Most Precious Heavenly Parent

Beloved True Parents HEH

TYSM TYSM gratitude that You that at this very hour You have opened the gates of Heaven and Personally Presided over the scarce time of the 1,460th Cheon Shim Won special vigil devotion. Please fill our minds and bodies with nothing but the Will of HPs and fill us with nothing but the earnest longing for nothing else but our Heavenly Parent and True Parents, and fill us with the longing knowing that before us lies the historic and fateful Course through which the Will of Heaven will surely be fulfilled.

We humbly ask You to grasp the Will and circumstances of Heaven and extend Your Hand of Power to us, so that we may overcome these trials and hardships and achieve victory. Please protect this nation of Korea in which You have Blessed as the Providential Homeland and raise these Korean people.

Please enlighten the leaders who bear responsibility for the nation so that they may awaken to Heaven's Will and fulfill the mission of the chosen people. Please allow H Japan which is Blessed as the Mother Nation to be one with the Holy Mother Han, Who has already achieved victory, and let the works of the Holy Spirit and Truth arise.

Please gather the righteous people of conscience whom You have prepared, and work so that this country can be transformed into a new nation that takes responsibility for the Providence, as we join with You to advance to boldly proclaim to all humankind the True Parents Who poured all Their BS and Ts throughout Their entire Lives to realize the salvation of humankind and the Dream of one human family under True Parents.

And as we attend True Parents, the Central Axis of the Providence, please grant us Heaven's astonishing Power, Authority and Wisdom. At this hour as children who repent to our Parents for marks of disloyalty and unfilial heart, but who now make a new determination to invest deeply in the roots of Heart and faith forevermore in Cheon Shim Won devotion, please hear our cries of prayer and work so that we may establish victorious result and that all the good people offering devotion and all those righteous people wanting to realize the world of peace may gather, unite, becoming one centered on Heavenly Parents, earnestly praying for health and well-being of True Mother.

Welcoming Address

H Japan

The night of hardship for the Unification Family is growing even darker. However, it is making the dawn that will shine brighter. In the midst of Her suffering, True Mother is encouraging u saying that Heaven is alive and working... and at this time of night She has Blessed the Cheon Shim Won devotion so that we may illuminate and prevent impure forces from playing their tricks.

And I personally participate now in the 555th devotion at the Fukioka Church, 5th Region in Southern Japan, pastored by senior Pak Jong he, all members united in activities to block the dissolution order against FF, issued March 25, 2025, when the church immediately established emergency counter measures HQ with panel exhibitions, street speeches and marches, exposing the reality of abduction aand confinement, with 555th vigil devotion as a testimony of resolve of H Japan.

during witnessing... Chowon Jin captain...

Today, actually very shy and approaching strangers is frightening... but realized not done alone but with b and s as one a single life can be connected... rough streets and atmosphere... then one contact said without hesitation that they would go with us and had sincere conversation for more than 2 hours... the reason I hesitated was by placing limitations on myself and not about words or techniques but seeking even one person with a sincere heart... I will keep the Parents' Heart at the center... and go forward

Moon Un He

eldest in a pastoral family surrounded by love of many members, but then conscious of how others viewed me and also very lacking and no confidence to witness... but my perspective changed, not what I do but what Heaven does and just belief and trust that Heaven can use me and I no longer hesitate but look for one person Heaven wanted me to meet and it was a 2nd gen that became distant and I began calling prayer and reflecting myself not to have loved this person with the Heart of the Parent looking for them... witnessing is to experience and embody the Heart of Parents and I came to America to plant the seed of true love in a wider world and a time to see the heart of Heaven with more reality... and Heaven having to watch such scenes that are there... colleagues helped me regain courage after much rejection...

Meeting one person, so much emotion of the joy of HPs and through witnessing I could bring joy to the Parents, even lacking and language limitations... and I will keep my heart until the end and gratitude to Heavenly Parent and True Parents Who guided me to this place.

there with Denzel and others... looks like at the LV Church stage...

'Got to be near You to feel Your fire'

Fire, fire, fire,

I was feeling low. Someone came and said, 'Don't you know that you're a child of God. Lift it up high. Rise above the lie.

Holy Mother, Father Son too... (like rap style) hurts starting now, so don't worry. Don't fear child. Are you wondering who we talk'n bout?

Tell everyone man, woman, Divine, yah one Spirit...

Welcoming Address

President Cho man ung

Elder Pastor Association

applause

Respected and beloved worldwide members here at this time. Last December 5th I had the honor of meeting True Mother at the Seoul DC. I couldn't lift my face up and couldn't look at True Mother nor stop the tears because I was very sorry. In the 71 years of Unification history, in my life that I chose in this public mission, to see the reality of today, how to overcome this and how to ask Heaven for forgiveness.

True Mother took our grievings and before even asking how we were doing, She had told us to educate the Korean people of the Epic history and go everywhere and tell the Word.

Today, we are BFs by True Parents and also people getting ready to get Blessed. This FF is a church that cannot exist without True Parents and today a crisis hard to bear and our hearts divide with and blame others and the sight of being divided, I was seeing it and I stand here as the Elder Pastor President and I say, 'If we come together we live, or if we split, we die.'

True Father at the cost of Your Life and all effort You strove and we need also to realize the Will... 2,000 years ago, Christianity suffered their life they risked everything... and if there is persecution, we must come together and that is the only way to live and the life of faith. As we look at the reality of Parents, let

us not be ones who look back but forward with determination that instead of our Parents, let us carry on with Their Heart.

We had a Workshop Dec. 9 to 13, asking ourselves how can we overcome this trial, this crisis. What can we do to fulfill True Mother's Word to let people know of the Epic of chosen Han people and we determined and that is why today I would like to proclaim the resolution of the Elder Pastor Association and I brought it with me. To all the members here today, even though I have retired, I will move on with this old body together with True Mother.

Along with attending the Inheritors of H's Love and Blessing, and I resolve to be with nd attend them and that is why I stand here today to read you the resolution:

'At present the Unification family is in the midst of hardship and confusion unlike anything we have experienced before. First with heart filled with deep anguish we repent the past of the sins of unfilial piety and disloyalty, for having failed to prevent the suffering of True Mother now in prison, True Mother's hardship.

Now is the very time when we must inherit the course of restoration and victory that True Parents walk, crossing the line between life and death in order to fulfill the Dream and the Will of Heavenly Parent. We the senior pastors who have attended the victorious True Parents of HEH and have guarded front lines, now once again resolve to stand up again and uphold True Mother's Words to forgive and to become one.

At present the government is slandering our traditional patriotic tradition and loyalty by labeling it as a collusion between religion and politics and is even speaking of dismantling our foundation. It is being broadly raised as a social issue. But it is a distortion of the true meaning of the freedom of religion. And this is a matter of serious concern for us as well.

We hereby declare that the only way to resolve today's hardship and confusion is to attend the True Father in Heaven and the True Mother on earth (True Parents) with AFL and O, and to become completely one with the families of Moon Shin chul and Moon Shin heung Inheritors of H'sL and B and the True 4PF of True Father through the Lineage. We the senior pastors who have attended their assemblies, currently touring nationwide, have confirmed through these gatherings that they are indeed the true hope that can resolve the present crisis and open a new era, their families demonstrating this by becoming completely one vertically with True Mother and horizontally as brothers united as one, directly guiding with Chanyang and the Word and deeply moving all who witness with deep emotion and firm conviction, that they are indeed the leaders who will guide our future, we shed our tears of heartfelt gratitude.

The Elder Pastors Association as a body held a workshop for national education on the Great Epic of the Chosen Han People at the Kosum Pine Resort on Dec. 9 to 11, 2025. At this gathering we reported before Heavenly Parent and hereby proclaim before our True Mother our resolution to absolutely attend HMM True Mother and center on the True Father 4PF to become completely one with the Inheritors of Heaven's Love and Blessing, and to step forward fully into the work of witnessing of the True Parents of HEH through the nationwide education of the chosen people, and we proclaim this.

October 22, the 13th year of the H Calendar 13th year of Cheon Il Guk, Members of the Elder Pastor Association.

'You have taught us the Heart with which God loves so deeply human beings created as children. You also taught us God's circumstances. If that is so, then why has God not been able to make human beings happy, and showed us the importance of not living an egoistic life, while saying it is enough if I live well, but a life of living for the sake of others, even on rainy days and windy days...

wearing like choir robes, singing Shin chul nim's song 'Monarch Butterfly'

'The sight of my father and mother walking ahead like that (for the sake of others and the world) became for me the most important thing. By watching the backs of my father and mother, we siblings were able to learn that the FF truly values family, because I believe that this family ideology is wonderful, I wanted to convey it myself. And because I wanted to become such a person, I became a pastor. (and he has a great voice)

showing youth and

"The FF has places filled with love and to create the beautiful and clean environment of nature. According to the report shared by Dr. Moon Hoon Suk, True Mother especially emphasized the environment of this earth. We hope that Mother's Love and Her efforts for this planet will be widely known throughout the world.

Hoon Sook nim:

'Public officials must be educated about what True Parents have done for this nation and people, what I have done. They must be taught what I have done and why I did it, regarding global environmental issues.

(The 21st century clearly has its challenges from pandemics to climate change and conflicts between nations. Yes, there still much cause for concern and much work to be done. If we work as one family beyond nation and difference, beyond ideology in cooperation and mutual respect, truly, we can build that world of lasting peace.

(Anote Tong, Former President of Kiribati was a Prize Laureate... Dr. Saakena Yacoobi, Educator of Refugees is a Sunhak Peace Prize Laureate; Waaris Dirie, Supermodel and Human Rights Activist Against FGM is a Sunhak Peace Prize Laureate)

The Sunhak Peace Prize was established because island nations are being submerged. The earth is becoming made a desert (or deserted)

We must save the earth through education, so that life may survive. There are man continents that are becoming deserts. If countries like China and Russia were to take the lead in this work, a peaceful world without war and conflict could come about.' (Hoon Sook nim)

It's not just in Gapyeong that the volunteer work is happening but worldwide and especially in Viar, Congo

video

To raise awareness for environmental protection, reports for the planting of plants and environmental green hope, this was the volunteer work of the weekend reports, starting from the FF grounds and expanding to the district.

The FFWPU founded by Rev. Sun Myung Moon and Dr. Hak Ja Han, known as the Mother of Peace, led this campaign. The Environment Clean up Movement, known as the New Environmental Movement, aims to change people's conception of waste by promoting proper waste disposal in order to reduce the spread of disease, under the slogan, 'Let us make a beautiful Africa, a healthy Africa'

Let us listen to the voices of the community leaders of the FF:

"We want to inform all brothers and sisters of the Kino in Africa that we ourselves are polluting the environment. We must take responsibility by collecting waste, disposing of garbage in designated places and removing plastic bottles that clog drainage systems to clean the environment. Otherwise, you know what will happen during the rainy season.

Rather than merely making requests, we should educate the people about where garbage should be disposed."

another: "The waste issue can be said to be both a crisis and an opportunity. It is an opportunity to create business. Waste can be transformed and recycled. Through this jobs can be created for young people, by raising awareness and educating young people about waste transformation.

We want to deliver a message to the community and the Congolese government to manage waste and create jobs. This is about allowing people to live in good health while preserving the future generations."

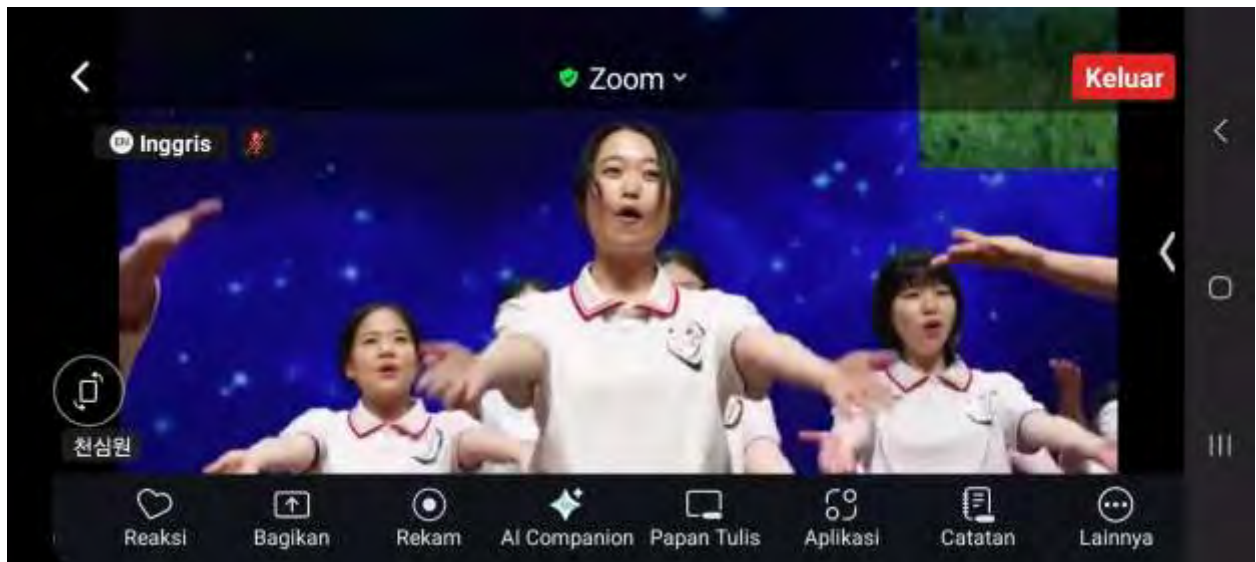

Such environmental cleaning activities are gaining increased attention centered on the capitol area.

This is really miraculous work in Africa.

Sawon, a 2nd generation member from Congo in Africa was having a spiritual cause of an illness...

The Africa leader, 'As a European, it is also my responsibility. Africa is my responsibility. What the Germans did, the French did, the Spanish did, what the Portuguese did, it is all my responsibility too. There is a lot we need to overcome and be forgiven for.

I'm always amazed by how the spiritual world works here and how Heavenly Mother is trying to save every human life and help everyone here in the TC. So, I brought her to the Cheon Shim Won and her ancestors also to help, writing the HJ wish paper, asking for forgiveness, explaining all that her ancestors did and asking for forgiveness. We immediately went to Cheon Shim Won after she wrote everything down.

As soon as she put the HJ offering paper on the altar, I felt enormous spiritual burden lifted up. Her SW completely changed afterward, and we really embraced each other. It was such a moving moment. So, we continued to work with her 3 times a day every day, a very precious child of our Heavenly Parent, and she will become a beautiful, beautiful, strong, strong daughter of our Heavenly Parent. She's a wonderful girl. TYSM'

testimony: While I was praying with all of my heart, I felt that my throat was being strangled. At that moment I heard two voices, one saying to continue and not give up and the other saying that it is dangerous and to stop. I decided to continue following the voice of my original mind, and then people dressed in white appeared and began removing the hands that had been clinging to my body.

At that moment, I began to vomit and I soon felt completely liberated from the feeling of being strangled. When I regained consciousness, I was surrounded by Mrs. Antoinette from the ansu team and the wife of the Continental Chairman. They told me that I had briefly lost consciousness and that night I realize how powerful and scary prayer truly is.

Through that experience my faith and courage were filled, and I felt that become new. Since then my heart and skin changed."

However, as someone who still needed time to completely heal her illness, had to return to her home country for the issues... Coming to Korea was an enormous visa and financial burden. Nevertheless, someone's older brother who was studying in Korea at that time, invested everything he had, money from part-time jobs, to bring his younger sister to CP to save her life.

Coming back to the TC again, including obtaining a new visa, was so difficult at every level, especially for Africans. I decided to entrust everything into the Hands of the Heavenly Parent and offered desperate prayer...

The brother: Leaving her in Africa seemed to be the problem and wanted to send her here quickly.

The ansu member said that to heal someone have to release the trapped emotions, since childhood that block experience of H love... and we talked and cried and laughed together... grateful to my team...

Tears... I know you will come back to understand who your True Mother is, your own Mother is. I don't want any of you brothers to suffer and be lost. I want to take care of you, each one of you. I want it to be

me and nobody else,... to live always together... If you love me and I love you, then no matter what, not matter the confusion, distortions, falsehood, I'm always your mom, and I'm always connected with you and you with me, and you were the only one from all your brothers who brought me flowers when you were young.

I don't only pray for my problem but for my family and nation and feel responsibility for True Mother's situation. We did not properly understand and unite with Mother and follow Her correctly discerning the value of Her... and Her Words... Is there anyone today who understands Your suffering... what emotions are in Your Heart, still carrying right now, even in this difficult situation concerning about our happiness.

True Mother, You are the Light that will save this world. Today, You are bearing the heavy cross of persecution. We were not able to protect you even we were the very ones who should have assured that no one could take You away, the Queen of the Universe and the H Mother we have all been waiting for, and truly sorry not to be a daughter who could help, the very ones 2nd and 3rd gen who have responsibilities...

And she began to pray through a song expressing her heart.

lyrics 'I am sure and certain that Dr. Hak Ja Han is God's OBD, the Words of True Parents are True for a true world and true blessing. Oh, True Parents are our Light. Dr. Hak Ja Han is he OBD...

I cannot imagine Your suffering, how I should have comforted You and stayed close to You. Mother, I pray that what happened to the chosen of Israel will not be repeated. They did not believe in Jesus and follow Him, even His disciples did not understand Him. True Mother proclaimed that She is the OBD, She is the Daughter for Whom Heavenly Parent waited for 6,000... Heavenly Parent can we truly understand all that Heaven had to endure for 6,000 years so that Holy Mother could be Born.

HMH I am certain that You are our Mother, the Mother of humankind and only through You that humankind can be saved and my hope is for Korea unified before Mother goes to the SW...

There is a jewel that can never be taken away that is the 2nd and 3rd gen, without whom we have lost everything...

HJ Praise

at the 9th 3-day Workshop along with 106 from 3-day Workshop and Cheonshim Choir singing

'Monarch Butterfly'

(3 gen have gathered to realize Your Dream)

Pres. Lee Gi-seong

1,460th Cheon Shim Won 60,000 are with us

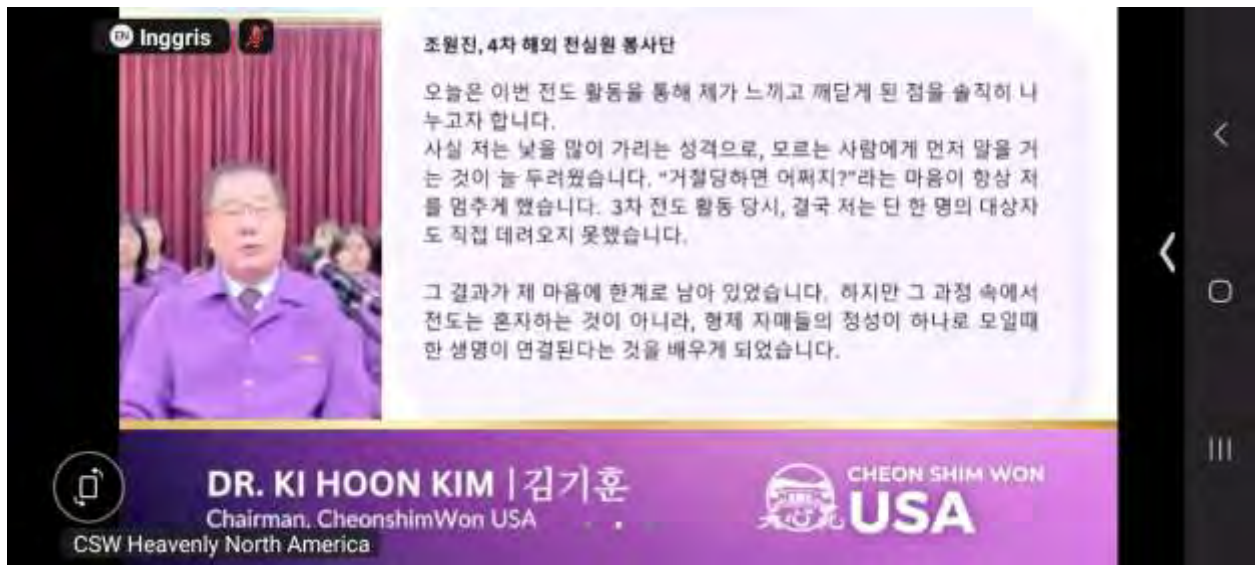

90 at the DC Seoul

500 and 500 and 400 tower of Cheon Shim Won devotion

At this 89th day of True Mother at the DC, Rev. So In Myung Message:

(names of those there with the Cheon Shim Won devotion) We sincerely pray for True Mother's protection especially of health so She can come back quickly... and that Heavenly Parent will work that through this darkest time, we can show the brightness of True Mother's Presence and so that Her hardship does not go to waste, we pledge and pray for even more determination and to witness results...'

And today right here, 1,711th CheonBo Workshop is happening and we are doing this online as well so Korea, Japan and International participation are there... So, about 20,000 have registered which is similar to the GWs attendance.

And tomorrow is a Blessing Ceremony with about 3,000 registered. So, I believe this will make the miracle of True Mother coming back, and at this time unite and wake up the sleepers to come with us... with absolute faith... Hard to gather this many people even in the afternoon, but this night devotion is amazing and I believe True Father as well is grateful for all of you being here.

Today, long-term are 498... and 106 for the 3-day and among them there is a child born in 2004 and they said they had a dream about coming here and singing in the choir and they came with their parents in reality.

The 5th Moshim Workshop has 198 people already registered... and I believe more will register onsite to go over 200... Our hearts are being beaten to listen to the news, but the stronger we can get and be awakened more truly... We are in that process so let us make sure not to get tired on this road and give gratitude to our ancestors with us here and let us think we are creating the standard and tradition of absolute FL and O and creating the life here on earth, so that it is not a time lost.

Heaven gives us the opportunity... and through Mrs. Antoinette we have heard the process of healing and understanding True Mother's Heart and the 17-year-old girl's pure heart...

Director I Bon Sok gave us the testimonies.. and miracles of a medical angel being sent and how a fire is spreading across America... and in H Korea the Workshop the Elders had to be one with Inheritors and HMH and pledged for this, and I hope that pledge will spread to the entire members of Korea...

Cheonshim Weekly... not easy to have devotion for 3 hours, but through Heavenly Parent working with us, we are able to do it... and Monday to Thursday, we did the vigil inside the Cheon Shim Won to be able to examine and change everything to the new machines, and even some confusion, we are now here with new sound and screen system and the entire Main Hall is very full...

In the dark, Heaven works through a fire pillar that shows up more... and that is when miracles happen

True Father said: The spiritual leaders friend is the way of one path of Shimjeong and filial piety. No matter whether you eat or sleep, you must be filled with that heart. Right now we are in a hardship, and the only way for us to live is shimjeong even feeling that we're all surrounded... shimjeong of Heavenly Parent and heart of filial piety, right? Please do not, do not listen to other words about it. Those words that really make confusion about the church... Only center on Heavenly Parent's Heart and True Parents's Heart, Their Shimjeong, and then, no matter how harsh the situation looks, we can overcome that.

When dark and looks like no path either, that is the very moment to be children who encourage and be one with Heavenly Parent. That is the way True Father has lived as well, 'He said, I can keep going. I can do this. Don't worry about Me.' And True Mother also, we have to think about Her Word to pray for Heavenly Parent and the Will in our united heart and continued efforts...

Remember the painful path True Father walked and that is more obvious now that True Mother has been and is walking and walk along with Her. When one with Her, the dawn can shine... To us there is no failure, only victory with oneness with True Mother, as She told us... not to be afraid to meet our family members and all those not restored yet. Just go to them and speak confidently about True Parents and their accomplishments...

The World Summit, the underground tunnel. That was not just for us but for the peace of the world... Shout loudly. Go meet people and tell them, how much True Mother worked for this nation and poured everything out for this nation and we have the responsibility to let this nation know and that we didn't do before and need to still do. Raise your voices and be a person recorded in history. Shout to witness and praise, or the SW will condemn us.

We need the standard where the SW is moved, 'We will be with you as you are doing the special devotion...and keep these records... True Mother for over 80 days now is still in the DC but showing true love and encouraging those who come to her and teaching us by Her forgiveness and unchanging love.

One person said, they received so much grace, feeling all the frequency in waves and feel the internet is developed for this very moment and this very reason, especially for people offering in harsh environment but still we all come in one heart and pray for True Mother to be released quickly and I believe we have all grown tremendously and will witness True Mother's release...

Heavenly Parent is alive... and True Parents are working... They are here working... If we go to the Cheon Shim Won devotion, we will achieve victory

Cheonwon Construction Company president and all his people are here with us and they have conquered a hard time for their company and today's Oeg Monsei will be done by him...

True Father's Message through the pure water...

"In True Mother's shimjeong Heart, only H Mother's Heart is inside Her thinking only about Her children, this country, this nation... They can't be awakened late, and how much... what do you think Heavenly Parent's Heart is right now seeing this situation, if you think about Heavenly Parent and HMMH, you have to feel to live a shining life that testifies to True Mother and Heavenly Parent, not shaken or wavering.

You are in the position of those who have to educate the world... The 13th year of Cheon Il Guk where Heavenly Parent has waited and we need to wash away the unheavenly past and show the realization of Blessed family. Everyone has to realize it, okay? True Mother, HMMH is inside your life. So, as BF's who attend HMMH, if you unify with Her, then this country, through the righteous people who Heaven has prepared, will let the Truth be known.

The Truth will be revealed and you can report your results to Heaven. And I bless you to be such children. Even if you cry out, the past will never come back. The moment you understand Heaven's Heart and circumstances. All that comes to you, you won't be able to look back or look away.

All My past were moments when Heavenly Parent's Tears were mine and mine Heavenly Parent's. I want to ask how much Heart of Heavenly Parent are you feeling. This time is so short time of chance. Sometimes even if you have to crouch down on your knees, sometimes I want to do that but you are the ones who have the arms and legs and mouth and ears.

And I who understood Heaven's Heart, I only had one path to go. And in this time, if you talk about Heaven's Dream, realize it and work for it, then through your tears for that, Heaven can't help but work through you. That time you invest, even it may not be visible, Heaven is working. Heavenly Parent is working. And so, do not waver your absolute faith.

Heavenly Parent will absolutely work through us and achieve victory. And we have to forgive Satan as well, and love, forgive and unite with True Mother. Heaven's Providence did not just progress, but there had to be someone's sacrifice nd tears to be realized. So, if you have to cry, don't just think it is the tears of hardship, but the tears of the whole world and Heavenly Parent's Heart, and then we move Heaven's Heart.

We need not just to move people in the PW but SW as well. So, when we go on that paath with shimjeong, Heaven will work and believe...Jesus will work and believe True Father is coming here and looking at us and believe with the heart of Hyo Jeong so that HyoJN will come inside our heart. Today be lips praying for HyoJN and HeungJN and then I believe Heaven will work.

And next week there will be 70 and then 80,000 people and so on. That is how Heaven will work. And when thousand and millions come together shouting HMM in unity, a new history will open on this earth, so let us shout with all our hearts and praise this time...
