I hope you're doing well
1380th Tianxin Garden all night sincere

Summary

If we move forward together in Tenshinzai prayer, we believe that even in the midst of any storm, we will become a growing church of God Korea. Everyday I can sing Way Maker and see Heaven perform miracles. Today, the Spiritual Academy ended, but it was a training session in which the spirit world led from the beginning, and direct messages were sent by father, Noshin, and Koshin. Even after training, they do not return home, but devotion and service people gather together for a departure ceremony. Serving in Europe, Africa, Central and South America and other parts of the world, showing their growth as new leaders.

Felicitation of my father at the end of the spirit academy

"You know why academy closing ceremony and departure ceremony on the same day. The beginning and the end begin together and the pulse takes over. The academy of psychology is exactly the same evolutionary process of psychology. In the practice of spirituality to become one with Holy Mother Han, the pulse must be carried over, even though it is meant to devote the tangible diligence of protecting Holy Mother Han and grow their own spirituality. Senpai passes on the foundation of refinement to juniors, and juniors open a new era on the foundation of past refinement. In the eighth period, he was appointed to Seiwasetsu Daiyakuji. How grateful it is to practice true love for your mother. As I say it often, those who have finished, those who are now continuing their academy life, and those who have just arrived, should not miss a life of gratitude everyday. Sometimes you'll get worn out.

It can be hard, you'll have difficulties with each other in relationships, a feeling of emptiness, that no one understands your struggles. Sometimes you will be confused by your inadequacy. But know this. Your struggles are hope for the whole world's food. Being the power of Holy Mother Han. So be confident. And the purpose of the academy is not for my growth, but for the restoration of Tenshinshi Shuri, and to protect and live for Holy Mother Han. Growth will naturally follow if you focus on that purpose. Complain can't come out. Resilience academy students should be selfish. Being selfish doesn't show on the surface, just as you can always move forward with a humble heart and a grateful heart, that's how heaven will be remembered. Self-care is my relationship with Heaven. Selfishness should not become arrogance, selfishness should become more sacrificial and drive to practice true love. The more you serve, the more you will gain wisdom and ability and good heart.

Are you happy, grateful, or satisfied in this academy life? When I look back on my academy life in the coming days, I hope that period will be a valuable period that I can pass on to my descendants firmly. In academy life, the more inadequate you feel, the more it complements and learns. When you run into the wall of insufficiency, just cross it. And by repenting, giving thanks, and taking hold of heaven again in prayer, it grows by repenting. We are those in providence, a community that produces providence with Holy Mother Han. So as Tenshin Spiritual Academy, do not forget Tenshin and always seek Tenshin. Even though we can't see your struggles and sacrifices, Heaven sees. Your efforts will remain a light for generations to come. So don't be disheartened because you can't see the results of your diligence. Being invisible is precious. Where no one understands, true love is the sacrifice, and in all things heaven will be done with you, jumping over your shame and insufficiency, and praising and serving for the food. So remembering the fact, happy, grateful, and happy to go through this period. I hope you finish well with the heavens center. Endings are just another beginning, and beginnings are also taking the first step towards growth, so I wish you all to start with the first button and hold on to the last button. "\

When you hear the word academy, Socrates comes down saying, "Even though I am the master, you have to say a word."

Message from Socrates

"Heartfelt congratulations on the completion of the academy. Half a year is short in human life, but we must live with what we learned during that period. From now on, every time the wall is blocked, I hope that I will continue to center the feelings of Heavenly Parents without stopping. We must continue the spiritual mobilization and prayer methods we learned here even when we return home. If you don't work hard for two days a day or two, communication becomes impossible soon. Once you have faith you must continue to finish. We must keep moving forward until the time our Heavenly Father's dream comes true on earth. "

Letter from Xinjiang Shokkuchi, who participated in the 40th sh

In June of last year, I fell from a ladder and broke three parts of my vertebrae, and in July I'll have full body anesthesia surgery. At the church, they immediately prayed together, and the eldest daughter of Korea dismissed the central spirit, and his wife applied for the devotion book and medical angel, and did all she could. As a result, a comeback that was said to take more than a year will be possible in three months. When the anesthesia was cleared, I suffered deathly pain, but when I prayed a prayer of thanks, I felt my heart relieved and my heart was released. His personality has changed, and for the first time he can have confidence in the activities of the Messiah clan.

Letter 2 (Second Korean Family Food)

Since day to day, he felt the desire to die, and participated in the central spirit. A Korean soldier who had been stabbed with a spear after receiving five handles, felt the pain of a spear, and fell into tears, resonating the pain of the person. Until now I thought that evil spirits must be cast out of my body, but

now I want to forgive, love and help. The feeling of dying disappeared cleanly, so I'm convinced that the central spirits have been released.

Letter 3 (74 year old food)

My eyes couldn't see well and my hand movements were weird, so when I did some tests they found a 25mm tumor on my brain pituitary gland. A rare condition that involves the lives of 3 in 100,000 people, has resulted in dangerous surgery. The couple devoted their devotion and devotion to the centre of Chushokencho, and they were able to return to work after successfully completing the operation by a brilliant doctor.

Today was "Verses 7/8" Heaven and Earth Parents Celestial Sabbatical Day. I hope that I will become a shiko miko who searches for my personal resting area to my parents and parents of the true people of heaven and earth. Moreover, search for a home-like resting area, and find a resting area where true parents can rest across the clans and ethnic groups. The first country to look for is Korea, my father's country, Japan, and my eldest son's country, America. We have to stand up after this trial, pray harder, and evangelize so that God Korea Kami Japan can rest eternally in heaven and earth. Today, I pray that this place will be a prayer meeting for surprising favors and blessings that will start newly towards the Celestial Sabbatical Area.
