The 1448th Tianxin Garden is sincere all night

Summary

Today, songs composed by the trainees with the aid of the spirit world were introduced. Influenced by the words of the Prophet Radebe, this song was made with a tragic determination, with the desire of the underworld and the spirit world who passionately stand up for their mother and testify to Holy Mother Han before the world.

Message from the president of the church praying in front of the detention center on the 73rd day

Church president Song In-young: "Even with the cold and severe cold weather, the special elaboration dedicated to the true mother's communion, health, and bail request granted and complete release will never waver in the Indian spirit, and on this night we will also be one with Tenshin-sai and offer our elaboration like war."

Church president Yong Ji-hong: "Even in the cold climate, I hope that all my sincerity will pass to heaven, and that my wishes will be fulfilled." Please let your mother be released on bail

tomorrow and tonight be her last night in jail. Let the throne of heaven be a prayer that moves, as we look to him who walks beyond the dust. "

It was reported by Mr. Fumihiko that 'even in a difficult environment, your mother looks like a calm sea without a single wave.' Holy Mother Han is showing us. No matter what trials and adversities come our way, we must keep moving forward as a calm sea with determination and determination within ourselves as a child like our mother.

Proof of a trainee: He is a person who deeply inspects his inner self, and he thought that he could die without finding a reason to live, but he was afraid to live without dying. I felt the love of my mother who asked me with tears throughout the training session. The process of working hard for my mother and sorting out my difficult problems was hard, but I knew it was a gift from my heavenly father who wanted me to grow up, and I was happy to keep going. I realized the true meaning of the phrase, "Even if you just live in a life of talking, you can save." I realized that I was born in the blessings of my true father and mother and living my life for my mother was the reason I was born. Mouru means practicing what true parents wish for and offering joy, and being able to make faith determination and determination to let them know the truth and spread the love that your mother gave to the whole world. She was born as a completely new person, considering her mother's feelings.

Today's special lecture by Chief Ameji, "The True Mother's Way of the Cross for Heavenly Vision" was specially exposed to what was originally conducted in graduate school. Believing mother's way of the cross for heavenly vision will surely bear fruit in victory. I wish that this would be a time of prayer to move the throne of heaven so that there might be an officer for your mother to be released.
