Good morning to you
I hope you're doing well
The 1460th Tianxin Garden is sincere all night

Summary

From the front of the detention center, which is entering the 89th day, there is a message that says, "I will give my whole heart to protect the health of my true mother, so that the journey of my true mother's struggles will never be in vain." Thank you to those who serve their devotion every day on behalf of us.

Today is the weekend training session, but as in the time of a major role, there were many participations worldwide, and Heavenly Parents are grateful. I believe that as much as your mother was in her hardship, she is not falling apart, but more people are gathering, standing up to the food she slept on, and we are in a historic era of great recovery.

Often our hearts ache through rhetoric, but we are trained enough to be struck, and believe that our grit is

through to the heavens. If you establish the righteousness of absolute faith, absolute love, and absolute obedience toward your true parents, while also being grateful to the absolute whole spirit and ancestors who have achieved it together, it will be a period where you can realize the 13th year of heaven when you live in real life with your Creator Heavenly Parents, and it will not be a loss to your Heavenly Parents. Now, if you get into the feelings of Heavenly Parents and become one with the true Mother, Heaven will give ability to all.

Migen Senshu volume 70 page 150

"It is the mission of spiritual leaders to live with only one path, even in a position like a song on four sides."

One path is the path of mood, lyrics? There is no way to go except the way that teaches reason. Whether you are eating or sleeping, if you get into that feeling, it will develop. 」 Even when your eyes are completely dark with all sorts of noises, you don't listen to all kinds of noises, but think about the feelings of Heavenly Father and Mother, and that was the way true Father and Mother went.

No matter how difficult it is, he walked in saying, "I am still alive, I can still go." In the detention center, no matter how hard it is, you are comforted by those who come to visit you, thinking about their feelings, "I am fine. "Pray for His will, everyone and your household." Now is the time to become completely one with such mother.

Mother, who came to earth as the hidden entity of Heavenly Mother, should not quench her faith, even though she is in the way of hardship. Just as we look to Jesus crucified and the way for his resurrection

opened, I believe that if we move forward with stronger faith, looking forward to the struggling mother, this darkness will pass and a brighter day will draw near.

And your mother said "Heavenly Father is alive. We can't fail who work with our only daughter. Success is only victory, what are you scared of. Heavenly Father, miracles can happen when you become one with your only daughter. "It is said. So don't be afraid to meet your brothers and relatives. Go forth and tell your words openly. I have to tell you how good your mother has been done. It is our responsibility to tell how hard we have worked and devoted to this country. If you speak up now, you will go to the spirit world and get sued.

Father's message spoken to Pure Water. "A mother's mood is always filled with only the heavenly mother's feelings." He puts His apostles first before Himself. The people of the land are so slow to understand, how much are you united with the heart of your mother, who is sorrowful? What is the regret of Heavenly Father? Considering your mother's feelings, you should live exemplary lives beyond your true home. You are a proud bless family. In a position to educate the world. Thirteen years of joy that you have waited for so long Heavenly Parents, wash away all the unfaithfulness that has been unfaithful to your parents and show them before the world the true home form. If we become one with your mother as a blessed household, according to Holy Mother Han, we will bring the truth to this nation by the righteous prepared by heaven. I pray that you will then be able to report your deeds before heaven. "\

Everyone who knows that Heavenly Father is alive and there is a spirit world. If you believe that your Heavenly Father is here and watching with both eyes, and pray, "This mouth is the mouth that replaces the Koshin-sama Koshin-san, so please cry out," then a surprising act that transcends time and space will happen at this hour. Praying for a great job, and praying for a time of prayer and crying out.
