1,458th Cheon Shim Won

### Prepare Song

'Song of the Young People'

So-ri--chi-go il-la-na-ja

Dong-bang-eui bit-bal

### Bow and Pledge # 5 and 6

### Opening Prayer Of Gratitude

Today without fail we sincerely TY that Your children are able to make special devotion as we may not know how precious this time of devotion of all from around the world, and is such a comfort to us... to bring this day to close and welcome a new day and so that True Father Who so desperately longs to work, may work freely and HyoJN, HeungJN and Daemonim...

We long to connect to Mother's ambilocal cord and Heart. and If we can advance to the position of one heart, one thought, one body and one harmony, we believe that Heaven will work even more greatly... able to comfort Mother even more... Heavenly Parent please work through us to be the filial sons and daughters... Though we have no way to restrain our hearts, as we offer the 1,458th Cheon Shim Won and stack up the devotion for that comfort of Heavenly Parent and our Mother, Who has grown thin and we earnestly as that You protect Her Sacred Body... and extend Her to long life...

Yu Su Hun

### Chanyang

### Testimony

Takimoto Rihiko

Japanese Workshop trainee

youngest daughter of 4 siblings

I am participating in the 182nd 40-day Workshop for wives together with my mother.

From 3 years old my mother went through spiritual trials and she was spiritually heavy and many days had to lie down all day and she has an eye condition of intolerance with the light and she would be depressed. And I felt in conflict with my mother's words and actions. I felt as though she listened to what I said only half-heartedly, and no matter what I said, there were always more admonitions than praise, that made me dislike talking to her, but I did not want to see her cry and I spent many days in distress and not wanting to face her.

Then in 2022, after receiving the Blessing what was like my mother became like me too, and I felt myself demanding love from my husband and I thought it might be better for me to disappear and conflict never ceased with my parents and siblings and I lost the confidence in my own worth.

Early this year, I had the opportunity to go on a Cheonwon Gung pilgrimage. While gazing at the portrait of True Mother, the message, 'If you become one with Me, you can overcome anything. Come and receive the spirituality Workshop.' Because of that I participated. The moment that moved me most was devotional bows. Why am I unable to see my mother smile... and wanting to see her smile and healthy and tears overflowed, realized what my original heart had truly been longing for.

At the same time, I felt that my mother's life course was so that I could meet True Mother and as a substitute for True Mother and that the one that loved her the most was Heavenly Parent and that Heavenly Parent had been watching over me and wished for my mother and me to receive 40-day and went to another 40-day.

I came to feel love for my mother growing and effort for how I could be in Heaven's Eyes and offered conditions for Holy Mother and finding more than ten things day to be grateful to resemble True Mother and trying to be part of the praise team... but still trials and thoughts of giving up devotion but... True Mother in order to save me, I thought how She went forward even when Her Body was so suffered.

As I sought Mother's Heart, I looked upon my mother with Heaven's Eyes and felt Heaven telling me, 'It is enough that you are here.' and 'You are doing well.' which made my heart feel warm. I realized that key is to look with Heaven's Eyes and to be here with the abundant grace and gratitude to all and my husband who waits for me at home... Heavenly Parent and True Parents, I love You...

### Testimony

Cheonshim Spiritual Academy

Kim Ja Gyeong

I am the third daughter of 3 daughters. I was dispatched as a member of the 6th Spiritual Academy and served as coordinator for the 14th Spirituality Workshop and participated last month in the third H America Overseas Volunteer Corps... to go not easy fearing I might be leaving behind a focus on Providence so uncertain... but first day of the Workshop, True Mother said She wanted to meet us and appeared wearing a beautiful crimson clothes and said that She wanted to meet us so that the Providence could proceed with us quickly and the song 'Running Endlessly' passed through my mind and even if I am no longer seen, I will forever be held in Mother's Arms and Heart, and I discovered my original heart that wanted to remain in Korea and see Mother one more time. I determined to serve in America to save it for the sake of Korea.

As the captain of the praise team, I met more pure water members and spent a blazing summer of spirituality Workshop, praying and laughing together with them and the trainees as we experienced and empathized with the Heart of True Mother and we devoted to street witnessing after the Workshop at the university.

One day we received the news of Mother's detainment and I cried as if the nation had collapsed but continued although feeling to collapse and so difficult to remain calm and composed, but hearing Mother most wanted witnessing... and realized I had not properly understood Mother's Heart but all of us invested and were able to achieve the result of inviting 36 guests.

After returning to Korea's feeling H's guidance and with the time closing, I had interest to attend the Attendance Workshop needing to know what it is in this time and in the position of captain for the first time, though feeling overwhelming at times, 7 coordinators were together with me, and thought of it as a practice of longing like True Parents' longing for Heavenly Parent and I wanted to always long for Parents, and conscious of HyoJN and HeungJN and Daemo nim and wanted to convey especially Daemo nim and how she wore the clothes in rest time always ready to go when called to True Parents...

The members who directly attended True Parents and through the history of elder members, each episode of absolute obedience before the Will touched my heart, and how members meeting True Parents only one time, practiced the best attendance afterward. And each one in each family, like my family also, how my mother took all positions large and small and never neglected taking care of the family. I felt this was something that had been practiced around me, and immeasurable sense of respect grew in me... and how attendance is love, first considering what the other person desires.

It is then impossible to attend without love, and that this love originates from Mother's Heart, Mother Who ascends and masters all levels of love and is enveloping the entire cosmos and nurturing all of us and this Workshop trainees... At the end of the Workshop, I felt that I might not be able to practice as before and how much Heavenly Parent and True Parents did to raise one person like me, and now is the time to repay that effort, and as I realized the trainees difficulties, I wanted to overcome myself for them.

As one director said, I came to believe in myself as becoming a person who can also believe, attend and treasure oneself. Ultimately, attendance expanded into the practice of attending not only Heavenly Parent and True Parents and AGAs, but also all the people around me, myself and even all things.

Last week during the graduation ceremony, we had a time to see a video of the entire Workshop and the members shedding tears, and I thought to ask myself, 'Why couldn't I give more love to them.' Although I

stayed up late nights, sleeping only in brief naps, I compared to the practical work I had done, it was so insufficient, and now they had to go to pursue their dreams, and attendance is only possible when there is someone to attend, and True Mother came to mind, not to forget that attendance for Mother can only be offered when Mother is with us.

Although, the Workshop is at an end, I feel that our life of attendance is only now beginning, and the trainees who joyfully and purely devoted to service activities and offered devotions solely for Mother, and remembering the comrades who practiced with us, although the time lines are different, I will offer continuously... Heavenly Parent and True Parents, I love You...

HJ Report

Kim Ju Won

screen shows 'Moshim'

Before we begin, I wanted to show the intro video, but it didn't come out well...

60 days before the Entrance, their was attendance by cleaning and now trainees have graduated from the WSs and with resolve to be the pure waters of H children, many went to the Attendance Workshop, when entire SW will be mobilized and more than a billion people involved and True Parents giving the lecture and those who attend become the core pillars of the Workshop and then 43 with life-and-death determination...

The number 43 I believe has been made under the guidance of Heaven...

True Parents Words: Heaven is the Place where you boast about what you have prepared, boast about the life of attendance, and who go? Those who want to receive by believing in the Lord, those who put blessing fortune before anything else cannot go, only those who prepared heartistically cannot go. Even if one dies in the time of preparation and lives in joy can go there...

You must prepare to attend, not in preparing but attending. The internal life doesn't usually show, so how to live such a life is a serious question. I gave the testimony that when I was about to enter hell, the question came, 'When True Mother was crying with tears of Blood, before you entered SW, what did you do, how did you attend True Mother. I couldn't answer that question and repented with tears and begged that spirit to let me live to attend well and fulfill my responsibility to attend Mother and prayed like a crazy person and then came back to my body.

How 2nd and 3rd gen who left True Mother's side, I will restore them and younger siblings of True Parents's children back to Their Embrace, so that everyone can attend and ascend well to the SW and to Heaven. So, as I read this, I realized how important attendance Workshop is and needed. So the word 'moshim' is Korean and the definition itself is attendance but deeper into the Chinese character there is

longing and Mother, longing for Mother. These defining letters come naturally to the trainees heart as we move on with the Workshop.

testimonies were many but a few are: Attendance is good to be one with True Mother with the standard to go beyond yourself, beyond your thoughts and then Heaven will work... We will teach about the method and heart of attendance... The President who attended and elders use every day preciously and when would you come to this Workshop again...

HyoJN's Words: 'Why did we open this Attendance Workshop? To be honest, this Workshop should have been begun earlier and went in to a deeper lever, but we only began now. If you don't attend True Parents, think about what your life would be. You should not just think that you're cleaning Cheonwon Gung. The entire SW is focusing on Cheonwon Gung Entrance Ceremony.

True Parents Message: 'Please be with Mother, hold onto Mother's Hand and let us attend Mother, True Mother, HMH. I hope all of you become those who believe in devotion with unchanging heart. TY. I love you for being here with Us.'

We receive many other messages filled with grace. The different to the secular heart is whether there is attendance or not, and Heavenly Parent and True Parents are the King and Queen of the Attendance Workshop.

We will share grace message later. The difference between the general and spirituality and attendance Workshop, is there a difference in level? And as a habit, I asked True Father, 'Is it like leveling up from one to another' and True Father said that was right. From the secular world you are lower position and the more you attend, the more you offer devotion and acts of service and activities of service and the more then you offer prayer, so your spirituality may rise up but you action and activities be at a lower place from the secular point of view.

And I received a message from another member: I came back to church as I revived my heart. How should I live? How should I offer prayer and devotion in and from my home, how should I attend our members and leader of our church? That is right. Spirituality Workshop is very important and amazing, but with that revival of heart and focus on prayer and devotion only, one cannot harmonize with others.

So, through attendance Workshop, by living a humble life through acts of service and making that a habit, we can finally express that one has truly been reborn, and the graduates of spirituality, please attend I hope all of you become true pure waters through the Attendance Workshop. From the 1st to 3rd Attendance Workshop, when the Heavenly Parent and True Parents came down to directly govern through us, the AW was prepared for that, where they have to practice service and then can resonate with Heavenly Parent and True Parents Heart centering on True Parents Heart.

And especially at Gapyeong Station, for the freedom of religion, as our members joined the Peace Prayer gathering, there were many moving moments. And also we went to Hyojon jong and were able to resonate with HyoJN's Heart, offering prayer with tears, and were able to see HyoJN spiritually and receive enlightenment. There were many moments like that.

As our coordinators created programs on their own voluntarily, even they had not planned things, they received revelations from the SW and they made new programs, such work of Heaven unfolding for an amazing Workshop with Heaven. So I asked, 'Why have you come to this Workshop.'

testimony:... able to reflect my inadequacies and attend spiritually and learn the Life of resonating with

Heavenly Parent and True Parents...

another... I wanted to go beyond my habitual life of faith and raise it to know every moment is a desperate moment.

another... I was able to reflect myself falling back into fallen nature, and when I go back home, I want to live with the attitude centered on AFAL and AO

another: I want to grow up and go beyond my limit to attend Heavenly Parent and True Mother as a true child...

True Mother said that the more you feel inadequate, Heaven will come into that empty part and fill you up and work...

PL said, 'Our trainees, as they confess their inadequacies before Heaven and offer devotion with sincerity and to become one with True Mother, they have attended this Workshop

video

not attending with my heart and with Mother at the center, and thinking, 'Isn't this good enough' many times... so hadn't experienced Heavenly Parent and True Parents's Heart yet and I felt very sorrowful about it, even They called me here and feel bad for myself and my ancestors looking at me. I am grateful that I am here and have the body but have I changed is the question I am asking myself. We are lacking too much.

---

They have been offering devotion more desperately than me working here for 17 years and I make this confession before you. Truly the trainees offer a lot of devotion and I really respect them... We have morning Chanyang and during that time they come and offer before True Mother and not for themselves but True Mother and at night, and have changed bowing devotion to offer all day long, 120 and 430 bows... And my heart was saying, 'Oh this is good enough'...

On the day of True Mother's court trial from 9 to 8pm endlessly for 12 hours devotion without a rest and looking at them, I felt hope for the future and I felt if Mother was looking, She would shed tears.

testimony: My mother usually doesn't talk about her own circumstance, but she wanted to let everyone know about the miracle of vigil and more to come. And my father saw her testimony, and then more to understand my mother and my heart and offered devotion desperate prayer. Do not worry, from now I will make a happy family. You endured so much, but as a mother, you constantly show love to me very preciously and I'm grateful, and you offer devotion for True Father and by devotion of True Mother, I could come here and receive so much grace and rise again and go after the dormant member and be such a child.

The person who played the greatest role in opening my heart was my daughter. This trainee was from the same church as me and I know her family and truly she was living in the harsh environment, but offered devotion for her father and as mother and daughter could bring result of the father's change and the parents came to Workshop and the father became anew and wanted to see here again.

In the past, many parents tell their children to attend and afterward the children might say they will attend

church from time to time, but now they resolve to put Parents at the very center and do witnessing for even one more member with their all. Even a month ago, many trainees were complaining. But within 40 days or even a few days, such change and I wonder if others would even believe it what I'm amazed at myself, and the reason is that True Father and HyoJN are educating them from the SW.

Then how did they grow up, centering on spirit and truth, first spirit part, cheonshim resonance and reading True Parents Word with Heart, and True Parents have put so much into finding all the words, so trainees read with loud voice to open our hearts....

This was passed down by Oh Sun Sok and she bestowed this program and this is highest rating... Through True Parents Words people can be oved and changed, but we haven't been conveying that well.

testimony of one who read so passionately as if True Father is proclaiming with all His Body, and his nose started to bleed, but offered more tears and HD and everyone was moved during that time... You have heard, and I was able to feel we are at war...

How desperate and sorrowful True Parents felt and risked Their Lives to find these Words that have Their Heart and Heaven's Heart, and I shed tears not my own but Heaven's tears.

another, I had doubt if I would be able to read aloud well, but I was able to feel the sad and lonely Heart True Parents had and resonated with tears of both mind and body and how lightly I had thought about True Parents Word...

video

testimony: I really love elder's testimony who had the experience with True Parents we did not have... Attendance means love, and from the elders words, those words became my bone and flesh and I hope to attend True Mother one day.

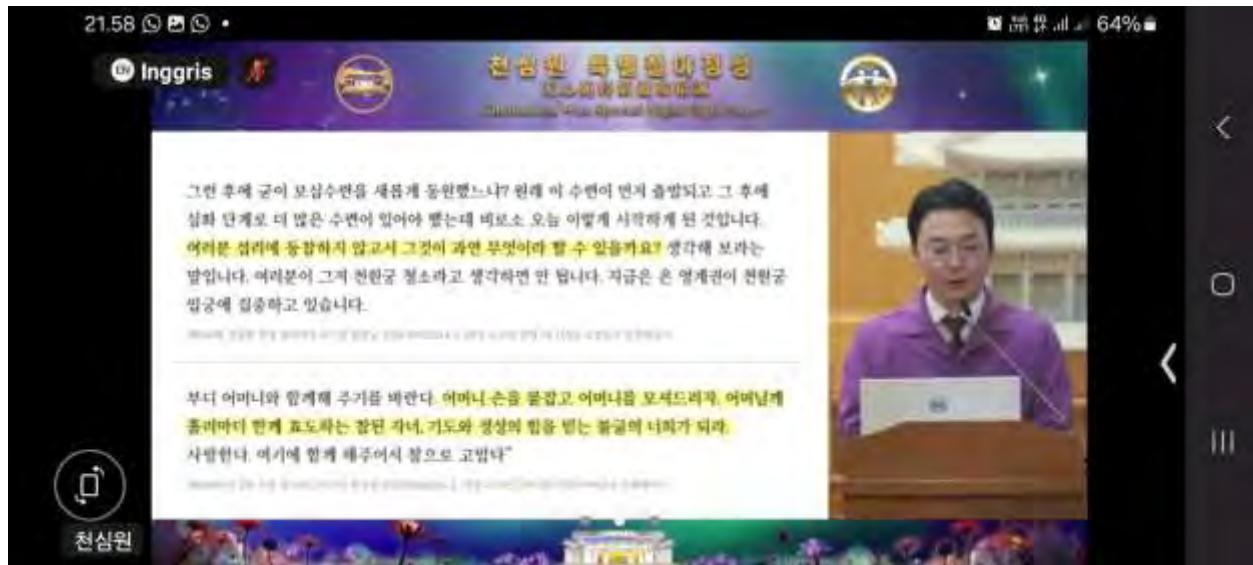

At HyoJN Jon, he offered devotion while creating 10,000 songs at HyoJN Jon, and he had visited there. And we were able to hold the filial piety mind Workshop. And the day before a lot of snow fell, and I even thought the Workshop would be cancelled, but they still said they will carry on with their plan. I said, 'How are you going to go?' And after vigil, they went out to clean the snow until 6am, and I said, 'Why are you making this dangerous way?' And they said, 'This is our passion.' And I repented thinking I should have cleaned the snow with them instead of complaining. And I felt embarrassed... And we were throwing snow at each other but making sure not to hurt each other with the strong snow, even hit, it was soft snow, so we could share our passion and heart...

There was a picture of HyoJN that has been changing and it came up and a wind blew and I remembered that HyoJN took a boat, and he hit my arm saying, 'Oh, you're working very hard.' And I was very surprised. And that came into my heart with the wind and my tears came. And we offered Chanyang praise prayer gathering, and all of the Workshop trainees were able to hold a barbecue party and the young people were able to revive with such grace-filled time.

testimony: I saw HyoJN standing in the center singing with us, and at the same time, HeungJN was embracing him with great love. As we ready True Mother's letter to HyoJN and sang, 'I Will Love You Forever', I was able to feel that HyoJN really wanted to call True Mother as Mom, and resonate with HyoJN's Heart desperately wanting to shout out, 'I love You True Mother', and I was able to feel to cooperate with HyoJN and HeungJN so that they can cooperate with True Mother. I will offer HJ Heart resembling the Heart True Mother is offering to Heavenly Parent, and resemble HMH.

And HyoJN was doing Oeg Monsei with us. And we went to pilgrimage... and also we went to Sonimbom as a special activity... and I'm sure you heard of the one, since 9 years old, he had entire body paralyzed and nothing to help, but at her mother's request she finally attending 40-day and more seriously the second week and she miraculously was able to move his body. Instead of healing the body, the goal changed to how to testify to HMH, quitting the job in the secular world and resolving to do something for True Mother.

testimony... body not moving well, but True Mother walking by Herself, but now I have others supporting me when I have a hard time. I told them I would never offer praise on the stage but had opportunity and now go up every time, and try best to overcome, and want to have a talk with True Mother heartistically...and whenever devotion comes, I think it is time for me to offer for True Mother and try my best...

When 9 years old entire body paralyzed and heart shaken but trying to make my heart stronger...

testimony... many times difficult for me to shout out during prayer... prayer can be the great limitation... but looking at those around me doing so well and compare in order to break through with all our heart and body...

To take the root out and break the big boulder, they put the prayer and overcame their limitation through more conditions/programs that they felt to make on their own experience.

They did picking up trash and made the speech and one reporter that was writing negative news was moved and started to write positive things about us, moving others with their speech and tears and they set a standard and made themselves grow up by fulfilling...

True Mother: Heaven has prepared righteous people wherever you go, so proclaim proudly who you are and who True Mother is, and dormant members have come back through that... Let Korea know they are chosen people and must attend Heaven...

Pastor Mark Burns said True Mother said to go out and proclaim boldly and tell others what this nation is doing to Me, and centering on this, we have gone out and practiced these words... Among many contents, the understanding of attendance has been raise, I believe and they changed to practice... I am looking forward to the growth.

to have respect to others and have the heart of Mother but they raised it to 24-7 having life of attendance and the answers that it is practice love Hyoshim and HJ... thinking what I am lacking and looking from perspective of Heavenly Parent and True Parents, thinking of others with the heart of making others joyful, longing heart, the attitude of eternal life

So we say we must have the moshim gi heart, and through practice, finding the path. And from 36 trainees, 19 resolved to go to public miss, 13 to go to Spiritual Academy, 1 to H Top Gun, 1 to be a volunteer at their church, general 40-day Workshop, witnessing and as part of N.A.B.I. team. And when I see these trainees, I feel like they are a task force of attendance, and took the photo 'Our attendance will never stop.' applause encouragement... like moshim avengers

For those graduates, please apply and become moshim avengers. And we will hold Workshop for teenagers, and I hope many join to open the era of teenagers.

---

**Break**

Busking

---

Heaven is the place of the life of attendance, not for those who put blessing first. Even those who die in the process can be joyful, having left behind a life of attendance.

Therein lies resurrection. After preparing, in order to attend, seeing how the purpose is for attendance. In order to live attendance, true love is not about being served, but about serving others.

When God first created the object of God's Love, God invested all of God's Energy namely for others instead of Self. In this way, God established the model for true love, the tradition of true love by completely exhausting self. Love is naturally the center of the universe. The life force that the Master and (True Mother) over the years have made is by attending the Call given by Heaven's Will and is the source of pride before all people of Korea and all people throughout the world, even it has been a thorny road beyond anything you could imagine.

In order to liberate all humankind from the world of sin and divide the Korean Peninsula, They shed BS and Ts while laying the foundation for the unification of Korea and places such as the United States, Soviet Union and Japan. Now, the time has come for all of those foundations to be firmly established and revealed for the nation.

The misunderstanding and persecution that we suffer from our own people in the Koreas of the same blood line, while laying this global foundation over the course of several decades, were truly unbearable and sorrowful. Not only the successive governments persecution of Master (Father) and the Unification Church Movement, but the slander of false accusations from some Christians were filled with extreme malice.

Even amidst such harsh and adverse conditions, by becoming completely one with God's Will and true love and enduring all difficulties, today the number of people around the world now in more than 160 nations will attend us as True Parents is steadily increasing. Aju

**Pres. Lee Gi-seong's Message:**

42,000 plus have gathered for devotion in one heart.

130 inside the tent and as True Mother manifested in front of humanity, Her Value and Her Truth will never disappear. Her Value and Her Dignity is giving influence throughout the entire cosmos. I truly hope that True Mother's health will be protected and that She will return to Cheon jeong Gung as a free Person.

That's our desperate prayer and although we are facing difficulties that trembles our entire body, the education and witnessing at each church site, to make the result amazing, we will offer prayer and devotion... applause of encouragement and gratitude

Today is the the birthday of Song Min Yong Pastor... applause

Song Myong Church, it is 900th vigil and to come to it, the path was not easy. Every day through the work of True Father and devotion of True Mother, we have offered devotion with tears and to keep going such day has come. Cheon Shim Won devotion, the more we offer, the more we feel our prayer here will absolutely be fulfilled.

We are grateful for our President Lee Gi-seong. You have always encouraged and shown love to us to support us and we want to offer gratitude to you for all your devotion, all the Cheon Shim Won devotion staff and team, gratitude and appreciation and we would like to challenge ourselves for new beginning having come to 900th vigil. Although we may not see practical results, we know that there are changes here and there in the church, so we will put more diligent devotion during this Golden Age when True Mother is enduring through the hardship to become the filial sons and daughters who fulfill our responsibility and for our Cheon Shim Won sons and daughter to fulfill as soon as possible, we will offer all our devotion. TY

All the members are like core members and have attended 40-day and 3-day and all have the Cheonshim robe and are an exemplary church in front of everyone.

Secretary I Bon Sok has shared a testimony to me on Dec. 8th in Halimony City where there was a strong level 6 earthquake, and it's a testimony of the church leader there. When we were offering Cheon Shim Won devotion 8. the quake happened... We had come to the 400th vigil, and it was right after and nearby places also, everything shook and our computer and TV and many things fell down and were broken, but the 8 candles that we lit up, none of them fell down, and our church did not have much damage.

And a 3 meter tsunami was supposed to come but actually it was only 40 centimeters high. So, on the foundation of 400th vigil this grace and I thought of the two homes of our members, no one got hurt but breaking of glasses and bowls, and worrying about the elder member and the day before he was hospitalized, and I felt Heaven protected him...

And the reason all members were safe was the working on the street and proclaiming and 400th vigil, then I felt prayer reached Heaven and felt Heaven's work and all of our members who offered devotion with us, I'm deeply grateful.'

Also, there is a group chat for spiritual Workshop and such words came: Today True Mother came into my dream and we rode the bus together and were going to the clear destination and arriving at the Peace Center, amid preparation, I was looking for True Mother and I saw Her already at the center with the warm smile and waiting for us to sing, I felt so warmly embraced, and I felt that a sign is drawing near and my prayers always turned toward True Mother and She continues to appear in my dreams, yesterday and today again, and I felt this was not meant for me alone, but that through this moment True Mother is conveying a message to all of us that when we truly forgive and love and become one through AFAL and AO, miracles will surely happen and before long we will once again meet True Mother whose bright

smile is filled with hope and Motherly Love and Her Face at the front of the Peace Center was so brilliantly shining and that light reaching every soul that prays and endures holding on until the end.

Let us trust and move forward with True Parents of unwavering faith. Heaven is guiding and the miracle is already coming.

Another pure water said that True Mother is not in the DC but in the heart of all members. In this era where we attend Heavenly Parent substantially, don't think She is in the DC, but in your family, think you are attending Mother within your own heart, and I'm sure greater blessing will come to you...

Our volunteer group Ewon, centering on them, 2,100 people, with the cooperation of HeungJN were able to perform with the cooperation of media, for those in Korea having hardships, so I hope you will testify like this with all your skills... and instead of thinking of the FF, they just relate to the volunteer work, but we must make the connection to proclaim.

Today precious testimony of after Blessing, the pain of her eye, such symptom stirred her to come to Workshop and felt she was inheriting the problem of her mother. But moving forward realized her mother's life course was foundational for her to meet True Mother herself... bows, calling out 1,000 times each and going to the Tree of Blessing and finding gratitude for ten things a day and at the Mother's Womb, she had such blessing, and moving on with her life like this, I'm sure she will create a blessing filled family....

... going to the WSs and Volunteer Overseas Corp, and I felt she was like an MC reporting very well and she herself created the power slides, and precious person to have and I asked her to give Oeg Monsei... And as she heard True Mother's Words directly, she resolved... Listening to Mother's Words is very precious and let Her come out to give Her Words to ignite the fire of faith the 2nd and 3rd gen again, and the most precious of all is the life of attendance, so AW is like the Workshop of perfection.

After AW, you can be someone who really wants to attend and how much would they attend their spouse... When on a date so much love, but after marriage in the secular world, they fought a lot... And my parents did too. With the words of attacking others, such families not being able to attend each other, by trying to attend within one's life, practicing that, that was spent to a family and the husband would attend wife.

The greatest is to attend a baby in the womb is hardest but it is the heart of a mother. So it is an amazing Workshop to be one with True Mother's Heart, and at this final perfection of the Divine Principle, we receive vitality elements to complete our spiritual body and we need to have God coming down. We have God in our spiritual and physical body, but if you still have 3,320 central dark spirits, there are many who committed suicide, you must resolve all those in order to be able to attend Heaven.

So, we are continually practicing in our life, and after Academy and then Attendance more than 120 days, that system must be made. In the past, really difficult to get leaders to attend 4 times... even forcibly. And when you look at other attendees, they were a lot of them who had a spiritual problem, and many people thought that after 40-day means that he or she did something wrong, but now most are very beautiful, smart and handsome... Look at the poster of it...

After 3 times at Attendance Workshop, half are joining Spiritual Academy... Even yesterday ten left to Central and South America with 28 working abroad... so different to gather people in the past and have to give the money to go... and we asked each district to send some donation to sent our youth abroad, but more are voluntary coming as they learn about H's Providence and as they laugh and cry together here,

they become beautiful couples as well.

When we had the 2-day and snow came so harshly to clean it, not forcefully but they did it by themselves voluntarily and offered praise and could resonate with HyoJN and our elder should also sleep there at HyoJN's place to feel his heart, that sacred place where he used to stay, and we should be the one to reveal the (value that cannot be revealed well otherwise... so I hope tonight can be you experience of revealing value)
