1,472nd Cheon Shim Won

Prepare song

Bow and Pledge 3 and 4

Opening prayer of gratitude:

...deepest gratitude for 1,472 vigil devotion for HMMH... In the difficulties each of us are facing thinking of HMMH, wanting to become one... When our hearts fear or waver, we think of True Father... When we want to collapse, F pushes us forward. When we stumble, F reaches out His Hand, 'Rise and Walk', F and M always at our backs. F, M, now 107 days since You've been walking the path of suffering.

We remember Your Words, 'Advance toward the realization of Cheon Il Guk' and are we fulfilling those words. If we do our best, F will bring about astonishing works. We believe our prayers can be fulfilled rapidly and the Providence of Mother's release.

Mother, please hold our hands tightly, we will attend You through Cheon Shim Won prayer and we earnestly hope that today's devotion may be joy, comfort and hope for True Mother...

'All of you are the children of God'

I don't want to be here. It's cold. It's wet. Why are we here? To proclaim Who our True Mother is. Who our God is... To honor the sisters and brothers, to fight Communism, not by strength or power or materialism but only true love.

Omonim Balli Wangonghaseoseo

Mrs. Selover said 'He knew how difficult it would be'... and 'Let this cup pass from me'... just thinking how Christians think it was about the suffering of the cross, that Jesus wanted to avoid... but overwhelmingly it was the Heart of God in His own Heart and liberating God and not being able to continue His Mission that had to be on earth through His Sacred Physical Body,... that was the suffering, and that was why he wanted that cup to pass... with a total victory of true love and willingness and obedience so filial to Heavenly Parent all His Life... but without knowing Principle Christians have no other thing to think but that Jesus knew how it would be and wanted to avoid that... (even it was necessary according to them for Jesus to pay the price to forgive sins...

street preaching

'Our prayers, at this very moment might seem nothing. And we might think that no one is listening to our voices. But when we offer a prayer here, we can purify the spirit world. We can mobilize the spirit world to work. That is why!

Let us gather our voices at Cheon Shim Won and offer sincere prayer for our Holy Mother Han, True Mother

HJ Testimony

Coordinator Eriko Teshima

youngest daughter among 2 sons and 1 daughter...

Throughout my life I felt the guidance and love of Heavenly Parent... I complete the 4th Assembly Workshop, the 16th Spirituality Workshop and the Attendance Workshop consecutively and current a member of the Spiritual Academy. But before that I was a dormant 2nd gen member.

During the summer vacation of my second year at high school, I participated with my mother in a Workshop and listened to the lectures, and through that for the first time, I felt that I was a child of Heavenly Parent and True Parents and realized that the 2nd gen members are different than people of the secular world.

Through the guidance of Heavenly Parent and the devotion of True Parents, I began attending church in earnest from my third year in high school, and later did 2 years in SCF... and the Providence for the Restoration of All Things, feeling various emotions of Heavenly Parent and True Parents, such as joy and sorrow, and I came to realize Heavenly Parent and True Parents are truly my own Parents.

From a heart of wanting to offer devotion from a place even slightly closer to True Mother, I came to Korea. However, I like the environment of STF, where it is relatively more easy to maintain a life of faith. It was not easy to keep my faith in the midst of every-day life, and I began to waver.

Seeing my dorm roommates in a situation similar to my past self, who did not attend church, I had desire to restore her and devoted earnestly, with efforts to be closer to her and encourage her to attend church activities. But I was repeatedly rejected, and becoming anxious that I might grow distant from her, it became difficult for me to continue investing.

Looking back now, that investment was self centered. It was not out of true love. I eventually encouraged encountering difficulties, and I too was swept along that flow, gradually farther away from Heavenly Parent and True Parents. Until coming to the TC last July, I was living a life far removed from the church activities without offering devotion at all.

At first I felt comfortable, because I could live however I wanted, but deep in my heart, the true love given to me by Heavenly Parent and True Parents still remains and because of that, I felt pains of conscience and inner conflict. I knew that continuing as I was not to be right, but escaping from that lifestyle was not easy.

Even so, I could not forget the sensation that Heavenly Parent and True Parents are my Parents and felt my betrayal but They were still loving me, and I could not run from Their Embrace. I was afraid of telling my mother that I was struggling and making her sad by how I was living, and the gap between who I was and who I had become, but I could no longer bear my betrayal and my mother listened to my entire story and it led me to where I am today.

At first the lectures and devotion felt overwhelming and I felt I did not even have the right to offer devotion and pray. I shed countless tears of repentance, and it was not easy to accept the reality, but one morning singing, 'Let us Return to True Parents' and thinking about those 2nd and 3rd gen who had drifted away, like myself, regret and self reproach was heavy... but the positive thought of my possibly being able to understand the members who were having experience similar to what I had and be able to

help them return... walking together with them by their side.

Coming to realize that every environment was given to me as a training to make me stronger, and a necessary process. As someone who lived a self-centered life until now, I determined to offer devotion for True Mother, but felt it was not enough. I wanted to do more, but realized I had no abilities of my own, and thought that someone else would act on Her behalf, but then as Her direct child, I myself must make practice for Mother and joined the Cheonshim Spiritual Academies for direct activities and practice to please Heavenly Parent and attend Mother.

Because there were 2nd and 3rd members together with me, I was able to have greater earnest, and was asked to be a coordinator, which I never expected. It felt like a heavy burden and fearful to be able to shoulder it, but looking back to all the processes until now and how Heavenly Parent and True Parents were always with me and guiding me through prayer, and my heart was once again held and sustained.

Especially in this Golden Period in which True Mother is Present, the desire in me grew stronger to be of help to Her, even if only in a small room. With conviction knowing that this path is by no means what we walk alone, with 2nd and 3rd gen with me and Heavenly Parent and True Parents with us, and also the SW through Cheon Shim Won devotion, I was able to have faith that Heaven will work through me.

With that heart, after prayer, I made the determination to take on the role of main coordinator of the 18th Spirituality Workshop. In order for the participants to be able to experience in even a small way the true love of Heavenly Parent and True Parents, who gave someone as lacking as me an unchanging true love no matter what, I will carry out the role from lowest position so that Heavenly Parent may work fully and so that Father may directly educate the participants of the Workshop.

I will always center on Heavenly Parent and offer devotion for Mother. TYSM for listening...

HJ Testimony

Cheonshim Spirituality Academy

Hannah Trey

2nd daughter among 4 sons and 1 daughter with Pusan Church

Served as member of the Overseas Volunteer Team... After completing 40-day Workshop and praying

what I could do for Mother, the word 'Academy' came to me, and I joined the 7th batch, working with the Owl devotion team, and felt I was receiving much learning and guidance and growing, but then with physical exhaustion began to waver.

I had wanted to grow more quickly having started later than others, yet being unable to do so made me so frustrated and my heart began to sink. Then I heard of one Academy member would be going with Branch Leader Moon Im Pyo, in Middle East.

But prayed if it was Heavenly Parent's wish, not just my own, and if so, to give me money to go. My mother asked me how I would feel about going to overseas mission and thought I was not in a position to do so, but found that my mother had exactly the needed money. And I deeply realized that when I desire to do something centered on Mother, Heaven works.

I volunteers to go to the 2nd Middle East and Europe Volunteer Team went to 7 countries and the first was Germany. The excitement though quickly faded, when during the 6th Middle East Spirituality Workshop in Germany, I heard the shocking news like a bolt of thunder that Mother had been detained. I also heard that members in Korea were offering even greater devotion at Cheon Shim Won and in front of the DC and throughout Gapyeong.

The staff and trainees in Germany also gathered their hearts and devotion with even greater earnestness. Since I was in charge of sound systems operations in Germany, I was not able to actively participate in prayer... During the Cheonshim resonance prayer, while checking the sound as usual, a thought suddenly slipped past my mind, 'Pray for Mother. Pray for Mother.' At that moment, I felt that it was Father, but making the excuse that I had to check the sound, I deliberately ignored it.

Then suddenly, I heard a voice like thunder and lightning, 'Pray for Mother!!!' and, startled, I immediately began to pray. As I prayed, with a feeling slightly calmer than before, a voice rose within my heart saying:

(FATHER'S MESSAGE), 'Who is carrying out the Providence on earth right now? Mother!!! Mother is standing at the center of the Providence for wounded and hurting children and Mother is needed for them. Mother is needed for wounded and hurting children. They must be embraced by Mother's Love. Mother wants to save even one more child. She wants to move even a little more for Her children and for Heavenly Parent, and it is the children who must allow Her to do so.'

As I heard this, I entered into a deep repentance, realizing that before Heaven, saying I cannot pray because of my circumstances cannot be an excuse. The next day with individual devotion, I could see, not only the prayers of tears being offered in Germany where I was but also those at the HQ in Korea...and members around the world. Once again, I heard a deep voice within my heart:

MESSAGE: "For what are the people shedding tears? Are they praying for their own pain? Are they only for their own salvation? Where are the people who cry because they feel the pain of the world and the suffering of the world? I wish the world could recognize your warm and tender hearts."

Through these words I came to realize how beautiful and great the FF Community truly was and is. A few days later I heard Mother's Words through Yeon ah nim. I do not remember the exact words, but it was something like, 'I wish the world could recognize our members' devotion.'

Hearing this I was reminded of the Voice I heard earlier saying, 'I wish everyone could recognize your tender hearts.' And I became certain that that was the Voice of True Father. At that moment I realized even more deeply how Father is always together with Mother.

After that, as we traveled through Albania, the Netherlands, Spain, Sweden, Moldova and the United Kingdom, I was able to meet many members there, and although the environments were different and the forms of faith varied slightly, what remained was the faith and desire for peace and love for others and the warm and tender hearts.

As a Cheonshim Academy member I will strive to gather everyone's hearts together so that the tender heart of members striving for peace will not be in vein and so that this Spirit may be passed on to future generations. Through this period I was able to look upon the world more broadly, and for it to be warmer and being more happiness in a world together with True Mother, I will do my utmost from my position.

I also learned about diverse expressions of faith and unwavering tenderness from the five academy sisters and brothers who traveled together with me. When I was exhausted, they listened to my stories, comforted me and filled what I lack. For that I am sincerely grateful and gratitude to Heavenly Parent and True Parents Who Guided me to Europe and Personally educated me.

HJ Report

Branch Leader H Europe and Middle East

Moon Im Pyo

All of special devotion here and at the TC, I'll try my best so that this report can be a strength to you

Our separate countries journey of the Middle East is topic

For a long time period of 123 days, we traveled to 7 countries and with the heart of loving True Mother, the spiritual academy did their utmost, some having nose bleeds from working so hard, and they took naps while working at the computer, and I felt sorry for them and could not bring myself to wake them

up. applause for them

Working at the H Europe and Middle East Branch, we can really feel how much the members encourage and pray for us, and when coming back from Korea, I received gifts and snacks...so it's not just visible with eyes, but we feel the support and love and heart from members and elder members so that we want all the more to shout out and proclaim True Mother.

This map, Moscow is actually bigger, and it's hard to cover each country and we traveled a lot... ten members... 2nd Short-Term Volunteer Team... four staff here and 6 other member, the outstanding pure waters of True Parents

True Parents Words:

Although now you are one thousand, witness for ten times more like you and I hope all of you will gather and fulfill the duties of true children and loyal family members of True Parents...

I gave detailed report about Germany last time even a few things I didn't tell you... Chairman Paek Ji Suk is also a well-known artist. And she came and cooked delicious meals for us for ten days, and the person next to her is Miss I Gashi Visa... and she is here at the TC right now. She can play the Uluway? instrument very fluently, and she is learning Korean... And she is here in Korea right now. She has a dream to compose an orchestra and next to her, the fourth one from Lebanon works so hard and Shina jintin... without her we would have had to starve many nights... and here are the missionaries who always came to attend and support our events... applause of encouragement...

51 participants of the spirituality Workshop and CheonBo special gathering... and we offered devotion at every one... busking time and witnessing activities and testimony time and Korean culture event and music and also played some K pop and many gathered...

Professor Ote yong has a lecture tomorrow and is watching right now... applause always doing everyone a great service with his work... leading the Epic... and translation by Captain of the Spiritual Academy, I Song Hun and I did True Parents's Life Course

They know abroad that the author of True Parents's Theory is True Mother, but there are actually many professors that helped during the process...

And Divine Principle Lectures were given by Rev. Ghanni Roshi. She's in charge of the Balkins Regions, and ansu lectures and worship and praise. In Europe there are many praise bands, centering on a 2nd gen couple this band gave a wonderful time... Resonance prayer was led by myself and Captain I Song Hun... and also every Saturday we have our intensive prayer sessions and then the melting ceremony of the HJ offering papers and this is Holy Ground, we melted the offering papers and then we buried them.

And this is actually a Holy Ground tree established by True Father. And the reason why True Father cut the tree is because it was actually infected...

So, this is trainee Maksym Danilin testimony. She said, 'When I shout out Holy Mother Han, all my

suffering disappeared... At first, did not want to come at all, but during the time, felt sensation from the drums throughout her body and was able to accept all the programs easily...

I encountered spirits that led me toward death, and spirits of anger and despair and anxiety and spirits of abandonment. All of them left me. I ask Heavenly Parent to show me the value of Cheon Shim Won prayer. And during the evening we heard a loud noise, and I sensed that this was her voice shouting 'Holy Mother Han' with all of her energy...and she prayed till 4am standing, sitting and lying down, to the point that my body went into convulsions from all the pain in her body.

True Parents's are not supernatural powers but are real physical bodies. We often place True Parents in too high a position and think of Them like Supernatural Beings Who accomplish incredible things easily, but we forget that those accomplishments were built on unimaginable suffering and sacrifice.

I also realize that when I focus on only the Position of True Parents, the emotional distance increases... True Parents are Those Who cry together with us and pray together with us and walk an endless path for the Will of Heavenly Parent. Through this Workshop, I was able to feel Them once again as Parents with Living Hearts and able to experience Them with a living heart.

In human history, there was only One Person Who so thoroughly denied self and lived absolutely selflessly and that is Holy Mother Han True Mother (Counterpart of Jesus) and I witnessed the miraculous scene of 2nd gen returning to Heavenly Parent and True Parents...

I did not understand the pain that our members felt until now. applause for this trainee

testimony of volunteer member who majors in music... I traveled five hours to come to the venue...and arrived then only after the event ended because they thought they could meet HMH in Person and the flyer had True Mother's photo which was misunderstood as appearing Live.. They eventually shared the devotion and slept with us, and then asked questions and had conversation until 3am, and the earnest prayers were conveyed at heart and all deeply moved...

Suddenly participating in a prayer meeting, I decided whatever happens, happens and I felt Heavenly Parent and True Parents Living and working now, and I myself must believe in Heaven's work.

This trainee learned Korean and through music wants to attend True Mother...

Albania... True Mother's Words:

"What is the most expensive jewel, a shiny, sparkling diamond? From Heavenly Parent's Perspective, you are the diamonds. I hope you will grow well, so that the OBD, True Mother will want to take you wherever She goes. I hope you become such people. I will believe in you. I love you."

What did True Mother say, let us say it together, 'You are the diamonds.' Anyone here hate diamonds. I myself gave a small diamond ring to my wife to convey my heart.

Albania 2nd gen, almost all are 1st gen and on average younger than me, and many would ask if I knew Rev. Chung... When he was in Albania is known for his endeavor there... applause

We are so grateful wherever we go for those who cook. And we had about 19 missionaries... and they have the pressure to bring results when witnessing and I tried to give them one-on-one consultations to relieve that...

152 spirits liberated and 194 registered for those events, and Missionary Sin chul nim in Albania had a group called 'Cheonmyung' and we had revival of praise, and we went to meet some religious leaders, a branch of Islam, and world HQ is in Albania and we sang songs of HMH and met again and testified... took picture together and seeing our pure waters offering praise, he was very touched... and we have Busking and witnessing activities every week.

General Schwanebeck is famous and in our pamphlet you can see detailed information... and we introduce using the Name 'HMH' that people become curious...

Alfred Worsu, former President came and offered some words and we did praise in his presence... and offered poinsettias, and although he is over 90, he is in good shape and has a good understanding about what M is going through...

Many trainees are here in the Mail Hall... a bit small but still a good location...

We could form a '7' with lights...

testimony... Only because I love Mother and realize the answer is true love and feel the path of True Parents practiced was precisely True Love... As final day approached, fear of returning to the mission came and that all the grace would disappear, but then heard True Father say, 'I am here. I am here.' and it was such a voice of comfort and strength and with the single heart to protect Mother and try to repay the love that is so so great... offering my love to Heavenly Parent and True Parents of HEH...

testimony... (I saw him wailing out of repentance...) not my own perspective but True Mother's, and the question, when Mother is released, with what kind of heart can I welcome her...reminding me what kind of person I must become... not just greeting Her with emotional joy but preparing to be a person that can be immediately used and the sense of responsibility to offer self for the community and put M at the Center, and how even a small existence can play a tremendous role in a precise moment.

And in that video from Sweden, she is the one who made it, and a very talented member and sleeps on her laptop because she works so hard...

During the Workshop, I prayed, 'If there are any dark spirits working to prevent me from love, please convey love through Your anointing... Even when I said Heavenly Parent, tears flowed... and how long has it been since I called out to You, Heavenly Parent... I cried so much because I miss my Heavenly Parent so much, and words I had not even thought of came out as if Heavenly Parent was saying, 'I was waiting and I missed you even more..'

Why was I not able to meet True Father when alive? Why can I not meet Mother? There were things blocking me from the Love. But because you prayed so that I could feel that love, my resentment has been resolved. Life on earth has been so difficult, and I lived through time that were so terrible that they were beyond anything that I could handle, but now in the SW, I will work diligently with Father.

I'll do everything I can with all my strength by Mother's side, together with Father. I will receive spirit world training well. I'm deeply sorry and grateful to you for conveying Heavenly Parent and True Parents's love. So, Father, allow this child also to feel Your Love. applause

Netherlands

True Parents's Words: Especially you people who are receiving the spirituality Workshop must become one with the SW and clear away everything that could become an obstacle to the completion of Cheon Il Guk. Through Cheon Shim Won devotion create an environment in which SW can work. Act with such pride and achieve a H unified Korea. Aju.

Netherlands, this is the place called 'Glory House' and this is a Workshop center kind of like a hotel resort, and normally to reside here is a significant fee, but the owners are the two people here with the purple jackets, and we were able to stay there very affordably...

also we had a family Workshop... many children here and families working at Glory House... Here they are playing soccer, mostly 3rd gen... and we had the 7-day Spirituality Workshop... centering on HMM and True Parents's Dream... and also a CheonBo Workshop... prayer for True Mother's health and safety and for religious freedom...

with heart to transfer the culture of night to the culture of day, we witnessed here and there is a weathering broadcast person interviewing us, and next time with more devotion even greater grace... This person is former Chairman and good at singing and piano and he says:

'I will attend Heavenly Parent and True Mother and this team possesses warm heart and service and we could feel power to resonate with Heavenly Parent and True Parents. True Mother stands at the pinnacle of history and we have the great chance to work together with Her...

The photo shows clearly that True Father and True Mother are One, which was possible also during the 53-year wilderness course, because no matter what True Mother always supported True Father and waited to finally proclaim She is the OBD, and is now walking the path of the cross. For True Mother's Love to melt this world, we must also be individuals who resemble that love and True Father is supporting True Mother in every respect... and True Father utterly wants us to support True Mother in every way...

My wife, Miyeko and I feel great hope for our 2nd gen and 3rd gen, and through this Workshop, we are confident that we are able to give comfort and joy to True Mother despite this difficult situation...

And this sister is the one shouting in the video, and everywhere we go, she is like a sister to us, always

trying to take on the most responsibility and always trying to feed the team as much as she can. applause for I I Yong

In the family Workshop, some as young as 2 and some as old as 19, I felt how good it is to take part together... hoping that these children grow well... Began with intensive prayer meeting and because it had a high barrier, but day by day more passionate and growing in heart... I do not yet feel I have changed even that much as what I saw and I found myself thinking how joyful it must be from H's perspective and how important this Providence was.

True Parents's 'Together you are 2nd and 3rd gen born directly by True Parents, aren't you. Because you are born in a position unrelated to the Fall, your parents are true parents! Aju.' applause

The Name True Parents is a Name so precious it cannot be exchanged for anything in this world. In Spain, they do this (gesture of hands up) Spain known as the country of passion and they desperately love True Parents of all the countries I've been, only a few compare with enduring passion...

We liberated spirits here... This is a university. And cars and buses would drop off students and we would offer prayers and praise for HMH... And this leader Kim Jin Chun offered a special lecture that I desperately asked him to offer, and he was very articulate in English and offered aspects of AI...

CheonBo gathering and Manuel Compilo is a central member and what can I do for Mother and I felt more clearly how True Mother is leading the providence and felt victory will come in the end, and on the last day I was able to feel the presence of True Father as not before...

True Father's Message to the Trainee:

"Do not forget where you are, wherever you are present, wherever you go, you are My Representative. And wherever you are, you are not alone."

At that moment I felt how pleased True Father was that I was here and that True Father was welcoming me. And when I asked what I could do for HMH, Father said:

"Always be grateful. Keep in your heart pure thoughts, and to meet My children."

Imoto Takeko, the pure water that flowed to the very edge of Europe (on the map it's only on the edge, so that's maybe why she has this title) Grateful my husband and I could come for the Workshop together with Spain. I felt the long closed SW of Spain opening up and realized I myself must testify to True Mother more clearly and boldly...

True Mother while asking where the small needle is, She said it is the child that can become one with the OBD True Mother... And Heavenly Parent's Dream is to live together with Heavenly Parent's true children..

Sweden 5-day Workshop... prayer at the famous person's grave...very shocking and energetic and felt Swedenborn is working for restoration of Spain and that guy in the Santa Claus costume is his brother... and Captain I Song Un made emotional speech and I felt that HyoJN came down and spoke through him... And we prayed very loudly and it's called Upsala and here people are passing and would ignore it and look at us strangely but thought they must be doing something with an earnest heart and a police car came by and then left and one of us offered a pamphlet to the police...

In North Europe, 4 countries Norway, Denmark and Sweden and Finland... and the Chairmans of all of them came in one place and united atmosphere...

Moldovans stepped forward to help us and even used translation apps to assist to the very end... and getting exhausted then there was time to share experience and I was reminded of the sorrow and gratitude for the members and how they embraced and came for me... and realized at the center of my heart who I was, but could when realizing resolve for the future...

True Parents's Words:

You must not stagnate but flow. When the environment is created that the True Parents's can be attended, that is the ((Heaven King and Queendom))realm on

earth
