2026 Year-End Prayer Gathering New Year Address by President Lee Gi-seong... video

In just one hour we will bid farewell to the eventful year of 2025 and welcome the hopeful New Year of 2026. Happy New Year (and in Japanese)

HMH continues to suffer in detention, this being Her 101st Day. I pray that this 2026 New Year Prayer Gathering moves Heaven's Throne allowing Mother to quickly return to the Palace.

Beloved brothers and sisters, we started 2025 with a prayer meeting together with True Mother and She told us to go forward with faith and Spirit. And She gave us this motto:

In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent substantially let us Blessed families all around the world become true sons and daughters of Cheon Il Guk who fulfill our responsibilities as chosen people in unity with True Parents.

And She allowed us to pray in our own name, 'with gratitude attending HMH.'

And finally She triumphed in the Cheonwon Gung Cheonil Sanctum Entrance Ceremony.

On that day I was honored to recite the Ode to the Life of Ode to HMH before all of Heaven and earth. On that Day, HMH True Mother declared:

Heavenly Parent, Master of the Universe and Creator, Today, Now You are truly the rightful Master of

this earth. From this Day forward, Heavenly Parent, please embrace and Love your children with all Your Heart. In the Name of HMH, I proclaim to the world that the Gates of Heaven, the Gates of God's Cheon Il Guk are now wide open.

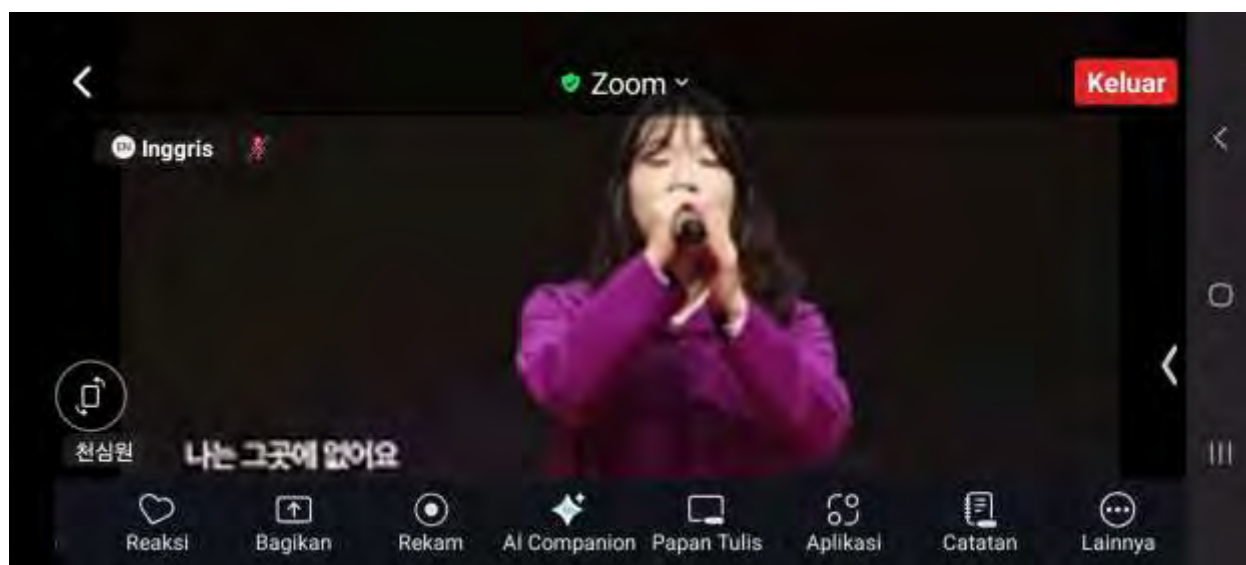

However, after Grace, trials will come. We have to experience the unimaginable and harsh ordeal of True Mother's imprisonment. Yet, we remain unshaken, and have gathered here with an even stronger faith. This is because we know the Truth of God's Providence.

When the leaders of Israel were filled with disbelief and came to Jesus and called Him the one who had been possessed, Jesus said to them,

'If I do these things, even though you do not believe in Me, believe the works that you may know and understand that the Father is in Me and I am in the Father.

Our Mother is now in detention. Anyone who reads Her Memoir, 'Mother of Peace' and observes the holy works She has been doing, then you can know truly Who She IS. Then they can know how hard She has been working to find the Original Homeland and fulfill the Original Ideal of Creation ((of King Parents on earth)).

And when we witness the reality of people of all races all over the world gathering together across borders, race, nation and religion and culture and calling out to Father and Mother with a loud voice, we came to believe that the world of peace, one family of humanity under Heavenly Parent and True Parents will dawn.

We will feel convinced that the day will come when all humanity will be able to attend and serve their True Mother, the OBD, The Substantial Holy Spirit. That's why today, though we face trials, we will rise again. We will shout and with the spirit of the owl, we will eradicate the corrupted night life and transform it into the culture of Cheon Il Guk.

True Parents have overcome countless crisis in the past. When They fell, the rose again like a Rock, teaching us the secrets to Their Victory. This is the Principle of Indemnity. No matter how difficult it may be, keep moving forward while shouting 'Monsei'.

July 20th 1984 True Mother told us She wanted to erase that day from the calendar. At the meeting, True Father instructed President Pak Bo Hi to lead 3 cheers of Oeg Monsei. From then on, the cheering continued, ushering in the era of explosive revival.

And on September 22, we once again faced the day we wished we could erase from our calendar. Rather than building a fence of limitations and complaints, we shouted 3 cheers of Oeg Monsei, offered prayers of gratitude in the Name of Blessed families attending HMM.

I believe that through this complete indemnity, the amazing works of complete restoration will unfold.

While in confinement at the Detention Center, Mother said,

'Forgive, Love and unite' She declared, 'The members worldwide are fully united as one.' We demonstrated this unity through the Autumn Great Works, for which 121,112 people applied to attend.

And today as we hold the 1,468th Cheon Shim Won special devotion, we are demonstrating through this 2026 prayer gathering, that we are we are all moving forward in complete unity with the True family 4PF and the Inheritors of Heaven's Love and Blessing anointed by Mother. We will surely be victorious.

Why is it that we will be victorious? It is because Heavenly Parent is Alive and Working. Mother proclaimed, 'Heavenly Parent is Alive!' God is working through the OBD. All that is left for us is success. Nothing of failure will come our way.

The reason we will be victorious is because Father is working with AGSs.

Through the testimonies of filial love, we see and hear how True Father is working every day. Now, on this foundation, our faith has been strengthened, our love has been made strong, and we are able to move forward with absolute faith and absolute love. Because of this, we will absolutely be victorious.

And the third reason is because all BFs together with the 2nd and 3rd generation youth are ablaze with filial devotion to Heaven. And in 2025, the goal for the 40-day Workshop was assessed at 5,400 participants. Yes, 7,470 registered, reaching 138% of the targets. applause

As a result, the 2025 objective of 1 million accumulated participants in CheonBo education, including those at the Branch Centers, was fulfilled at 104.2%... applause

This record-breaking victory achieved even in the midst of trials is a living testimony to the wondrous works of our Heavenly Parent and True Parents. applause... and it is because there are righteous people who continue to support us, even in times of trial.

We convene after 101 day of True Mother's detention... with 12 million appearing throughout this year.

FATHER'S MESSAGE...Father gave this Message to a 2nd gen member:

'Do not forget that only by overcoming the tribulations of the year 2026 of the red horse, will the victory of 2027 draw near. To unite with the Inheritors and 4PF of True Father is the path we must take. If we truly attend HMH and live in oneness in 2026, this year will be the year of victory. We must go forward with burning hearts, spirits and truth.

FATHER SAID, 'I Myself have come up against walls and darkness. In those moments, I heard the Voice declaring that God is not dead. This voice remained within my very Bones to this day, though you may not realize it.'

Father lived with Heavenly Parent in His bones. Father and Mother triumphed over truly hellish ordeals and opened the Gates of Heaven.

On February 1st, 1985, the 12th day of December of the H Calendar, on a dark night at Danbury, at 3:35am, True Father did a telephone connection to East Garden, and opened Heaven's Gates connecting hell and Heaven, proclaiming with Mother on the phone, the Day of the Opening of the Gates of Heaven.

Today Mother is OPENING THE SUBSTANTIAL GATES OF HEAVEN by CONNECTING CHEONWON GUNG even from the (HELL) Seoul Detention Center at Uiwang!

Therefore, regardless of how hellish our circumstances may seem, let us all attend HMH, True Mother and open the 14th Year of Cheon Il Guk with a life in which we substantially attend Heavenly Parent, The Creator. In our daily lives, let us become true children of Cheon Il Guk, faithfully fulfilling our

responsibilities as chosen Blessed families united with the True Parents. We must be those true children who make new starts.

2025, the year of the blue snake was a year in which we beheld the completion of Providence. However, due to our shortcomings, this past year became one of disloyalty and unfilial conduct, as we allowed the HMH, True Mother to be placed in detention amidst trials and storms beyond our strength to bear. We must humbly confess that Her suffering which has not yet come to an end is a result of our own inadequacies...

And now we welcome 2026, the year of the red horse, a year that brings great change and swift progress and may you without fail achieve victory.

In the Bible it says that there is a crimson horse. And for us the crimson horse is the Cheon Shim Won. And we will absolutely be victorious if we move along with the Cheon Shim Won, our sword, our blazing horse.

To all who are earnestly participating in the 2026 Prayer Gathering, I pray that you inherit H fortune and see our True Parents's hopes (together with yours) fulfilled. And rather than seeing the sun rise, while we think about True Mother's Words, you made a good decision to start the New Year with Cheon Shim Won. Heavenly Parent, True Father, HyoJN, HeungJN and Daemo nim will be working with you, and your spiritual children, your ancestors will come down here. And they will open this New Year 2026 along with you.

I believe this will be a year when we ride crimson horses with bows on our back... TY

establishing the high standard of victory which was the Entrance... At the same time glory and pain intersected, with True Mother's detention, however we are still able to start anew with Inheritors and 4PF True Father... The devotion accumulates until today with the whole cosmos becoming one under Pres. Lee Gi-seong and True Mother is within us even more deeply and firmly of greatest access...

testimony... The sight of the 2nd gens become one with the Inheritors, gave hope for the future with the young people surging and active and deep voice saying, 'This is exactly the image of our community going forward'... In their expression, there is nothing downtrodden, and I felt that the era has completely changed and this will be the era of true oneness and was able to start powerfully for the firm settlement of the H unified world... no way to overcome but becoming one with Cheon Shim Won

testimony... When Shin heung nim asked, 'Are you proud?' We are in a relation of Parent and child to be proud of and truly we can fulfill the Dream... True Mother is enduring cosmic birth pains and trying to protect us... and in this moment when She cradles us, I feel we must be reborn and not leave it to others but stand up by ourself boldly... With determinations greater than Mother's... I pledge to the determination ten to twenty times more practice for victory...

from Taiwan... Inheritors emphasize how valuable BFs are... and it moved me as the most important guideline for conducting ministry this year. We were given birth by the indescribable sacrifices of True Parents and seniors... and never giving up to hold onto us with tears. How precious and glorious an existence I am... and want China to be H China, the expectation True Mother placed on Taiwan and the

attending HMH with the 4PF of True Father and Inheritors and all BFs attending this vigil devotion, greetings of this New Year

Today, at Cheon Shim Won, the ministers from WCLC met True Mother and attended Cheon Shim Won vigil devotion and returned to the US...

Prophet Radebe from South Africa flew to Korea and met True Mother and with the words he received to put in practice he attended Cheon Shim Won and gave us a precious message and his word and determination for the future...

In Chicago, T.L. Barrett minister met True Mother and is working very diligently in the US upon his return

And Bishop in N. Carolina is in charge of the biggest church and there with our Movement they are offering devotion every day for True Mother's swift return

Archbishop Selle being one with a university in Ecuador conducted an assembly and is in action for True Mother

These ministers are touched by the passion you showed in the devotion at Cheon Shim Won...

First, Prophet Radebe upon coming back (Imboni Dr. Uzwi-Lexwe) opened a new church with about a thousand followers and with the words to testify to HMH True Mother, he continues to work... and on December 30th was held the Sixth Anniversary of WCLC and in total 2,600 people around the world attended for a world record and in the participants were Prophet Radebe and many of his followers attended to return glory to True Mother...

This was also on Zoom and from Yeong ah nim... with Pastor Paula White all attended and gave testimony to True Mother... expressed desire for Mother's swift return...

And from America, Association Leader Demian Dunkley and in Korea Pres. WCLC's Hong In Jong, centering on them, were able to testify to True Mother. And we had a great rally with 2,600 people of about 62 nations and we offered devotion for True Mother's release..

And the core people for this victory able to happen was from desperation in our vigil devotion. This is T.L. Barrett Jr. of Chicago Downtown Church, biggest church and he invited about 200 ministers and opened an assembly about the activities he conducted with True Mother, I believe...

Bishop Charles Dudley in North Carolina biggest church... and in Christianity, he made a Cheon Shim Won in his campus, the first in Christianity and is offering devotion in such a way and True Mother in 2023, hearing these words, signed this banner with a golden pen, the photo... and said they did something big...

This photo is a very big church, a campus church of many buildings, dining room and youth church and Cheon Shim Won prayer room, although small, now Christian believers and our members go to offer devotion together every day for Mother's release and Dr. Asier as the leader of ACLC is working diligently...

Archbishop Chrysostomas Celi... True Mother six years ago while establishing WCLC, Herself gave him the title of minister in WCLC... and he went to Jardim together with True Mother and said he would take care of South America, pledging to True Mother, and with the passion from Cheon Shim Won devotion, while conducting a rally in Ecuador national university, he is conducting such activities...

So, this is a reminder of how Cheon Shim Won devotion, not only to members but religious leaders also, bestows blessings... and all offer our gratitude and I conclude...

talking to people...

Through this small experience, I came to realize that evangelism is a place where we can deeply empathize with the heart of a parent, and a field where true love is put into practice. For the sake of doing what brings the greatest joy to Heaven, I came to this America, with the determination to sow the seeds of true love throughout the wider world.

Due to language barriers, the message I can share is limited. I am still inexperienced in guiding even one person on my own. No matter where they are or what condition they are in, I hold in my heart our Heavenly Parent and True Parents, Who never give up. With Them in my heart, I will move forward and do my very best until the end.

another: Even now, the path of evangelism is not easy. However, until I return to Korea, I will walk the path of evangelism without becoming attached to results, with sincerity toward even one person, living each day with the determination to walk this path. Through this process, I resolve to first become someone who stands upright before Heaven.

another:... During that process, I had a chance to talk with my mother on the phone. When I shared my

anxious heart, she said this to me: 'Evangelism is not something you do alone, it is something we all do together. That is why it is okay, even if you do not see direct results yourself. Your devotion is already bearing fruit elsewhere. Just love. Walk joyfully with a heart that loves the people whom True Parents long to love.'

Those words became a powerful force that pushed me forward. Even when there is no verbal language to connect and even when there are no visible results for me to see, rather, those steps become the conditions through which God's Will is victorious. With that realization, my fear disappeared.

Nevertheless, on the days when there are good results, I am grateful that I can offer joy before Heaven. On days when I am wounded, even amid countless sufferings, I feel grateful that I can more deeply understand, even if only a little, the pain of our Heavenly Parent Who must search for His children, and I strive to live each day with that awareness.

During the remaining time, in order to become a vessel that Heaven can use even more, and so that even more children may be connected to Heaven, I will continue to engage in evangelistic activities with sincere love for the people on the streets of Fremont.

another: Moving forward, I want to continue doing my best during this witnessing period. I will continue to offer devotion and strive to become someone whom Heaven can work through, finding the righteous people Heaven wishes for us to meet. I hope that through our witnessing efforts, others may also be inspired to offer devotion and go out witnessing...

NABI Activities of the 2nd gen have now become famous with us throughout the world... They held their 2nd National Assembly... This time it was grace filled when 2nd gen offered speeches together with their 1st gen parents. and exchanging messages with one another. First, a speech where one could feel a father's burning passion and power drew attention.

'Through forming a family, I raised four children, and in the process my wife has gone through much suffering, including child care, health and economic issues... Furthermore, I have a weakness of frequently forgetting things (daughter smiles) and it is frustrating for my wife, but she still loves me... and my children too... My children are participating in a joint Blessing and coming out to speak in the streets. I am truly happy now with my true family... and becoming unhappy for sacrificing for families is not the truth... My children stand up for the sake of the nation and the world. Have you seen youth like this before. They are the treasure of Japan and for them I would give my life and (daughter applauds sincerely, happily and speaks:)

We want to do something for Japan and this world. And my mother and father are truly people like this... for the world, they are such people and all from the FF I have met are like that... What can they do for family, nation, world and future... And I want to live like that believing in God and my own convictions... Please don't criticize us solely because we are from the FF...

next a mother says that the prayers of jeongseong were together with her and her precious daughter... I encountered FF in middle school and I stand with my children... tradition of lighting holy candles and wishing for safety of children at birth and one day an older sister gave birth and I also had labor pains and for the daughter in the cold weather... but something that makes me sad is that it is being reported that we are like criminals because of our faith, and members are driven into forced confinement and mistreated solely because of our faith because of media spreading the idea and society thinking we are some cult and lawyers and brokers and Christian pastors became one with a high-priced business for confinement and deprogrammers... Whether the FF is a dangerous place or not, whether it is brainwashing, please family members and media, please come to the church and see for yourself... We are truly people who desire world peace and I hope all can have their thoughts with freedom and not anxiety and open their doors..

There are as many as 440 H Japan youth who come out to the streets, even while enduring persecutions for it and disadvantages of various types and violences they must face when revealing their identity as with the FF.

Since the shooting incident of former PM Abe, who was truly an important existence to Japan, using that as against the FF, formerly the Unification Church, from society and the public did not stop, and what was directed toward us was incredibly painful and difficult. Taking this opportunity to convey my honest heart as a FF 2nd gen, I want to say it was truly agonizing and difficult with no hope in tomorrow and I wondered if a day would ever come if I could laugh to my heart's content and be able to live freely in Japan, but everyone, even though we are treated so hard, the numbers have not decreased but those who left returning and those knocking on the doors to learn our teachings... and with pride for my mother and father and so the NABI activities drew 2nd gen from across the Japan have taken the mike to convey this truth to you...

The youth are taking to heart to speak for future generations...

To everyone watching on screen and here, we have been suffering due to greatly biased reports, and we want to convey the truthful image and many youth took courage to deliver speeches like this... I've seen people overcoming the persecutions and inheriting the love and faith of their families and I want to convey that we exist and the proof is right here.

I thought about why amidst biased reports and many risks, we continue like this, and I think it is because of our parents who moved forward no matter what they suffered... because it was for world peace truly... even if mocked across the globe, our Founders walked that single-minded determination with untold stories even hated, not resenting anyone and now we are enabled to carry out activities that spread peace,

and I thought the 1st and 2nd gen should join voices together and make it a better church... and even at the sacrifices, there are people who only desire world peace... for you to know and to protect the future of Japan and realize a world where people can laugh, I will continue to shout...

Moon Hoon Sook nim introduced a book that has become a best-seller on Amazon... called 'Scapegoats of the State' written by a journalist Masihumi Yukua?, she wrote the book very fairly... Through this book the world has come to know that the FF has been so persecuted, and the world public opinion has become to turn. Although we do not know what the high court's ruling will be, when I told Mother that the members are working hard with devotion and about the book... and Mother said, 'Yes, the truth will be revealed'

The author warns about the dangers of the dissolution of the church and that it is being treated with exclusion of the law, and tomorrow it might well be another church, not just this... Is it enough to dissolve a church if just because it became resented by a society... The Unification Church is not an organization to consider but it is more about their lives and work and school lives and faith that they must hide, I believe this is an invasion of human rights...

And in the 2nd half of last year, a 2nd gen couple of the US, the reason they came to CP directly is because the husband had tinnitus and the wife a cist... I had gone on mission in Russia and received Blessing with my present husband, and wanted to surprise my mother but in the winter cold she was selling bread on the street... My mother is working hard to send me to the Russian mission field and tears poured... But my mother said it is a proud thing before Heaven that our family has no money, but that she is doing it all alone...

And I made a determination that no matter how criticized and persecuted, I will follow this way of Unification Church... Various problems arose in the Minnesota Church where it became the area of my husbands' work... and our couple clung to Heaven and I thought if it is a church that reject us (tears) let us quit ministry, but then I saw a young generation playing near the church and I wept that I had to go this path no matter how hard for the sake of 2nd gen gathered for the sake of True Parents and now the foundation is so great that others move to attend there... but then the cists diagnosis, and I had a dream that my mother was calling me to CP, and arriving there I began to wail...

I could not say a word as a pastor's wife but just the one who said, 'I'm sorry' and thinking of the times I spent the nights I could not sleep, and struggling but achieving nothing... I sat on the floor of Cheon Shim Won saying to Heaven saying I could not take a single step further on this path of the Will. But since Kim myung Ok told me to liberate central resentment spirits... and then I heard the Voice of True Mother saying, 'Don't go. You must not go. Let us go together' and I realized Mother knows my pain and I'm not alone...

And with the Cheon Shim Won vigils and liberations I realized all my pain in the past was indemnity and I underwent scan to find out the cists had all disappeared... The wife strongly urged her husband to go to CP and he came as being pushed and responsible for a technology company that employs many worldwide, but his own body problems were impending on him... He admitted that he was not completely one with HMH True Mother and many times I prioritized work over my family... and I entered CP with some skepticism... I tried to do both work with my company televised and Cheon Shim Won devotion also and wanted to give up...

How do miracles happen... The history of Seongsung is the history of Mother's love. Who is the being one with the Mother? It is the newborn baby who cries out for the Mother and there is no other thought.

The Theory of the OBD seemed to be in conflict with Father's Words... While knowing how hard it is and that the members would oppose, I prayed why She had to go this way, and how could I be closer with Mother in Heart and one with Her and then Heavenly Parent gave me answers one by one... It was to reveal the H Mother that had been hidden until now and it was what only True Mother could do... I offered a prayer to Cheon Shim Won...

I wondered why I was clinging to True Mother for my tinnitus when M was suffering... and I wanted to call out my name Hyungte... and I heard my name from Mother saying She new everyting and my heart that did its best... and I felt such gratitude and was able to fulfill my first wish coming to CP and right after prayer I felt a dizziness and then my left ear cleared and then I felt a determination to love my wife more... and I bought some cushions and went back to my room and then my tinnitus disappeared and hearing in left ear that was nill suddenly returned...

While healing physical diseases is important, this couple lived with deep han and clearly that is exactly what is untangled and healed in the presence here in Cheon Shim Won...

To my wife, you wanted to finish your studies and be a math teacher and other things you wanted and that I promised you, I could not give them and I feel truly sorry to you... and there was hand that piled up in her chest... taking care of children and studying at night... and I wanted to be a 2nd gen who gives joy before Heaven, but I couldn't study for ten years during ministry... and Heaven had said to try studying hard, and why was I stopped in the middle... Where did God go Who always loved me and protected me by my side... Until this was resolved, I don't think I had strength to carry that... didn't know Cheon Shim Won could resolve by Heavenly Parent speaking to me 'Jinson, it is hard but Heavenly Parent's Voice became choked with emotion and could not speak further' and I realize Heavenly Parent was with me through all the difficult times but was saying, 'Still, let's go this path.'

Yes, Heavenly Parent knows all my pain and in ever moment I was in agony, realizing tht Heavenly Parent was there, it felt that all the han disappears... and also han toward her father, it was a period where that could disappear also... thinking he discriminated against me since I was young and Kim myung wok told me to liberate spirits causing han toward my father and toward the end, the han I had disappeared in an instant, instead of aching and feeling numb... I felt truly grateful and able to love my father freely...

I heard, 'It's been hard... You suffered a lot... ' and now I think I know what those words meant... In any situation, not forgetting the heart of gratitude and realizing you can become one with the Heart of Heaven...
