Opening Prayer Of Gratitude

Most Honorable Heavenly Parent

Victorious True Parents of HEH

Who Triumphed through TL

We sincerely thank You for opening wide the Gates of 1,459th Cheon Shim Won devotion calling the beloved children of the world together into one Place through Mother's Love.

True Parents Love not the individual self, not even Their own Family, but this nation and this world, unable to care properly for Their own children, They sought to save the entire world, as firefighters, as doctors, transcending time and space, offering Their entire Lives, through BS and Ts, in order to liberate Heavenly Parent Who suffers seeing the painful reality of this fallen world.

Their hair disheveled, with no regard for Their own comfort. Because we have grown that Love, at this very hour, as true children fulfilling our duty of hyojeong before our Parents, we will cry out more earnestly at Cheon Shim Won, pledging our very lives. By day we will fulfill the missions entrusted to us. By night, we will cry out to Heaven until our throats are hoarse. Through devotion we will move Heaven, not with words but with tears, not with habitual prayers, but with desperate prayers offered together with our very lives.

Through our earnest hearts, please allow Heaven to arise. And may Mother swiftly return to Cheon Jung Gung, so that this nation may encounter the miracle of a new turning point. Please work.

Even today we earnestly pray for the swift return of True Mother Who is unceasing to pray for us. We also sincerely ask and hope You will protect the spiritual and physical health of all our brothers and sisters who continue without change with devotion in front of the DC even in the cold weather.

Offering all these words, I pray with gratitude in attendance to Holy Mother Han

2nd son of two sons and 1 daughter

Today letter to True Mother... Mother, I hope You're well. Before attending Workshop, I continually doubted myself and if I could have faith my entire life. So, many left the church and because my faith was not deeply rooted, I wondered if I might do the same. But when unsteady, I looked at the trainees beside me, who did not offer devotion expecting something in return, but laying themselves down with pure hearts, and then I too was able to endure until the end.

During the Attendance Workshop, I delivered two key speeches at the Gapyeong County Citizens Peace Rally for Religious Freedom. At first feeling a great deal of fear, that someone I knew might pass by or that I would face criticism or persecution. I wondered if someone like me who finds it difficult to step forward in front of others, could truly testify about True Mother in my speech. However, as I watched the trainees before me, I saw that my thoughts were rooted in personal hesitation and fallen nature.

When I remembered how True Mother had boldly proclaimed Herself as the OBD to the world, even amid unfolding accusations and criticisms, my fear began to fade, and from that day I resolved to become a filial child who testifies about True Mother before the world. Reflecting on attendance, Whom to attend and how and what attendance truly means, I found myself approaching the end of the Workshop.

I realized that attendance is not just offering devotion for True Mother, but repaying Love True Mother

has bestowed upon us. Because I could not meet You, True Mother in Person, I was unable to convey my heart directly. For that very reason, I long for You even more deeply. And I kept asking myself what I could do in my present situation, and could see that it was in setting my own life right and never ceasing my devotion.

Mother, You did not stop even when the inside of Your mouth was ulcerated and Your legs were swollen and painful so that even standing was difficult. In order to keep Your Promise to Father, You have walked a path no one else could ever replace. Since F's Seonghwa, Mother, You have born all burdens alone and have fulfilled immeasurable Providence.

Whenever I think of the path You walked, unable to sleep peacefully even for a single day, with a Body over 80 years of age, I pray with an even more earnest heart. Even though Mother is alone at the DC, in one corner of my heart, I earnestly wonder whether that place might be the place of rest You have encountered within Your entire Life. It's narrow, dark and cold, yet I wonder if You might be able to lay down both Your Body and Heart and find rest because You, Mother, have come this far, looking only for the sake of the Providence with not even a moment to care for Your own Body, I sincerely wish that You might have even a small rest of some little comfort.

Mother we will not merely become hands and feet of Your Providence, we will become children who walk together with You, with one step together, I believe can be greater than one person taking ten steps alone, and our small steps with one Body can become greatly forward for Mother's Providence.

Now, I make a firm resolution, Mother, while You are still on this earth, let me vow to live as a filial child and loyal subject before Heavenly Parent. I am still insufficient, but because of that, I believe Heavenly Parent will be with me. The trainees will return to their respective places and testify about True Mother. I too will lead a life of devotion while keeping You, True Mother, deep in my heart.

I will begin as a member of the 9th Spiritual Academy for 6 months dedicated to the will that my physical mother, ascended to the SW, cherished, going forward even if I lack confidence, advance with unchanging faith and build a family from which an image of goodness continues to the 3rd and 4th generations.

As coordinator of the 5th Attendance Workshop now beginning, I will care for raising each precious needle that You have sought to be children who testify to You and do sincere devotion. applause

Mother, I long to see You so deeply. Please return soon to Cheon jung Gung, and with a bright smile, please melt our frozen hearts. Mother, I love You.

Testimony

I stand before you tonight with a humble heart and deep humility, especial this Cheon Shim Won Place built upon tears and absolute devotion. On this sacred day, as we continue to offer jeonseong for our beloved Wang Omma, I give this testimony, not because I had faith without trouble, but because Heaven held me when my strength was failing.

My name is Arenatana, a 360,000 Couple and mother of 7 precious children, 3 sons and 4 daughters. My son, Ian, my second son and my third child is the reason I stand here today. Some of you may have heard my testimony before and be wondering how Ian is doing now. I pray that through this sharing Heaven will touch your hearts, and tell you about the importance of ancestor liberation, and even more deeply about the power and necessity of ancestor Blessing.

For a long time I struggled with focusing on ancestor liberation and Blessing, but I made a in prayer and faith to go forward with ancestor liberation, knowing that my journey with central spirit liberation would continue... Suddenly my son stopped walking and his was reduced to 60%... As many of you may know, I he had been active constantly talking and walking, but something changed immediately after I registered for Autumn Great Works. He became unusually quiet, and I was so grateful for Heaven's grace.

Then at the Peace World Center, another couple mentioned how quiet he was, and I realized that the spirit world was truly working. I continued to offer devotion and decided to go to the Tree of Blessing for each of my children and I was told by the International Team when to pray for Ian, the date set for 11 1st, 111, a special number. I wasn't sure how Ian would feel seeing the people, and on that day I told Ian we needed to go to the special prayer room and there Heaven would pray for us.

Today in gratitude how much my son has improved, texts, writes reflections, listens to translations, reminds me of the ansu time and goes to church by himself and sleeps peacefully without medication and every moment like this is miracles from Heaven's Heart. applause

In Africa we say it takes a village to raise a child, and I learned this is not only physically but spiritually as well and I pray for his talking, trusting that Heaven's time is perfect.

Tomorrow is his birthday, 21 years old, and I thank you from depth of my heart for your every prayer and for those who fasted... Your sacrifice touched Heaven and you carried us and she can't talk more with tears... You carried us when I could not carry myself. And True Parents's Words that we must clearly understand the SW. It is not enough to simply believe vaguely in its existence. While living on earth, we must fully prepare for the Word to internalize in the SW.

If problems occur while the baby is in the womb, it may suffer from poor health throughout its lifetime... and likewise, if we commit sins and engage in evil deeds, we will likewise pay the price and the spiritual body goes through indescribable suffering...

After hearing these words, I'm determined to go to the next Workshop and to prepare to help others who

are suffering in silence. applause... Brothers and sisters, it is the 2nd time to reach this point, but I feel Heaven was calling me to support True Mother at this precious time in history. Even in the darkest hour, when your heart feels crushed, that is the moment to continue your devotion with absolute faith.

As PL reminds us Heaven will respond. My message is to never give up or allow your jeongseong to fall, because in unity with HMH all things are possible. TYVM HyoJN, HeungJN, Daemo nim Heavenly Parent and True Parents... I love you... applause

It's been a while and I'm moved to be here and I remember PL working so hard, please applause of gratitude...

True Parents's Words... 120-day WSs to make everyone raise up to be useful.

One member got into his parent's car to leave and they messaged me and asked to pass the phone and said to him, 'You didn't do well during the Workshop and don't you think you should do 80 days and let's do Workshop diligently and if you do this afterwards your parents will really love you. PL said, 'If all offer devotion like Chanyang Church, True Mother would probably not be walking the path She is right now.

testimony... dormant and my heart always down and Director Kim came and for some reason tears came coming and I felt to change how I was living and went to the special ansu to heal my body, vertebrae pressing on a nerve and nothing could help. I was advised to go to the Director Kim Myung Ok and so improved like I can fly... (She had lived 15 years in the secular world)

True Father: The passed and present 'you' are very different from the Workshop and from now you must resolve to walk well.

And express gratitude for all who worked so hard for the training. This brother so many wounds in his heart... bullied very violently and as I was sitting in the back, suddenly I Sang Won gave me some money to get something to eat. I usually do not receive allowance from my parents and it felt very warm and happy...

He cried so hard... and then I told the grandpa to go and give him some money... If we can support this member to share love to heal his heart and impressed on the Workshop trainees.

testimony... Asked husband to come to Workshop and their characters do not match at all and now he is learning more about his wife... Husband is still here and wife at home, and he said he has something to consult. He is working well and children fine, so what is the hardship... Never had opportunity for Workshop, but at wife's idea, he came... I have been holding feelings for my parents and served in ministry for a long time... I never wrote to my father when he was alive but wrote now... Parents always busy and could not form relation with them, us left at home when they went out witnessing...

My father never complained as he was assigned to remote churches and did all he could... Actually, my parents had a good influence on me from their life... I had no training but church became unfamiliar to me. I realized he was with me in times of difficulty... My older sisters locked me in the room and could not see my father and no one apologized and I was just called a difficult child... I remember the warm heart of my father and I want to wash away all the bad feelings about him, and when I call his name tears flow and I realize these are Heavenly Parent and my father's tears of love for me and all is resolved... but I will receive special ansu with gratitude... My mother also began attending church and did not receive much love... And when I think how I too cannot be there so much for my children... and thinking to spend more times to my mother and if in that incident when I smashed the window, my father never had any bad feelings and did not know what he said would hurt me, 'It is good for you not to come with me'...

True Parents... Taewon must become one with Japan and must fulfill its duty as the Eldest Daughter Nation, to accomplish H unified Korea. To do this you must expand your realm.... In order for Taiwon to live, you must become Cheon Il Guk Taiwon. There is China, but don't worry. China can become Cheon Il Guk China. In this era, when a country attends True Parents, that nation will prosper.

The Eldest Daughter Nation has not been restored.

Taiwon being accredited as the Eldest Daughter Nation, is a blessing. You must fulfill your responsibility as you receive Blessing. Don't you think you should run. You should walk, you should run, you should fly.

So, until next Monday, December 22nd until January 1st, we will be going to Africa and touring with Shin chul nim and Kim Young nam, the three of us will first go to Mozambique and then Congo. I saw Congo on a video, and I was happy to see it and realized that's where I have to go.

True Mother's Words: Beloved Heavenly Parent, centering on True Parents of HEH, throughout the world this Blessing Movement has been carried out, and it is a path to fulfill Your Dream, Heavenly Parent for the queen and kingdom on earth, and for this, this is such an important Movement.

In the past, Africa has a very dark history, but due to Blessed families, it has become H Africa, and also it will become the Africa of a light to lead this world. So, offering my gratitude to open this day, I bless this moment in the Name of True Parents.'

So, True Parents have always loved Africa. What is it about Africa. When PL went to Africa to tour, and when they were doing Chanyang yoksa 25 collapsed due to spiritual problems. I have some fear in going to Africa. I hope that all of you pray and encourage us more.

When I toured around the nation, many members with many different stories. This church, Elder Kim gyung gwon donated this land... In the past the church had steep stairs and True Father designated a place but it had the big apartments there and if they had been obedient, I'm sure the church would have become very developed by now...

testimony... because many members gathered to offer volunteer services one church is developing well... and ansu healings

Dongdujang Church has many international members... The Peace Ambassador said about the ansu... and without noticing the passing of time they give it until the person feels better... loving the ansu...

and the Peace Ambassador kept coming to church even so busy and he said the church is telling me what to do to go to Heaven, and as soon as I saw Kim Myung Ok I would not miss vigil, and I look at you every night... nothing happening is something about to begin, you said... and You are right...

Then a member said, 'You've been working so hard to give others ansu, and she started to give ansu to me, and I cried...

Pastor Song I Sang's Message to PL: It's been 88 days that Mother has been enduring at the DC... and about 100 have gathered for devotion and HJ Praise and with that song, he gives us such strength finding a jewel-like heart in our heart, and Mother's noble endurance makes our faith stronger and that song made us resolve with that heart and we resolve and put all our mind and body to offer our devotion.

exactly 500 total trainees gathered for Workshop and grace fills this room...

The number coming to Cheon Shim Won must increase for the Heaven to be moved...

testimony we heard today... attendance starts from the love, wanting to pay the love back and then attending... How sad would the parent be to see their children not living well, so we must offer devotion to be the hands and feet and fulfill Mother's Promise to Father...

Carolien Intimock has 7 children but enduring many things with her son and his symptoms so suffering for her... then her devotions and our international staff made devotions... Now, he has Heavenly purpose and pursues it... And why don't you fill up the number 7 and offer yet more prayer...

Kim Myung Wook had problems similar to the ones she is now counseling... and she ran from Cheon Shim Won... now she is a lecturer to graduate school and she reports that to me and Heavenly Parent allowed her to go to Taiwon and also to Africa... In 2018Our Branch leaders especially Rev. Chungju won have put a lot of work and suffering into it, and Africa has changed a lot and I believe in what will unfold...

David: 'During the time of tribulation, I will cry out to God, and the Lord will answer me.' The prayer that truly moves Heaven in a prayer for the nation, a prayer for Heaven's Providence.... prayer for only True Mother... What She has done should never be mocked or criticized, also the World Summit. They didn't come to be mocked or humiliated or criticized but to speak for the peace of the world. And we must cry out for SW to work and then everything will be mobilized... Heaaven is with us on our side. We have the OBD that Heaven loves the most and AGS world is with us and all the righteous people are with us.

In Pakistan, as we held IFC, they wanted to invite True Mother as the VIP and 43 nations of the Senate held the event. If only for our church, how could all these Islam and others come to us.

Listen to the testimony. We heard the Will of Heavenly Parent, True Parents, and we have seen many cases of evil spirits being revived and reborn children, and we must make the Living Heavenly Parent's Power come down to us. The time has come.... Through Cheon Shim Won prayer and devotion, we can move Heaven. Director Anhoyol witnessed the miracle... In these daark hours we pile up our faith. Believe. Do not be discouraged. All of us will become the Family Church revival. All of you can give what the multitudes need. Where is the place they can teach all these things? only FF... Please experience resonance with Cheon Shim Won 8's and your ancestors, not dark spirits...

People have bipolar because the suicide spirit attached to them... Bring new wind of hope. Make this time.

We repent... Let us live for others giving our lives over... no more delay... past 88th day True Mother endures murderous treatment, insult and unimaginable suffering and continuing to embrace with Love and forgiveness... Judge U I San in charge of Mother's trial and all prosecutors and lawyers and officials to come to know HMH that She may be liberated... Please guide them...
