Opening Prayer Of Gratitude

True Father proclaimed that the 21st century is an age of Spirit and Mind, not one in which material things run rampant. We sincerely thank You for the grace of guiding us to this Place, Cheon Shim Won, the H Providence and Office where You and True Father live and work even now...

Today, we bow down before You in this Place, with a piercing longing in our hearts for Mother, and a deep sense of remorse. Beloved HMH, our True Mother, as You look upon those who neither know nor understanding the Life Course and Holy Works of True Parents, but instead misunderstand and mock You, how Your Heart must ache. We who know the Providence and the Life of You, True Parents, will not be shaken. Yet, when we think of Mother's Life of toil and tears, offered solely for Heaven and for the salvation of humankind, our hearts are torn apart and there's no way to hold back the tears that flow.

Nevertheless, as children that resemble our True Parents, we continue today to hold hope for the future, offering gratitude as we gather in unity at Cheon Shim Won to pray. As we envision the hopeful moment that is not far in the future, we strive to stack the tower of devotion even higher, so that the blood, sweat and tears shed by our True Parents throughout the entire cosmos, may not be in vein; so that the labor and sacrifice of our elder members may not be in vein, we will advance forward strong and courageous. We will never be shaken or change.

Through Cheon Shim Won devotion, we will drive the roots of our faith ever deeper. At this hour, True Father, Who is Living and Working amongst us, on this night, please work so that the flames of this vigil

devotion burning at Cheon Shim Won is spread throughout the world and may burn away the barriers of false darkness and may bring about the complete oneness with the OBD, the Substantial Holy Spirit, True Mother. Please work through us through devotion with the heart of Hyo Jeong. Please protect and strengthen True Mother's sacred Body. And may our earnest prayer reach Heaven, stir winds to bring about fortune and hasten the springtime of the Providence.

We firmly resolve that all of us through Cheon Shim Won prayer, armed with Spirit and Truth will become the children through which True Father can continually work. Please joyfully receive the devotion we offer today. And we earnestly and desperately pray and hope that it may become comfort and strength for True Mother Who has endured such difficult day today. Offering all these words, with gratitude attending HMM

HJ Testimony

Aizama Morimichimori

Spiritual Academy trainee

served in the Overseas Volunteer Corps in Central and South America, departing in April and carried out activities for a short time in Jardim, Brazil and then passed through Paraguay, Argentina and Uruguay before returning to Korea.

One year ago, I completed the 13th Spirituality Workshop. After graduating from Sun Moon University, I still did not have firm conviction regarding True Parents, and to find the faith that was truly my own, I entered the spirituality Workshop, with recommendation of nearby public mission workers. For me, it was a training to be able to offer devotion even in the midst of any trial, but as my personal problems began to increase after the Workshop and burdened, and coordinators told me I should go to Cheon Shim Won and pray and offer devotion. wanting to become one with True Mother. I went to try to forget my personal problems and one week before completely the Spirituality Workshop, I saw the recruitment posted, and became interested in missionary work, something never interested in before, influenced greatly by a single remark from True Parents, "Filial devotion is something you do while your Parents are still alive."

During this Golden Age, I wanted to say that I had done something, anything, as an act of filial devotion for True Mother, so I resolved to commit to the 18 months, and amazingly all the problems I had were dissolved, allowing me to depart. We determined to attend the staff at Jardim Training Center and spent the time striving for the spiritual development of South American members. I too, as a part of the devotion team, offered much devotion and learned many different things.

After completing two spirituality WSs, we moved to Paraguay HQ Church and began our activities in earnest, realizing most things through witnessing activities. I had been arrogant and caused many inconveniences to my team members. If there had not been even one team member who stayed by my side when my heart was unable, and I could not control my emotions, I cannot even imagine how I would

have gotten through this period. By overcoming many conflicts and difficulties around me, I was able to meet 3 spiritual children.

I believe that all of this is the work of Heavenly Parent. Among them, through the first spiritual child I met, Heavenly Parent taught so much and one moment, despite language differences, the heart of Heavenly Parent that grieves while looking at His lost children welled in me and every work that child spoke felt as though it was piercing my heart... feeling the Heart of Heavenly Parent Who cannot love the children as much as Heavenly Parent wants...

The local members where we went explained to us how True Parents had visited those sites, and visiting those places in person moved me deeply. In particular was the Jose Ignasi in Paraguay where True Parents offered devotion through fishing, and I could feel the devotion True Parents accumulated. I realized that True Parents walked through every corner of the world, leaving love behind wherever They went. Until then, whenever I listened to HyoJN's song, 'We Will Plant Love in the World', I resolved that we should convey the love of True Parents. But only later did I realize it had been True Parents who had been planting the love.

With traces of that love, I began to realize how ignorant and arrogant I had become, mistakenly thinking of myself as having endured great hardships. Walking the path that True Parents had Walked before me, a deep sense of reverence grew in me, and it took root through the spirituality and academy WSs, and I will continue to live as a filial child when returning to Japan.

gratitude to Kim san Inam and team members who did not give up on me and to all others and Heavenly Parent and True Parents...

Japanese Workshop trainees

'Running Heart'

Testimony

Ioji Tomika

I completed the 80th Spirituality Workshop and serving in the Academy... I was active in Central and South America... I had previously gone to a short-term mission to US last year... and I received a feeling for the area and applied without hesitation and during that time I learned and felt many things, even if only a little the Heart of Parents and we carried out our activities and witnessing, feeling Parents' Heart desperate to save their children, and the persons had a painful background and described their life as hopeless, many great difficulties in their families and could not maintain.

A hope arose in me for these people to receive the Blessing and be happy, and teach them all the way to that end... I remembered how I was feeling only duty to move toward the Blessing, but realized it is the path to genuine happiness Heavenly Parent wanted for us. My dream became aligned, and I heard news about Mother for the first time, and I felt so powerless that all I could do was devotion and had frustration

with myself and wanted to go to Korea immediately, but also that there must be a reason we were sent at such a time, and perhaps Father from the opposite side of the globe wanted to offer devotion so far away... and the words of True Mother to offer devotion for us and our Unification family and that the Will of Heavenly Parent be fulfilled and BFs I love you.'

So, I felt the reason I was doing the activities was for Mother, and as our team traveled through the three countries, a total of 8 filled out the application and 10 more are keeping contact with us and I will continue devotion for them. I realized that gratitude in any circumstance is so important... I felt inadequate to be given the role of captain and my uneasiness did not disappear and I began to demand many things from my team members and I was constantly sensitive and angry, even though I knew that a captain's role is to embrace and love the members... Then True Father's Word caught my attention, 'If you give gratitude in any situation, that alone is restoration of heaven and earth' I realized that was what I lacked most, and in that moment my heart became lighter and it felt as though a warmth flowed into me, filling me with an inexplicable sense of happiness.

Until then, I had been filled with feeling oppressed and exhausted, but through F's Words, I gained the strength to do my best within the circumstances given, and I could feel my body lighter. I sincerely thank Heavenly Parent and True Parents for giving me the precious realization. Now, already 1 year and 5 months since entering the Academy... and I remember the overwhelming moments and the only reason I could endure was for motive to be a strength for Mother... I want to offer all to Mother... I will continue to do my utmost for Mother... Heavenly Parent and True Parents TY and I love You.

'Let Us Go Back to True Parents'

HJ Report on 17th Spirituality Workshop

Cheon Shim Won Coordinator Demidri Yong

It's been a while, since report about the 5th Spirituality Workshop... I'm sure many of you already saw me through the screen.

As an academy trainee and working as staff and coordinator of the Cheon Shim Won Team and greetings again...

video

This video is morning devotion that the Workshop offered day and night, and whenever there is a court appearance, they offer devotion of earnest heart. I'm sure many have spent the day very hard and True Mother, through the hours and hours of attending the court is enduring the hardship and I hope this report will also be devotion for comfort to members as well as True Mother...

We must raise leaders who can take responsibility and be successors of Cheon Shim Won, in particular

who know how to read the Heart of True Mother and be a protective fence to establish 3 generations... When advancing toward a priestly system, Cheon Shim Won exists to raise people to hear the Voice of Heaven and convey the Heart of Heaven. No one can come in Will Power immaturity. One must advance with the SW and PW completely united.

True Mother also said that She had to find the needle as She offered a letter to True Father. Then what is that needle? Only after ten years in audience with a spirituality Workshop trainees, She said it is a child who can become one with the OBD. And as the needles gathered one by one, a total of 1,883 graduates from the first to the eighteenth Workshop. And by the next 18th, we will exceed more than 2,000 graduates.

The 17th Workshop was especially launched on the foundation of devotion. On the 40th day of True Mother's detention, this Workshop began. So, inheriting the cross that True Parents walked and the devotion laid before including the 4th Attendance Workshop, so with the number 21 and 40, we were able to begin both WSs.

This photo is of a rainbow in the Autumn GWs and one coordinator said he found something else in the picture. At the center it looks as if True Father is smiling, responding to devotion of members around the world, appearing through this... and Hoon Sook nim shared that, on the foundation of pure water, the rainbow is shown, and we feel True Father with us and even today as rain and snow came that HyoJN and HeungJN are with us and if you believe it why don't we offer applause of gratitude

highlight video

True Mother: "Thank you. Let's bravely lead the way, restoring the nation and the world, saving the 8 billion people of the world with the Spirit and Truth... Yes, I will love the 1st, 2nd, 3rd and 4th generation forever.

About half of the trainees caught the flu. So, many hard days, but after the graduation ceremony, they said they should resolve to live for and do for True Parents, which was the change in them. And this was brought by somehow understanding what they could not before because they accepted it through their heart... and offered devotion even on the weekends, intensively prayer and instead of for themselves, their problems, for True Mother, and then were able to resolve the problems they had faced personally.

testimonies... Cheonshim resonance HD time, not just reading but with Heavenly Parent and True Parents's Words reading every word with heart, based on trying to understand True Parents to find these words. This is no longer words on the page but the heart of True Parents, the trainees who used to read quietly, read as if proclaiming as True Parents proclaimed loudly at events...

deep longing coming alive, reading Parents' Word with Heart, it filled her heart and now resolved for 430 liberation and Blessing... applause

only now how to truly practice HD and realizing Heavenly Parent has the sorrow we must feel to liberate...

most important program of the Workshop and as coordinators were guiding, somehow True Father knew we were trying to educate them ourselves and said, 'If you bring people, I will educate them. You're not the one who is educating them.' Trainees able to attend the vigil as they took the leading role.

One question we asked the parents was, 'How were you able to send your child to Workshop?' The child

would play games at the back, but his parents offered vigil devotion and SW worked. Each time he shouted out with heart of commanding the SW, became a source of gratitude despite my inadequacy... He didn't have enthusiasm or definite purpose for his life... After attending this Workshop, he contacted me and said he would attend the next one. Please have interest for him to succeed.

When you pass by the small hall of the Main Hall, you can hear the earnest prayer and when I have difficult days, somehow my steps lead to the small hall hearing them pray and I sense that these trainees sound like babies looking for their Mother desperately and now trainees have grown up very well as well as able to understand about True Parents more...

This trainee of painful past, bullied by 2nd gen and in the marines and joined with a sense of fear but through Cheon Shim Won resonance prayer and practice, began to experience love of community and change began with faith and working together... He will join UPA and is planning to work as a leader... applause of encouragement

video

repenting, praying so deeply at the podium (a leader) no word translation just can't help be moved by such repentance... and all join his prayer... and resolve... (which was the last session, a benediction Wang Yang Won Korean manager... offering devotion and calling out for True Mother and realizing their own inadequacies and how to be of help to True Mother, always worrying about that. True Mother enduring more than themselves, and I should change and stand up and testify and bring comfort to True Mother, and they are changing with that resolve.

I hope you gain comfort and hope through seeing our 2nd gen changing and move together as one. Because our hearts are opening, True Parents began to come in with love and no matter the trainees heard the same lectures before, it is a different experience... Kim Dong Un... I Gi Shik, many lecturers have come, and we were able to bring elder members and inherit their heart... Our generation that did not meet True Father, and may not know except from these members' testimonies, receiving a lot of love of True Parents and through this many changed...

one trainee came to me and said, 'Coordinator, I think I should quit this Workshop' So, I was taken aback and took him to hear his story, and as I listened, I realized that he should not have been in the spirituality Workshop because he is in an environment where he cannot live a life of faith even he wanted to. The parents said they offered 5,000 calling out and HD...HJ offering papers and on that foundation, he could join and then he said, 'I began to feel not only greatness to True Parents but that my parents had endured not just for True Parents and the church but for the sake of our own family and as he concluded, I told him, 'Don't you think you should come back to spirituality Workshop again?' And he said maybe and I'm certain he will come back.

When you join spirituality Workshop, there are trainees who are difficult who speak words not their own but of spiritual beings and then we bring them to the special prayer room and do for the separation of dark spirits whether it's 4 or 5am and these experiences are a real difference... caring for these with spiritual problems and kept saying in my heart, 'You're a precious child of Heavenly Parent and of HMM True Parents' This was because nothing else I could do. But, because all of us are children of Heavenly Parent, there was no fear or distrust. I believed that things could surely be resolved and tried to love and care for them...

And whenever coordinators faced spiritual problem trainees, they stayed with them all the time and it was the area in which the coordinators themselves grew... applause of encouragement...

Bit by bit trainees started to change, and made a voluntary chance for them to give a speech... "I who had been afraid to reveal my faith before the world took on the great challenge by volunteering for the Peace Speech' By conveying the accomplishments of True Parents, I gained courage and conviction, and I felt that when one testifies sincerely, it is possible to go beyond prejudice. Through this experience, I came to understand the meaning of FF and our family, and resolve to testify proudly in the future.' She then resolved to stay in the academy and move forward. applause

Prophet Radebe at 1,420th vigil, 'Mother was concerned about Korea and Republic of Korea, and if you are not burning for Mother, we will take Her to Africa. Stand up and fight and shout and show it to True Mother and be on fire, overflowing with fervor. Mother will come out soon, and then great things will happen...' All upon hearing this, a song was made, 'The Purple Lantern'... My Mother, our Mother is confined in a cell unjustly and now is the time to testify to the world.

All the testimonies say they will go out to the world and with one heart and one will, truth will absolutely be revealed... applause of gratitude to True Parents.

video

What do you think about Mother's Heart... This is a letter to True Mother... I always feel the Heart that She embraced all of us with Her love and tears...

After True Father ascended True Mother walked this hard path and so aching my heart how much pain True Mother was feeling

Even if we are inadequate, we must think how we can grow and live day by day with humble heart and make victory and that is what True Mother wants from us

To all those people of the court, True Mother's Heart is not to win the court, but looking at all from the Parent view... and I believe that is our Mother...

Mother thank you for brining me up to here. You were searching for a needle I am certain is me, to testify and I have just lived comfortably but now I will be responsible after what True Mother wants just as She lives... Mother please stay strong a bit longer...

Mother I love You, from now on we will love You more and make our dream as Yours and be filial and make You happy, so please live a little longer... I hope that you can see the Heaven on earth and we will attend you and move forward...

Right now many are receiving healing in this TC with their heart not just their body, but True Mother Your Body is in pain and I couldn't do anything and I feel very sorry... tomorrow I am going out as Top Gun and inadequate but thank for always saying TY to us and I am here to sacrifice my life for You so please come back to Cheonjeong Gung so You can be healed.

Trainees came to find their own Mother who they couldn't find in search around the world... Every day of my life has not been aligned with True Mother and She lived a day like a thousand years and trainees could realize and change... and even now there are many trainees True Mother is yearning to see and for one more, I hope I can be of help to make that day sooner, so brothers and sisters, although every day may be hard, one by one trainees are becoming the seed of the world planted by True Mother...

True Father's Words: at the graduation ceremony... If you carefully consider the Words of True Mother and advance by True Mother in your respective positions, True Mother will return and first wish to see the future generations, inheritors who advance with True Mother... She is the Mother Who both worries that you will be gone away with the hardships but at the same time believes in you. If you advance with the same heart as the unchanging Parents, you will grow stronger and develop day by day.

On every path that you walk from now on for Mother, I will be with you. So, do not worry but advance forward. I will always be with you." And of course, these words are not just for the spiritual Workshop but also I believe they are for all who offer prayer and devotion tonight at the vigil... applause to True Father with gratitude and appreciation...

Now, next is the 18th spirituality Workshop beginning this Saturday... and we will extend registration until Friday, so not to hesitate to join... that True Mother can come back victoriously...

Break

MODU couple perform

(so great to hear and watch them)

Hoon Dok Hae

The 21st Century is an age of spirit and mind, not one in which material things run rampant. Generally speaking, those who are spiritually sensitive may be great spirituality but they are not great in terms of truth. At first they may be great, but they cannot last internally without truth, without being tumbled down at some point and the spirit cannot last internally either. These must be brought into balance and harmony is achieved.

(Human will power cannot advance accept by maturing with Spirit and Truth harmonized SW and PW)

Human beings must regulate the spiritual world and physical world, standing at the center of the SW and also at the center of the world of Truth, becoming human beings who can bring adjustment. Without becoming such a person, one cannot reach a position of perfection.

The fact that Apostle Paul saw and experienced the Third Heaven of the Spirit World became the driving force that enabled him to carry out missionary activities steadily for 14 years. Such experiences are necessary. The Master is the same, having a standard that He has for what He hopes for. Although He has not spoken it to you, there is the straight route within Him that says, 'This is how it will be.' With this conviction, He will push forward until the end. As long as this conviction is not broken or crushed, no matter what trials or storms strike, He will continue to press forward.

The new age of the 21st Century is an age of righteousness, and age of spirit and mind, not one in which material things run rampantly, an age where people live to become one with God, realizing that living for the sake of others has more internal value than ones' self, an age in which self-centeredness fades away

and altruism, mutual prosperity and righteousness finally raises the song of triumph.

Cheonshim Choir

'Mother's Request

Pres. Lee Gi-seong's Message

The Main Hall system is being repaired and by Friday can hold Cheon Shim Won at the Palace's Main Hall... True Mother told us despite this, that the technology of the TC should always be updated, so we should create the environment for our True Mother and fulfill Her Words.

18 people began devotion in relay at times but in 2020 1st day in June, True Mother said to offer as if at war and we began counting every vigil and accumulated, so beginning may be small, but the end glorious and we are truly fulfilling those words... and only with a few people, we had echoes a lot and decided to have a sound-proof system here but it's very costly and with a lot of people, it is a natural sound-proof system... so with prayer here, people receiving dreams and visions that we will be holding vigil even at the World Center and one by one that was fulfilled, and we can feel that Heavenly Parent and True Father and True Mother are with us, and those trainees who had spiritual problems, just by looking at coordinators how they are resolving spiritual problems, how are Heavenly Parent and True Parents with us...

Even if you are offering devotion when no one is coming, that devotion will become multiplied greater, so please put all your devotion at this time to divide good and evil and bring the greatest harvest and our true faith will be recognized... being beat up, but the more we are struck and stay together, we will be stronger, because we are true and all the AGSs are with us working and countless leaders came to our events to give their remarks and now that I see, I realize there are many who left and I realize they are not the true, righteous people and through this time we can separate those who supported True Mother and based on their action, they will be paid back, and some will be so ashamed how some sold out to the media and all coming out is what judgment can be based upon...

In this Golden Age, prayer will have response quicker and Heaven's power will come, so pile up your faith after faith to move forward and many dormant will build their life of faith and what Heaven truly wants from us is sincere prayer and life of faith and make sincere proclamation and engrave that in our heart and make greater strength and courage to move forward...

This vigil 41,000 are gathered...

86 days of True Mother's detention and message came of the locations and churches from which core members came... total of more than 120 offering vigil connected with the HQ TC... looking at the essence of a life of faith through the harsh trial, our faith will shine gloriously and H's Will will shine brightly as Truth to this world. At this time, let us offer prayer in an awakened state and we will offer perfect devotion. (end of message)

numbers... of trainees in various workshop and who went abroad... more than 2,000 total with 18th spirituality Workshop..

testimony... graduated spirituality Workshop... 'filial while Parents are still alive...'... witnessed to 3 people and able to feel Heavenly Parent's Heart of losing and desperately wanting to find children...

they in South America went fishing but no one caught a fish so turned it into a sports event... but if not witnessing, will not be able to feel the heart of the Parent...

testimony... realizing Heart able to have 8 children and ten more in the works... and her own personal realization about most important is to keep gratitude... offering prayer and praise and I'm certain H's Will will come down... another shared his promise and didn't go home but stayed as a volunteer and at times would just sit and play guitar and we decided to create an academy to offer prayer and devotion... and SW sent us the message that they will guide these volunteers by themselves, even Socrates to mobilize and educate spiritual academy trainees, and amazing spiritual growth has been achieved, and even the power of lecturing and leading people... and he worked as a mechanical engineer but realized this is the path he must walk... before spiritual Workshop, he didn't listen to his parents and cried so hard in repentance, and met his very beautiful wife who leads prayer strongly at times... and she is also spiritual academy, so such 2nd gen exists now and that is why we have hope... and his voice has changed... and even Christians say, based on the voice, the spiritual realm is different and their spiritual realm is changed and they can mobilized the SW.

If we have more than 1,000 youth at GWs the automatic system will work... and we should have assembly and these young people's devotion really awakens other young members who are changing to go out and shout... Spiritual Workshop is truly a gift from Heaven... usually old people gathered, but now young gathering... making the environment for all of us... and as young people become the teachers, they teach resonance and proclamation HD... just like True Father led victory over communism, they shouted and are using the entire body and soul resonated with True Father and the spiritual cells resonate and make a new spiritual realm to read HD...

the book, 'I am a Proud Korean' and there were a lot of young teenagers who shout out to read that book and cried as they did it and we must do HD like that, not just reading quietly, sometimes we must proclaim and resonate and your heart can be elevated with abundant grace, falling into the river of grace and amazing works can unfold, and truly amazing good people are working at the TC, working so hard at a professional level, such skill developed for Cheonshim Won Weekly and all areas... and more effort now to realize masterpieces...

And our elders who worked for True Parents for years, we are calling them to give testimony. And at the Seonghwa Ceremony, we play the words they spoke while alive, and if we don't feel grace through that, not many will be able to attend, but I'm sure many leaders will show grace... Why don't we gather them here now... Kim dong won? I'm sure he will leave abundant grace forever and be remembered... I hope elders can pass down your faith the 2nd and 3rd generation to realize the precious life they lived...

And 2nd gen have shared the precious letter... Why haven't I come before, with tears, pounding the ground, they offer prayer of tears, intensive prayer weekends when we don't have vigil also, and when you have time, why don't you come and see... their desperation... and years later when more and more praise True Parents all who live in this time will be judged, 'What did you do when True Parents were here?' throughout all the nations, national leaders were selected by Heaven, even you don't know that.

If we knew how great, we would have attended with such a sincere heart and True Mother establishing

Cheon jeong Gung... a Palace for Heavenly Parent, you cannot return that time, however now our True Parents, the Emperor of Holiness are attending such Parents and can eventually mobilize the SW and can show how much the living Heavenly Parent is with True Parents. This is what True Parents want and to make that happen bigger and greater.

Prophet Radebe has come and many others and SW is working through them and we must bring all those righteous people and even we did not request, there are people rising up to testify to True Parents... and we must offer prayer and devotion earnestly...

Do not fall apart but move forward with Spirit and Truth... those without experience will fall apart... Saint Paul for 14 years endured... The Master will push forward to the end no matter what trials or storms...

With this Cheon Shim Won devotion, we must press forward, and True Father will come and share His Words, and HyoJN came down and said, we need a chair for True Father and we were able to enshrine a chair for True Father... So, when you wake up tomorrow, even if we face shocking news, do not be broken or crushed and be able to come down to your descendants by casting off any cloud... Even Peter fell apart, but Jesus did not let his conviction be broken, and He made victory and 3 days after crucifixion appeared to his disciples shedding tears...

All the members ascended to SW already, if we become one with them, victory can come... If you are lacking, please write a HJ offering paper... You heard the testimony of ancestor following him and saying, 'Please write a HJ paper for me'... and many have bi-polar and are shouting not of their own accord and even killing their own parents, listening to the sound of evil... and now is the time we must press forward with our conviction and the 21st Century is the Age of Righteousness, not when things run rampant... but because we couldn't go out and work, if it is still a materialist world, it will fall, but this is for living for others to find the more value and the altruism and mutual co-prosperity and righteousness is the dawning 21st Century... and fulfilling these words must be centering on True Mother and accomplish unity with God...

We must pledge and those not living for sake of others are not alive with the original lineage but of Satan, just like Cain killed his brother Abel, and now is battle and connected to true lineage must live for the family, family for nation, nation for world of Heaven...

Our sister shared that she has been working for the academy for 1 year and 5 months... What would True Mother say? 'You are the needy I have been looking for, my direct children' Their blood is alive with True Mother, when True Mother is happy, they are happy. Let us cast off anything in the way of diving into True Mother's Womb and become direct children of True Mother and I hope you make this time such time.

Calling out / Fight Song

Chanting

Prayer and Praise

We confess that we are on the foundation of prayer and devotion sacrifice but we realize we have not been offering true prayer and devotion that we need to become one by... Through Cheon Shim Won we can feel and become true prayers and offerings of devotion... Only now do we understand You admonition to pray for the Unification Family and Will of Heaven... not simply out of love to embrace us but Mother You were expressing the Heart of a Parent, 'I will carry everything Myself, so go out and proclaim and push forward to the very end.'

True Parents have lived according to the Standard They proclaimed, but we have not lived according to our prayers. True Parents made Their very lives a true prayer... The place where we must truly repent is not this world, but seek forgiveness from True Parents of HEH, so please forgive us... Only when we truly change will Mother's return be hastened, able to protect True Mother's Sacred Body...

The BF's being truly one with HMM, can we protect the Body and Dignity of HMM... Please work through us to guide and become one with HMM...

I Gwon U prays attending gratefully, HMM
