han listen to heaven's voice with sincereness, understand heaven's spirit and practice true love. In hopeless despair, all the people of the world will come together, following the light of the blessed home

that fulfills the responsibility of becoming one with Holy Mother Han. Our hope is that there will be more Pure Water in the whole world, trying to become one with Holy Mother Han. They know how to cleanse their spirits with Tenshinshi, discern good and evil by knowing the will of Heaven, and become one with Holy Mother Han. Even though the road may seem difficult and long, it is the time when Holy Mother Han is on earth that providence will advance fastest. The safest squad in Holy Mother Han's belly joined with her mother's ligament is this Tenshinki Seishin. Tenshinni prayer rooms in the whole world are truly the salvation arm of this age. "\

When the second received this message said, "Go to the palace and make a bold prayer to the spirits, saying, 'Move, protect your mother, why do you not protect Holy Mother Han?' There are many spirits who are grateful and happy for the commandment. "and I received orders.

A message from Mr. Suzushin

"We have only one wish in our household as we come to the spirit world, Holy Mother Han, to protect you." I will teach you through spiritually bright among children, but besides that, there is a need for two and three generations on earth who can communicate with children. Kishin, Keishin, Noshin, and Nobuyoshi could not bloom at the age they dreamed of when they were young, and they had to become a sacrificial festival. I'm glad if you comfort them. They also need someone to pray for them, so Tenshin-sai Seisei is grateful, and I am grateful that future generations who resonate with them have appeared.

My mother sent me a letter telling me she was having a really hard time and lonely time, and I understood it well when I became a parent. When mother guides the devourers, she grasped the heavens and gave her all her diligence, and she tried to embrace those who do not understand with love, then one day, heavenly favors flowed down. This is exactly the path that true parents walk. Until the great Grace of Heaven is spread to the devour of the whole world, greater price and sacrifice will be paid in the unseen places, and with that effort there will be an officer. Even after coming to the spirit world there are many things I should accomplish, so I don't regret it, but I feel infinitely sorry to my mother. In my most painful moments, my mother suffered more than me, prayed for me, loved me without ceasing, and gave me words from the heavenly father's view to fully support the will of heaven. When I became a parent, I got to know my mother and father's feelings over my grandchildren. I am so sorry. The spirits can also approach the feelings of their true fathers through the providence of the earth. From now on, answer with a pure, pure, obedient heart, receive the messages of God, and understand and study the spiritual realms, receive the help of the spirits, and teach them to the devotees. I am responsible for teaching you how to communicate with the spirit world. When you consider the fact that when you lose your flesh, you have an eternal spirit world to go, they ask you, 'What did you do on earth?' and you say, 'I have nothing to boast about'? Man's wish is to meet his true father and mother. Even if you go the path of death, the true father and mother you should meet. Even if you lose everything in your history period and have a grudge for losing your descendants, if you meet your true parents, you will search for all history, era and future. A true father and mother are important like this. Compared to the eternal world, the life of man is a short breath and exhale. We gloriously met our true father and mother. It's only once in history to summit. "\

Father's words

"Father believed that his mission was to gather people who lived for the sake of our Heavenly Father, so when he was spoken ill of him, he did not oppose him, when he was beaten, he did not take revenge, and

he persevered with love." because I was born a daughter of the Heavenly Father, and because I was responsible for His will. "To establish this tradition, mother devoted 1095 days of serenity to the tomb, and became completely united with father. Too many times we stretch our feet and rest easy when we talked and prayed with Heaven all night to solve problems. If you had absolute faith in your mother and united your will would have been accomplished. How many words your mother said, "I alone can't even open my eyes in the desert looking for one small needle and have to call the wrong button again." Even so, he won the entrance ceremony of Tenjongu-gu Tenichi Seiden. We spend a lot of days wasting time mourning and grudging, but we don't have that time anymore. The time I have left completely united with my mother, I have to live for the sake of God and perform miracles. If every Friday all-night seijon starts to take place at the World Center, I believe that Divine Unity Korea will be formed. When all religious people get out of the car they've been in, meet the true mother and board the heaven train, there will be a surprise affair. We must fully unite with Holy Mother Han through Tenshinka Seishin and ensure that miraculous work can happen that will awaken the blind. Join us today as we celebrate another time of grace prayer that believes the spirit world is being mobilized.
